SATURDAY, Sept. 18.

The stock market was firm at the opening, but at the first board Western Union, which was worth ¾@¾ ⅌ cent, ⅌ diem for use, broke from 104¾ to 102¾. This led to weakness in the general market and prices declined ¼ to 1 ⅌ cent. Nash., Chat. and St. Louis broke from 65¾ to 60. At the second board the market was strong, and advanced ¼ to 1¾ ⅌ cent., Hannibal and St. Joseph and Wabash leading the upward movement. The closing sales were at a reaction of ¼@¾ ⅌ cent. Ohio and Miss. was an exception, and declined from 36¾ to 35, closing at 35¼. Pittsburgh, Titusville and Buffalo was strong, and advanced from 31⅞ to 33½, closing at the highest point. The changes for the day in the leading stocks were as follows: Advanced—St. Paul preferred, ¼; St. Paul common, ¼; Lake Shore, ¼; Union Pacific, ¾; Hannibal and St. Joseph common, ¼; Hannibal and St. Joseph preferred, 1¾. Declined—Rock Island, ¼; Northwestern common, ¼; Michigan Central, ¼; Western Union, 1¼; Del., Lack. and Western, ¾; Illinois Central, ¼; C., B. and Q., ¼; Erie, ¼; Jersey Central, ¼; Pacific Mail, ¼; Ohio and Miss. common, 1¼.

Government bonds were dull. Railroad bonds were quiet and steady, on a moderate business. Money on call, 2@3 ⅌ cent.

The exports for the week (exclusive of specie) were $8,718,379, and the total since Jan. 1, $283,703,809, against $227,287,995 last year. The imports of dry goods and general merchandise for the week were $12,797,557, and the total since Jan. 1, $358,773,319, against $223,789,985 in 1879. There were no exports of specie this week.

Reserve required	74,587,625	74,732,175		
Excess of reserve above legal requirements	5,700,875	5,302,825	Dec.	$398,050

The Treasury now holds $360,560,850 in United States bonds to secure bank circulation. Bonds deposited for circulation during the week ending to-day, $439,500; bonds held for circulation withdrawn during the week, $942,100; national bank circulation outstanding is: Currency notes, $342,560,606; gold notes, $1,325,060.

The receipts of national bank notes for redemption for the week ending to-day, as compared with the corresponding period last year, are as follows:

	1879.	1880.
New York	$205,000	$220,000
Boston	347,000	80,000
Philadelphia	90,000	80,000
Miscellaneous	456,000	360,000
Total	$1,097,000	$738,000

Internal revenue receipts to-day, $462,300; customs, $1,325,060.

The Treasury Department to-day issued a circular saying that hereafter the United States Treasurer at New York will pay out at his office standard silver dollars or silver certificates in sums of $10, or any multiple thereof, in exchange for gold coin or bullion. This order is intended to supply the demand for small notes. They are scarce, and cannot conveniently be obtained by shippers. Facilities for the easy movement of the fall crops are necessary. In New Orleans and other cotton centres in the South the demand is especially great, and it will extend as the movement of the crops spreads over the South and West. The issue of United States notes is always kept at the present figure. It cannot be increased or decreased. The national banks cannot profitably increase their circulation, as the purchase of bonds at the present high premium would not make such a transaction at all advisable. The circular will in a great measure relieve the money pressure. Under its operations there will be these results: the increase of the circulation of notes, though not to so great an extent as the increase of the circulation of standard silver dollars, and the increase of the gold reserve of the Treasury.

For the week ending to-day there have been $22,496 standard silver dollars shipped from the United States Treasury for distribution. During the same period in 1879 there were but 359,493 dollars shipped.

The steamer Mosel brought from Europe to-day $476,200 in gold. The total imports of specie for the week ending to-day are $4,106,482, and since Aug. 2, $19,570,382. The steamer Westphalia, from Hamburg for New York, which sailed from Havre to-day, took on board there $100,000 in gold. The Westphalia also has on board 2,400,000 marks, which she took from Hamburg.

The production of anthracite coal last week was 646,424 tons, against 550,519 tons for the corresponding week of 1879. The total production from Jan. 1 to Sept. 11 was 14,941,806 tons, against 17,523,177 tons for the same period of last year, showing a decrease this year of 2,581,371 tons.

The officers of the Midland Railroad Company of New Jersey report for 3½ months from May 16—the date when the road was turned over to them by the receivers—to Sept 30, earnings, $199,881; operating expenses, $104,216; terminal charges, $18,982; leased roads, $10,841; leaving a surplus of $65,842.

The London *Economist* of this week says: "The rate of discount for bank bills, three months, is 2½ ⅌ cent., and for trade bills, three months, 2½ ⅌ cent. Stocks, with a few marked exceptions, have been irregular, with trifling fluctuations. The movements of the European fleet in the Adriatic cause uneasiness and distrust, and a feeling of depression, which Continental Bourses share. American securities are lower on New York advices. Home railways were weakened by adverse traffic returns. Bank shares, foreign mines, and water companies' stocks are higher.

The Austro-Hungarian customs returns for the month of July show an increase, compared with the corresponding month in 1879, of 21 ⅌ centum, chiefly from the increased duties on coffee, petroleum, and spices. The imports of all kinds of manufactured goods have decreased slightly. The exports of wheat, flour, and rape seed have decreased. The exports of raw sugar, tobacco, spirits, wine, and iron ore have increased largely, in some cases over 100 ⅌ centum.
