and broke it up. They then went to the white hall and offered some disturbance, and being asked to leave, one of them knocked down one of the managers. Pistols were shortly afterward brought into use, and two soldiers were wounded. This broke up the ball. But in the night the soldiers broke into the store of Compton & Brothers, and shortly after they left, a fire was discovered, which consumed that and six other of the largest stores in the town. "Southern Loyalists" in Boston.

BOSTON, Sept. 12.—The Southern loyalists from the Philadelphia Convention had a most enthusiastic reception this evening. Faneuil Hall and Tremont Temple were both opened and were overflowing with vast assemblies. The Southern visitors were welcomed at Faneuil Hall by Gov. Bullock in a stirring speech, which raised the enthusiasm of the meeting to the highest pitch, concluding by introducing the Southern Delegation. Several members then made short addresses. Gov. Brownlow, who was quite sick, spoke feebly. He said he was engaged with his colleagues in a political mission, the object of which was to wipe out the moccasin tracks of Andrew Johnson, Wm. H. Seward and the other untamed and unmitigated copperheads who are following in his wake. But as he was a Governor of a great State it did not become him to deal in party slang, and he would say no more. The Governor spoke of a Convention of rebels and copperheads that is to meet at Nasville to overthrow the State Government. He had notified Seward of this Convention, but he had replied in a sneering and contemptuous letter, which the speaker would shortly publish to the world. However, he would call an extra session of his Legislature, and would meet that Convention in their efforts to overthrow his government fully armed. He had already applied to a Governor of a Northern State for ten thousand arms, and, backed by thirty thousand boys in blue, he had no fear of the result, unless the Federal Government sent down its troops led by a copperhead general. If such could be found. He concluded by declaring that the hope of the South was in the elections of the North, and he conjured the citizens that if two radicals were before them as candidates, to vote for the one who was most radical. At the Tremont Temple the delegates were welcomed by Alexander H. Rice, and the meeting, which was also attended by all the delegate, was quite as enthusiastic as that at Faneuil Hall.

NEW YORK AND THE VICINITY.

THE NOMINATION OF MAYOR HOFFMAN—REJOICING.—The announcement of the nomination of the Democratic Convention at Albany yesterday, caused considerable excitement though no surprise among his numerous friends in this city. Universal satisfaction was expressed at the result. Flags were at once run up on the City Hall, on the Comptroller's office, and over the Street Department, whilst several of the newspaper offices also displayed banting. At 5 o'clock one hundred guns were fired under the direction of the General Committee of Tammany Hall in conjunction with the Committee of the Philadelphia Convention in honor of the nomination. The nomination of Mr. Hoffman does not necessitate his resignation of the office of Mayor, but should he be elected he must resign his position. In that case, section 17 of the Charter provides that the President of the Board of Aldermen shall act as Mayor until the next Charter election. The President of the Board is Mr. John Brice, a Democrat.

A BANK ROBBERY FRUSTRATED—A daring attempt to rob the Franklin Savings Bank, at the corner of 42d street and 8th avenue, has just been frustrated by the 20th Precinct Police. It appears that on Friday morning last two men entered the bank, and while one engaged the Cashier in conversation, a confederate was seen by a boy stationed in the bank to be busily engaged in taking impressions of the locks of the bank door and the safe. After the men were gone the boy made known what he had seen to the bank officers, and information of the affair was communicated to the police. The bank was closely watched from Friday until Monday night, when a man was seen to approach the door of the bank, open it with a key in his possession, then lock it again and walk leisurely to the other side of the street. Here he was arrested by Capt. Walling and Officer Irving, who had been watching the building, and the key was found upon him. He gave the name of Samuel K. Horget. Meantime his companion was waiting in the vicinity with a coal box wagon, to which was attached a fine bay horse. As soon as he saw the arrest of Horget he drove rapidly away and made his escape. He is well known to the police. Horget has been committed for trial by Justice Lewith, having been identified by the officers of the bank as the man who entered it on Friday.

On Tuesday evening, after the meetings at Cooper Institute and Plymouth Church, the Committee were entertained at the Union League Club Rooms. Short speeches were made by several members of the Committee, among them J. J. Stewart, of Maryland, who paid a glowing tribute to the memory of President Lincoln. SAUSAGE MAKING AND FAT MELTING.—A complaint was received yesterday at the Complaint office, Board of Health, from a trunk factory in West 41st street, to the effect that their hands—some 30 or 40 in number—complain of the sickly effluvia which comes from the rear of a block of houses on the east side of 9th avenue, from 47th to 48th streets, and which sends them sick while at work. A sausage maker in the vicinity, complained yesterday, cause the most trouble, as after he slaughters hogs, the fat from blood and offal accumulates near their wall and oozes through into their yard and basement. When frying fat the stench is almost unbearable, and doors and corridors have to be closed, yet even then some of the hands become sick and have to suspend work. The Board will look after the bad smell at once.

