DYSPEPSIA AND INDIGESTION.

CURES DYSPEPSIA OF 40 YEARS' STANDING.

PAWTUCKET, R. I., March 11, 1879.

DR. CLARK JOHNSON: I never was in better health in my life than I am now, and it is all by using your INDIAN BLOOD SYRUP. I was always troubled with Dyspepsia and Indigestion from a child, and that is over 40 years, until I used your BLOOD SYRUP, which cured me. I have used it in my family for five years, and I would not be without it. I believe it to be one of the best medicines ever used for almost any disease, and I would advise every one having disease of the Stomach, or Kidneys, or Neuralgia to use it.

MRS. BETSY F. HOPKINS.

DYSPEPSIA AND INDIGESTION.

94 SOUTH 4TH ST., BROOKLYN, E. D.

DR. CLARK JOHNSON: I owe to your INDIAN BLOOD SYRUP my release from a severe and persistent attack of dyspepsia. The form in which the disease showed itself was an entire loss of appetite, nausea, dizziness, and buzzing in the ears. These, of course, produced great weakness, and my ambition deserted me. Everything I did was a severe task, and it was only with a struggle that I could get about to do my household work. Just then my husband obtained the agency for your medicine, and, hoping against hope, I determined to try it. The effect was immediately apparent; the use of one bottle cured me. M. A. LAKE.

DYSPEPSIA.

DR. CLARK JOHNSON: I used your INDIAN BLOOD SYRUP for dyspepsia from which I suffered for five years, with the happiest results.

A few doses placed my stomach in a condition to digest food—the relief resulting from one of those dreadful pains experienced by dyspeptics after eating—and although it at first caused occasional dizziness, this quickly disappeared on my continuing its use. My digestion is now almost perfect, and I feel greatly benefited. Yours,
WM. A. FIREMAN,
