Mr. Greeley the Coming Man.

From the Chester County (Pa.) Journal.

If he receives what he merits, the Hon. Horace Greeley will be the next candidate of the Republican party for the Presidency. No one man has labored more earnestly and faithfully to promote Republican principles. In the darkest hours of its existence, from its birth up to its full and vigorous manhood, it never had a more enthusiastic, potent, and honest exponent. Mr. Greeley has made and unmade men, and has elevated to dignity and stations of honor some of the smallest specimens of humanity, and some of the greatest frauds ever foisted upon the country. For thirty odd years that gentleman has been the wheel-horse of the party, always faithful and consistent, and always laboring for the success of his cherished principles. He has avoided nothing like a responsibility. His record as a man or politician is as clear as crystal—emphatically above reproach, and beyond the reach of censure.

Aside from Mr. Greeley's claim for the nomination on the ground of long and faithful services, he is entitled on the score of statesmanship and unquestionable integrity and brains. It needs no argument to prove that the Philosopher of the *New York Tribune* is in every way fully competent to discharge the duties of the Presidential office with honor and faithfulness to the country, the party, and mankind. Men like Johnson and Grant are quakers, who doubts that Mr. Greeley does not possess the necessary qualifications?

We have shown that Mr. Greeley is worthy; also, that he is well qualified, and is entitled by rights to the coveted honor. There is only one obstacle in the way of his promotion, and that obstacle is contained in the one word "Expediency." That expression has ruined the hopes of many an aspirant for the position. If expediency be resorted to, then probably Gen. Grant will be the standard-bearer of the Republican party. If not, why then the "Farmer's candidate" will lead the hosts to victory.

Mr. Greeley's visit South, and his cordial reception, is not without political significance. It means more than an empty show. Time will develop it. Certainly, it appears now that Mr. Greeley looks very much like "the coming man."

All Good Men in Favor of the Farmers' Candidate.

To the Editor of The Sun.

SIR: The constantly increasing demonstration that is being made by the press throughout the country in behalf of Mr. Greeley's nomination by the Republican party for the Presidency is certainly cheering to every lover of justice and hater of wire-pulling. I don't spend much time in the company of gamblers, horsethieves, or blackguards, but neither I nor my friends think it at all probable that many of these aforesaid are favorable to Mr. Greeley's occupying the Presidential chair.

On the other hand, not many philanthropic, God-fearing, man-loving citizens would vote against him, in my opinion. That men who found Sunday schools, homes for the friendless, Y. M. C. A.s, Cooper Institutes, Vassar Colleges, free libraries, pay liberal salaries to their workmen, and regard the laboring men with some little enthusiasm, will be generally found not disinclined to his nomination, I am confident.

I nominated, he would be elected by a majority that would give the liberal, narrow-minded political secshes their death of cold.

Yours expectantly, INSIGNIFICANCE.

NEW YORK, June 19, 1871.

Why Mr. Greeley Should Not be Nominated.

To the Editor of The Sun.

SIR: I am afraid that the proposed nomination of Mr. Greeley will not be acceptable to many Republicans unless he changes his tune with regard to our relations with Cuba. I do not know what his private feelings are on that subject, but if he has a deep sympathy with the people of that island in their struggle for independence, he has not indicated it in his journal, the *Tribune*. That paper has always been lukewarm in behalf of the Cubans, and recently it contained an editorial approving of the course which our Government has taken with regard to them.

It may be that he is not responsible for the direction of the policy of the Tribune in that respect; but that is the fault of some heartless, shallow-pated understrapper; but, unless he can show that it is so, I think it very probable that there are many so much disgusted with the course of the paper that they will refuse him their votes. H.

Will Horace have a Tariff for Presents?

DEAR SUN:

Since Grant for presents office gives,
And by his couriers' contracts thrives,
An inference is justly made
That he's in favor of Free Trade;
Or, if he takes a milder view,
Considers but the Revenue.

Now, if Chapnanqua takes the throne
Made vacant by the Silent One,
What tariff will he recommend—
One that's protective of such dealing,
Or one prohibitive of stealing?
Please let THE SUN shine on

YOUR FRIEND.

Everybody knows th at Horace favors a protective tariff as a means of promoting American industry; but in respect of presents as preliminary to appointments to office, we feel ourselves authorized to promise that he will establish a tariff that will be totally prohibitive. Wouldn't it be a good thing to see President Greeley when any aspirant for office should bring him a bull pup, or a velocipede, or a George M. Patchen colt, or a first-class cedar lap-streak wherry as a recommendation for appointment? We believe Horace would even swear on such an occasion; and our correspondent, pious as we trust he is, would not regard the swearing as altogether profane.

Kennedy's Two Wives.

Jeremiah Kennedy married Rosanna Halpin on the 25th of February, 1868, the Rev. Father McCorry of St. Mary's performing the ceremony. On the 25th of April last, while Rosanna was yet his lawful wife, Kennedy went on a spree, and while drunk was married by the Rev. John S. Haugh of the Willett street M. E. Church to Emily Kelis. He was tried in the General Sessions yesterday for bigamy, and on his pleading guilty, Emily explained to the Recorder that the marriage had not been consummated, and requested the restoration of Kennedy to his first love. The Recorder remanded Kennedy and will inquire into the case.

REAL ESTATE MOVEMENTS.