METROPOLITAN FIRE DEPARTMENT.—The Commissioners had a meeting yesterday, and received communications from A. N. Morgan, calling attention to the storage of large quantities of kerosene at the corner of 38th street and 7th avenue; from a Steam Machine Manufacturing Company at Newark, N. J., inviting the Board to examine a new fire engine of their make; and from the Chief Engineer giving a return of fire alarms for the month of August. From this it appears there were 79 alarms—12 of which were false, the total number of fires on alarms from January 1st to September 1st, 1866, was 646. Six fires were also made, and several members were dismissed, and the resignations received of others were received. Acting Chief Engineer Decker sent in requisition for supplies. It was resolved by the Board to accept the offer of J. C. Baxter & Sons to furnish the department with pumps for the extinguishment of fires. The report of the Finance Committee advising the payment of sundry bills was accepted. The Committee on Apportionments and Discipline, making several changes and removals in companies and members, was presented, after which the Board adjourned.

Mr. Wm. H. Lawrence, of this city, occupied the chair, and in opening inferred forcibly to the necessity of honest manufacturers, who paid their taxes regularly, protecting their interests by endeavoring to put a stop to the extensive frauds on the Revenue by unprincipled dealers. In order to do this, Mr. Lawrence suggested a uniform assessment on each member of the trade, to forward the object in view. Speeches were made by several other gentlemen, after which, Committees of Conference between the manufacturers of New York and New Jersey and the States of the West were appointed and the meeting adjourned.

FIRE IN WASHINGTON STREET—AN OIL STORE DESTROYED.—Shortly after six o'clock P. M. a fire was discovered by Patrolmen Gunson and Cook, of the 8th Precinct, in the four-story brick building No. 320 Washington street, occupied by Messrs. Brewster & Allen, dealers in lard and sperm and laid oils. From investigations made by the Fire Marshal it appeared that the store was closed by the porter at 6 o'clock, and about ten minutes afterward a dense smoke was observed to rush out of the third and fourth story windows. The door was burst open by Officers Wilsey and Byrne of the 5th, who having entered, rsn up stairs, but in consequence of the smoke being so dense they could penetrate no further than the third story. They found the hatchways on the 3d and 3d floors open, and a small steam engine used for hoisting, running at full speed. The estimated loss on stock is $10,000, insured for $30,000 in city companies. The building is owned by the firm, and is damaged to the extent of $5,000; fully insured. The storage store, occupied by Slatter & Nicholson, No. 332, was damaged slightly by water. Capt. SERIOUS AND FATAL ACCIDENT.—Yesterday about six o'clock, P. M., a team of horses [which were attached to a phaeton, in which were Messrs. John and Edward Flynn and their ladies] while passing down Eighth avenue, became frightened and ran away. When turning the corner of 126th street they ran against a lamp post, and the ladies and gentlemen were thrown out. The former, however, escaped uninjured, but the gentlemen were so badly hurt that Mr. John Flynn died in about an hour afterwards. His brother is not expected to recover.

Moran fell from the front platform, and the fore wheel of the car passed over his left ear, mangling it in a dreadful manner. He was taken to the 29th Precinct Station House, and thence to his home, 261 East 14th street.

THE COURTS.

THE FAT BOILING CASE—In the Supreme Court Chambers yesterday the case of the People vs Christian Gries, came up before Justice Sutherland. Gries it will be remembered, was convicted in the special Session for criminally violating an order of the Board of Health, forbidding him to boil fat. Judge Dean now moved for a writ of certiorari with privilege to defendant to be bailed, pending a review of the case by the General Term of this Court. He claimed that the order on the violation of which Gries was punished was not shown by the evidence ever to have been personally served on him, and failing in this a conviction could not be sustained. Mr. Bliss, for the Board of Health, claimed that to show personal service was not necessary. It was enough if on the record it appeared that he had personal knowledge of the order. Judge Sutherland took the papers and reserved decision till this morning.

COURT OF GENERAL SESSIONS—Henry M. Sadler, convicted of an attempt at grand larceny was yesterday sentenced to the penitentiary for one year. Charles King and Raymond Carr pleaded guilty to a charge of petit larceny from the person. Remanded. Anna Garland pleaded guilty to an attempt at grand larceny. Remanded.

