SATURDAY, Oct. 1.

The stock market opened somewhat irregular. The coal shares, Western Union, Lake Shore, and Reading advanced on the opening prices; Union Pacific and Hannibal and St. Joseph preferred declined; Manhattan Elevated declined and then recovered. At the first board the market was generally weak, with considerable declines in Denver and Rio Grande, Manhattan Elevated, and Central Pacific; but there was a recovery in Hannibal and St. Joseph preferred, and Reading was exceptionally active and buoyant, selling at 74¾, buyer 3. Ohio and Mississippi common also advanced. Between calls there were general declines. At the second board there was a fresh break in Manhattan Elevated to 17¾, recovering to 18¾, and prices generally. New York Elevated fell from 110¾ up to 115¾; in other respects business was quiet. In the latest transactions New York Elevated further advanced to 119, but the money pressure weakened the general market. The more important changes for the day were as follows: Advanced—Reading, 1¾; New York Elevated, 9. Declined—Canada Southern, ¾; Nashville and Chattanooga, 1; Louisville and Nashville, 2; Kansas and Texas, 1¾; Denver and Rio Grande, 1¾; Omaha common, 1¾; Omaha preferred, 1¾; Central Pacific, 1; Manhattan Elevated, 2; Ontario and Western, ¾; Texas Pacific, 1¾; New York Central, 1; New Jersey Central, ¾; Union Pacific, 1; Wabash and Pacific common, ¾; Wabash and Pacific preferred, 1¾; Erie, ¾; Pacific Mail, ¾; Missouri Pacific, ¾; Metropolitan Elevated, 1¾.

Governments were steadier but quiet. State bonds less active, and opened easier, but on a fair demand closed steadier. Railroad bonds were dull, and there was a material decline for Boston, H. and E. 1sts.

The money market was feverish. Call loans almost uniformly 6 ₩ cent, and a small commission.

Circulation	19,703,200	19,703,100	Dec. 100

The relation between the reserve and the liabilities is:

Specie	$64,994,400	$59,603,200	Dec. $5,391,200
Legal tenders	15,067,200	14,767,200	Dec. 300,000
Total reserve	$80,061,600	$74,370,500	Dec. $5,691,200
Res've req'd	78,543,325	77,153,925	
Excess	1,462,275		4,218,300
Deficiency		2,783,425	

These figures confirm the predictions we made more than a week ago, that the Western and Southwestern demand for currency would soon tell upon the bank reserve.

The Donau brought $590,000 in gold bars.

Internal revenue receipts to-day, $748,848; customs, $618,660. Receipts of national bank notes for redemption for the week:

	1880.	1881.
New York	$148,000	$34,000
Boston	60,000	4,000
Philadelphia	80,000	71,000
Miscellaneous	42,000	30,000
Totals	$330,000	$139,000

The United States Treasury now holds in United States bonds to secure national bank circulation $365,603,000, as follows:

Currency 6s	$32,945,150
4 per cents	1,250,000
5 per cents	291,408,350
Total	$365,603,000

Bonds deposited to secure circulation during the week ended Oct. 1, 1881, $1,327,700. Bonds to secure circulation withdrawn during the week, $885,700. National bank circulation outstanding: Currency notes, $357,770,490; gold notes, $980,450.

The debt statement shows the decrease of the public debt during the month of September to be $17,483,611; cash in the Treasury, $290,686,847; gold certificates, $5,248,920; silver certificates, $64,194,916; certificates of deposits outstanding, $8,215,000; refunding certificates, $663,950; legal tenders outstanding, $346,681,016; fractional currency outstanding, $7,098,596.

Offers of 3½ ₩ cent. bonds for redemption under the circular of Sept. 21 will be received at the Sub-Treasury in this city on Monday of each week until noon.

The following is the ruling which it is said the Commissioner of Internal Revenue will make on the subject of the taxation of bank deposits: Where deposits are made of checks or drafts immediately carried to the credit of depositor, and which are subject at once to payment by check or draft, they must be returned as deposited on the day the checks are received and entered to the credit of the depositors, but in adjusting the balance of deposits in this clearing house, settlements will be recognized as balance and bankers will rectify the balances appearing on their books at the close of each day's business, so that on the succeeding day the checks received from the Clearing House each morning, treating such checks as though they had been received and charged up before the close of business on the previous day.

The rise in New York Elevated Railroad stock is attributed to the expectation that the company will very soon receive possession of its properties, and thereafter earn enough to pay dividends of 10 ₩ cent. per annum. This calculation leaves out of account, however, the unsettled question of taxation of the road structure, which amounts to fully 4 ₩ cent. per annum on the entire capital stock, and also the effect of competition from the Metropolitan second avenue road, if the New York Company should attempt to run its lines independently. It is more likely that to-day's purchases were made to cover short sales, and that the prices paid will not be sustained.

The report, telegraphed from Boston on Tuesday last, that Judge Devens of the Supreme Judicial Court of Massachusetts had reopened the foreclosure of the Boston, Hartford and Erie Railroad, turns out to have been based upon very slight grounds, to say the least. The proceeding before the Judge was an application by the trustees of the Bordell mortgage for an order of accounting, to enable them to get their final discharge. The Boston, Hartford and Erie Company appeared by counsel and asked leave to come in and contest, previous to the accounting, certain decrees, not specifying them, which had heretofore been made in the suit. In passing upon their motion the Judge said that no leave was needed, the company being already a party to the suit, and in a position to take any action its counsel might advise. The order of accounting was then made, without further opposition, and without any provision for reopening the decrees.

The Western division of the New York and New England Railroad, between Brewster's and Fishkill, opposite Newburgh, which was completed some days ago, will be opened for business by or before Nov. 1.

President Bond of the Philadelphia and Reading Railroad says that the proviso in the convertible 7 ₩ cent. bonds does not preclude their conversion into stock, but it is simply intended to prevent the holder both from collecting the dividend on the stock and obtaining the interest on the bonds. In instances a conversion of more than $200,000 worth of convertible bonds into stock last year for use at the January election, and declares that the conversion can be made before the stock books close.

The production of anthracite coal last week was 601,940 tons, against 639,171 tons the corresponding week of 1880. The total production from Jan. 1 to Sept. 24 was 19,801,642 tons, as against 16,134,269 tons for the like period of last year, an increase this year of 3,757,373 tons.

The imports for the week were: Dry goods, $2,347,346, and merchandise, $7,034,645; a total of $9,402,591.

The quarterly revenue returns of Great Britain show an increase of £1,121,000 as compared with the corresponding quarter last year, the principal increase being in excise. The London *Times* says: "The returns are evidence that the hand-to-mouth trade has really been growing steadily for the last two years, and that this growth is at length beginning to tell markedly on the consuming power of the country. Trade, according to previous experience, is now likely to grow faster than ever for a few years to come."

BANKING AND FINANCIAL

The Liverpool Cotton Corner.

LONDON, Oct. 1.—The Manchester correspondent of the *Standard* says: "The result of the meeting of the committee of the Manchester Cotton Spinners' Association yesterday has strengthened the feeling that short time will not again be adopted, and that the agitation against the 'corner' is practically ended. The Oldham Spinners' Buying Company is progressing satisfactorily with their business in Liverpool, and in spite of the strong opposition on the part of Liverpool brokers, about twenty limited companies at Oldham have already admitted them to the Oldham brokers. All accounts agree that the 'corner' is tried very quietly."

LIVERPOOL, Oct. 1.—The *Mail* says: "The profits of the cotton 'corner' are estimated at from a quarter to half a million pounds. Only one small failure is known to have occurred and no other is expected."