At the Exchange Salesroom yesterday, the brick and frame building and twenty lots on the line of the Flushing Railroad, and southeast corner of Washington avenue, running through to Newtown Creek, were struck off to D. Mark for $6,000. The sale of 160 lots near Vanderbilt's Landing, by Johnson & Miller, was decidedly successful. The property, consisted of a dwelling and out buildings and twelve lots, fronting on the Richmond road, and other lots with a frontage on Vanderbilt avenue, Metcalf and Simonson streets. Eight lots on Bedford street, commencing 240 feet west of Vanderbilt avenue, were knocked down for $2,000, and eight lots on Simonson street were taken at $1,850. The prices ranged from $155 to $350 per lot.

Extensive improvements are making by Bunce & Co. for the sale of 2500 lots at Altmus, Rockland county, the proceeds of which are to be applied to the founding and endowment of a male and female college for the people, and an educational asylum for little girls. The institution is to be known as the People's College. Mr. Walter H. Shupe, the donor, has executed a deed of gift to a Board of Trustees from the Masonic Order and the National Lodge of Good Samaritans. Three acres at Nanuet are designated for the male college and twenty at Altmus for the female college. Yesterday Mr. Bunce received from an unknown George a package containing $500, the largest subscription yet received, stating that the donor contributed the amount named in aid of the People's College at Altmus, Rockland county, and asking that it be added to the fund.

FINANCIAL AND COMMERCIAL.

TUESDAY, June 20—P. M.—Wall street has been in a feverish and unsettled condition throughout the day, with periods of unusual excitement, though the volume of business in the general list has been comparatively small. The sudden "break" in Consolidation Coal from 51 to 40¾ this morning created an uneasy feeling among holders of railway shares, and for a time the dealings were characterized by great anxiety to realize. Lower prices of the more active shares also reflected the hesitation of operators to engage in new speculative ventures, while such stocks as Western Union were pressed for sale at the improved quotations made since last week's decline. Allusion was made to the coal stocks in this morning's columns, and to the fact that the consolidation of the Maryland Companies had not been effected. Early this morning there was, consequently, much anxiety to sell by the outsiders who had purchased in the belief that prices would soon advance 10 or 15 ₱ cent. beyond figures already attained. Besides this feature there was nothing specially important until about 3 o'clock, except a firmer and higher tone to prices of the Northwestern and a steady market for the remainder of the list at the depressed quotations. Rock Island soon afterward became the great feature of the afternoon, advancing rapidly from 126¾ to 130¾, and creating consternation among the large number of "shorts," who eagerly sought to close their contracts. It is currently reported that several prominent operators are, however, still heavily short, and that to-morrow will record still higher figures, unless a compromise or settlement is effected this evening. There were indications during the morning that Rock Island was being kept firm in order to prevent the remainder of the list from declining under the heavy short sales of the other active shares; but while this was true to a certain extent, yet the "pools" in this stock are evidently looking after "higher game." The tactics employed in the manipulation of Rock Island yesterday and to-day would seem to suggest that the street speculators do not comprehend either the magnitude of the scheme or the real parties who have this week thus far so successfully advanced the price. To-morrow will doubtless again record great excitement and active dealings, though smaller operators continue apprehensive lest the transactions in the other shares will dwindle into comparative insignificance, practically breaking up, as to-day, the balance of the market.

The gold speculation has been unusually tame and entirely devoid of life, all the transactions, which were very restricted, being at 112⅜@112½, these being the quotations throughout the day. In the gold loan market the rates were 1 and 3 ₱ cent. for carrying, flat, and 3, 2, 1, and 1-64 for borrowing. The Thursday took out $383,000 in specie. At the Sub-Treasury the gold receipts were $509,693; payments, $153,888, and balance, $56,991,372. The currency receipts were $154,138; payments, $208,553; balance, $4,101,047. The receipts for Customs were $477,000. The total clearings at the Gold Exchange Bank were $35,492,000; gold balances, $1,017,310; and currency balances, $1,148,972. The following are the quotations:

10 A. M.....112⅜ 12:30 P. M.....112⅜ 3 P. M.....112⅜

Foreign exchange for to-morrow's steamer closes strong and higher, the leading drawers having advanced the rates of prime 60 day's bills to 110⅞, and short bills to 110⅞.

Toward the close of bank hours a slightly increased demand for money was reported, and a larger number of loans were made at 4 ₱ cent. to the stock brokers, though the business of the day was at 3 and 4, the bond dealers being supplied at 2. It is not improbable that money will rule temporarily at higher rates, as the loans are called to provide money for dividend disbursements, but it is not likely to be lasting. There is a fair business reported in mercantile paper, prime grades going at 4½@6 ₱ cent.

Government bonds have been strong and higher on a more liberal buying movement, and the market closes at the best prices of the day. Central Pacific advanced to 102¼.

A well distributed business was reported in State bonds, but the late advance was barely sustained. In the miscellaneous list the coal stocks were weak and heavily pressed for sale, Consolidation breaking from 51 to 40¾. Maryland was sold as low as 35¾ to 34; and Spring Mountain at 80. Western Union Telegraph fluctuated between 60 and 61; Pacific Mail, 42¾@43¾; and Mariposa preferred, 7¾@7¾. Express shares were dull, but strong on Adams at 81.
