the American Mining Stock Exchange, to-day, the following names were recommended from which the Mining Trust Company should select three names to represent the Exchange in the Board of Trustees of the Trust Company: Washington Lee, William F. Mallor, S. M. Blatchford, C. E. Orvis, Paul J. Armour, and Franklin Allen.

The rise in American Union Telegraph stock is probably owing to the expectation that the Western Union Company will propose an amicable division of business. It is said that borrowed Western Union stock has been returned to-day in certificates in the name of W. H. Vanderbilt, from which it is inferred that Mr. Vanderbilt is in a position to buy back stock sold by him at higher prices, and that when he has done so he will make peace with the American Union.

The Chicago, Burlington and Quincy Railroad directors to-day voted to call a special meeting of the stockholders on Dec. 28 to vote upon the proposition to consolidate the Chicago, Burlington and Quincy Railroad with the Council Bluffs and other roads; and also upon the question of authorizing the directors to issue new stock therefor.

The Flushing, North Shore and Central Railroad was sold to-day to the bondholders, who will reorganize the company under the title of the Flushing and North Side Railway Company. The price paid is understood to be between $900,000 and $1,000,000. When reorganized the road will be operated by the Long Island Railroad Company under a fifty years' contract, the consideration being a part of the receipts. The proportion is not stated.

The Salamanca, Bradford and Allegheny River Railroad was incorporated to-day. The length of the road will be twenty-five miles; capital, $850,000. The line will connect Salamanca, Cattaraugus County, with a point on the New York and Pennsylvania State line.

Mr. Charles Belcher, founder of the Belcher Sugar Refining Company of St. Louis, and its President and manager for thirty years, resigned from the directorship on Friday to which he had just been reelected. His retirement from the board necessitated the election of a new President, and W. L. Scott, the Secretary, was chosen to fill that position.

The arrangement made with the Canadian Pacific Railway syndicate was presented last night to the Dominion Parliament, and will come up for debate next week. The contract to build the road is made with George Stephen and Duncan McIntyre of Montreal, J. S. Kennedy of New York, R. B. Angus and J. J. Hill of St. Paul, Newton Rose & Co. of London, and Kouk, Reinach & Co. of Paris, who will be known as the Canadian Pacific Railway Company. The capital stock is to be $25,000,000. The directors are to be George Stephen, Duncan McIntyre, J. S. Kennedy, R. B. Angus, J. J. Hill, H. Stafford Northcote, P. P. Greenfell, C. D. Rose, the three latter of London, and Baron Reinach of Paris. The chief place of business will be Montreal.

The London *Economist* of this week says: "The rate of discount for bank bills, 60 days to 3 months, is 2¾@2⅞ ⅌ cent, and for trade bills, 60 days to 3 months, 2⅞@3⅜ ⅌ cent. Despite the rise in the Bank of England rate of discount, the relapse in prices on the Stock Exchange has not been at all considerable. Speculators appear willing to pay still higher rates for loans rather than relinquish their holdings. New securities of all kinds are eagerly sought after. Colonial Government debentures have been in good request at a substantial advance. Canadian four per cents have risen 1 to 1¼. In foreign there was some tendency to weakness, which was natural after the late considerable advance. United States funded loans, however, have shown a marked revival, principally due to the proposed reduction in the interest on the redeemable debt to 3 ⅌ cent. In Canadian railways, Grand Trunk and Great Western debentures stock are a little higher, and Midland Canada bonds 12¼. In American railways the advance is almost universal. Union Pacific shares have risen 9, and St. Louis Bridge preferred 2. Many mortgages have also improved, Burlington and Cedar Rapids as much as 4, Delaware and Hudson Canal shares have risen 15."
