SATURDAY, Jan. 5.

The stock market has been active and excited, owing to the rapid advance in prices, which inspired a general desire to get on the long side of the market. At the opening, Union Pacific was eagerly bought, principally by one house. The Gould stocks were also in good demand, and the buying of the Vanderbilt, the Granger, and the coal stocks indicated that the capitalists identified with the several properties proposed to establish a higher range of values for their securities. The entire list was favorably affected by the movements mentioned. The short interest contributed its full share to the advance by purchases to cover its contracts and to change the nature of its ventures. As compared with last night's closing, Lackawanna recovered one-half of the dividend taken off today. Closing prices, which were at a recession from the highest for the day, showed advances for the entire active list of from ⅞ to 1⅞ ₱ cent.—the latter Oregon and Transcontinental, while Oregon Railway and Navigation and Michigan Central made exceptional gains of 2¾ and 3 ₱ cent, respectively.

The more important changes for the day were:

	Jan. 4.	Jan. 5.		Jan. 4.	Jan. 5.
Canadian Pac.	56¾	57¾	N. Y. & N. E.	16½	17¾

Excess	6,728,950	8,812,950	Inc. 1,963,000

Receipts of internal revenue to-day, $371,756; customs, $755,896; national bank notes for redemption, $117,000; for account of the National bank circulation outstanding, $830,281,098; silver certificates in circulation, $97,230,871.

The production of anthracite coal for the year 1883 was 31,257,154 tons, against 29,316,587 tons in 1882, 27,093,164 tons in 1881, 23,595,111 tons in 1880, 25,769,385 tons in 1879, and 17,127,681 tons in 1878.

The value of the imports for the week at this port were: Dry goods, $2,626,541, and merchandise, $5,595,436, a total of $8,061,980.

North River construction stock sold at 14 to-day, the lowest figure it has reached. The steady decline in this stock, together with the depreciation in West Shore bonds and stock, is, to an extent, corroborative of the prevailing reports that the West Shore enterprise requires more funds to insure its completion. So far as can be learned the North River Company needs about $8,000,000 to fulfill its contract with the West Shore Company. The managers of the two companies, which are practically the same, have had several plans for raising the required amount under discussion. The plan considered the most feasible contemplates the issue of second or income bonds to be offered pro rata to the holders of West Shore stock together with some of the same stock as a bonus. It has also been suggested that the offer be made to the stockholders of the North River Construction Company or to the holders of the West Shore bonds. The disinclination of the former to avail themselves of the recent privilege to subscribe to West Shore is with a bonus of stock does not argue well for success in that direction. Among other things the promoters of the enterprise desire to raise sufficient funds to place in trust or otherwise secure the interest on the first mortgage bonds of the West Shore for at least one year. It is likely that the negotiations that have been in progress for some time relative to these matters will be concluded early next week.

The St. Louis and San Francisco Railroad Company declared to-day a dividend of 3¾ ₱ cent, upon its first preferred stock. The gross earnings of the company for the year 1883 are reported at $3,930,250, an increase of $358,000 as compared with the previous year; operating expenses, $1,762,000, an increase of $186,300, and net earnings, $2,168,100, an increase of $221,600. The surplus, after paying all fixed charges, is $418,800, which is $46,800 less than for the year 1882.

The Government of Mexico has contracted for a loan of $5,700,000, receivable in weekly installments, with the Mexican National Bank. The Government will repay with orders on the Custom House, receivable for import dues.

Paris advices quote 3 ₱ cents at 75.87½.

New York Markets.
