greed to build under its charter, is to issue first mortgage bonds at the rate of $25,000 a mile, and income bonds at the rate of $12,800 a mile. To complete the first 600 miles of the extension, namely, from the Rio Grande River, near Albuquerque, New Mexico, to the Colorado River, cash subscriptions to these two classes of bonds to the amount of $10,000,000 are invited from the stockholders of record of the Atchison, Topeka and Santa Fé and the St. Louis and San Francisco. The amount to be subscribed for is equally divided between the two companies, and has also been apportioned so that every 175 shares of Atchison, Topeka and Santa Fé stock is entitled to subscribe the sum of $4,000. For this $4,000 there will be issued to the subscriber $4,000 of the first mortgage bonds and $3,000 of the income bonds. If a stockholder does not desire to subscribe, he can dispose of his right to do so. Such privileges are just coming upon the Boston stock market. Holders of less than 175 shares can subscribe in multiples of $4,000. The advantages claimed for this plan is that it avoids the formation of a construction company and admits the stockholder of the building corporation to the profits of the construction. A private despatch from Albuquerque, received by an interested banking house in this city today, says that Vice-President and General Manager E. F. Winslow of the Atlantic and Pacific Company has arrived there, and is using all possible despatch in pushing the construction of the new road.

The London *Economist* of this week says: "The rate of discount for bank bills, 60 days to 3 months, is 2¾ ⅞ cent, and for trade bills, 60 days to 3 months, 2½@3 ⅞ cent. On the Stock Exchange the general movement has been upward. There is a tendency to hold Government securities, in anticipation that the new Government will be strong in its popularity with the country at large; hope the remarkably high figure to which consols have risen. Prices toward the close of the week moved irregularly, the chief speculation being in English and Canadian and some American railways, and in Egyptian bonds. Iron and mining companies' stocks show a decided reaction, in consequence of an important fall in the metal markets."

New York Markets.

SATURDAY, April 17.—FLOUR AND MEAL—Were dull, and decreased. We quote: Flour—No. 2, $2.75@$3.75; superfine, $4@$4.40; extra State, &c., $4.50@$5; Western spring, XX and XXX, $5@$6.50; winter shipping extras, $4.75@$5.50; do.