RECEPTION OF PHILADELPHIA FIREMEN—QUITE A GALA DAY IN BROOKLYN.—Some few months ago "Franklin Engine Co. No. 3," of Brooklyn, visited Philadelphia, and were very hospitably received by their brother firemen of "Reliance Engine, No. 7," of that city. The Brooklyn boys remembered the kindness then shown them, and were determined to return it in kind at another time. They therefore recently invited Reliance Engine Company to visit Brooklyn, which invitation was accepted, and yesterday they arrived in New York by way of the Camden and Amboy Railroad. They were met on the dock in New York by Franklin Engine Company and a detachment of New York firemen, and were conducted to the Belmont Hotel, Fulton street, where dinner was served up to them, after which, about 4 o'clock, they took up the line of march for the ferry. Chief Engineer Cunningham remained behind in Brooklyn to perfect arrangements for their reception in that city, while Assistant Engineers Dowd, Barr and Fitzpatrick represented him in New York. The Chief's temporary headquarters were located at the corner of Clark and Hicks streets, where the several companies who were to participate in the reception reported to him. The Philadelphia company numbers 70 men. Torrence Mechanics Chief Engineer. Arriving in Brooklyn, a squad of police met them at the ferry, and the line of march was taken up Fulton to Hicks street, thence to and through Clark street to Henry street, by which they reached Fulton street again. All the companies engaged in the reception were in uniform in sticks and Henry hats, with apparatus gaily dressed and men dittto in the old familiar volunteer style, which has such attractions for the "fire laddies" and indeed all old citizens. Among the most noticeable for dress and ornament was Northern Liberty Engine No 5, E. D., which had a temple enfronted in the Doric fashion under which stood erect the Goddess of Liberty with a crown of stars on her brow. A splendid specimen of a stag (snuffle) was also borne by this company. They numbered 75 men. Brooklyn Engine No. 17 and Eureka hose Co. machines were also very beautifully dressed. Montauk Engine No. 22 had a large American flag spread upon it, and a figure of the great Indian warrior, Tecumseh surveying the scene from the watch-tower. Atlantic Hose No. 1 was also beautifully decorated. In fact all tried to do honor to the guests of their Franklin brothers. There were about 40 companies in the procession as it passed out of Henry street into Fulton street. About 1,500 men turned out to pay their respects to the Philadelphians. Flags and streamers floated from every staff along the route and also from many windows of private residences. The procession marched up Fulton street to Clinton, thence to Atlantic and Court streets to Fulton avenue and thence to and through Clinton and Myrtle avenues to the City Hall, where they were dismissed. A grand entertainment in the evening wound up the reception of the day. The "Reliance" boys will go on an excursion to Dudley's Grove to-day, and to-morrow they will visit the County Institutions, and in the evening the Park Theatre, and on Saturday they will return home.

COLLISION ON THE EAST RIVER—TWO MEN DROWNED.—About half-past three o'clock yesterday afternoon the Roosevelt street ferry boat Idaho collided with a launch belonging to the Navy Yard, opposite the foot of Clinton street, and the drowning of two men resulted from the collision. When the pilot of the ferry boat saw the danger of a collision he called to the men in the launch to keep to the left; instead of doing so, however, they kept to the right. When the launch was struck, two of her crew, named Manuel Conley and Joseph Randall (both colored), jumped overboard and were drowned. Their companions were saved by the hands on board the ferry boat. The launch was so badly damaged that it had to be towed to the Navy Yard. It does not appear that any attempt was made to save the lives of the men who jumped overboard. Indeed it is said that there was neither a life-boat nor a life-preserver on board the Idaho.

CONVICTION OF A WOMAN FOR VIOLATING THE EXCISE LAW.—Mrs. Ellen Dimond, a widow engaged in the liquor business at No. 332 First street, E. D., was yesterday placed on trial before Justice Dailey and a jury, on a charge of selling liquor without a liquor license. The complainant was an officer of the 45th Precinct, who testified that he purchased a glass of whiskey from the defendant, who told him that she had no license. The case being a clear one, the Jury rendered a verdict against Mrs. Dimond. She will be sentenced to-day, probably to pay a fine of $50.

JOHNSON MUSKETEERS.—The Johnson men of the 24th Ward met at John Brennan's, corner of Clement and Flushing avenues, on Tuesday night, and organized a company, known by the name of the "Andrew Johnson Musketeers."
