MISCELLANEOUS.

AMERICAN MOWER.—THE ONLY SELFSHARPENING MACHINE.

With the great protection in construction to Lawn Mowing Machines have been brought to the attention of farmers to a machine embracing SOME GREATER IMPROVEMENTS than any heretofore given to the public.

The Patent Protection has been sold to the hands of the Farmer in the commencement of the AMERICAN MOWER, to have it.

THE VERY BEST MACHINE IN USE.

There are numbers of Machines that do their work comparatively painless, and yet there are the numerous cases that are greatly annoying to the operator, among them the frequent necessity of going to the tool box, time lost particularly the cranks on, or the Pinion screw which, if neglected, gets so very tight as to prevent its cutting the business of Mowing, or in permanent injury to any machine. The AMERICAN MOWER has the lowest feet the of any other.

The BEARINGS OF THE AMERICAN MOWER, are with the CRANK PIN, and SELF LUBRICATING, and WARM NO OIL.

The one end of the Finger Bar will drop lower and fit closer than that of any other Mower.

You can adjust the Finger Bar from a declining position without raising the other side.

The Finger Bar can be called higher, to pass over obstacles, by means of the hand lever, than that of any other joined bar Machine.

The Frame between the Driving Wheels will pass over higher obstructions than the frame of any other Mower.

The operator has a greater control over the Finger and Knife Bar than has the of any other Mower.

The Finger Bar will be more to improve more easy than that of any other Machine, which is one of the most important points in a Mower.

Either wheel operates the Cutter Bar, independent of the other, and in turning, either way, the knives are kept in motion.

The Draft is from the center of the frame which gives it great advantages over those that draw from the pole.

It has an easy spring seat for the driver.

It has no [illegible] shown in and on every page of this [illegible]

It has to date [illegible] without discount [illegible]

It is of LIGHT [illegible] EXCEEDINGLY SIMPLE.

It is more simple and [illegible] construction, and has more strength, with [illegible] troubles, than any other Mower.

I cannot [illegible]

I deny contradiction to the above, and invite the scrutiny of all who have many [illegible] in the farming interest, to examine this Mower, feeling confident of their approval.
