THE TALLY-SHEET FORGERY IN OHIO.

Four Democrats Arrested on the Perjured Testimony of a Convict.

COLUMBUS, Oct. 28.—Gov. Foraker and his three clerks were to-day subpœnaed to appear as witnesses in the tally-sheet election forgery case now on trial here. Congressman Converse kept the convict, John Francis, on the stand for twelve hours. He subjected Francis to a rigid cross-examination, and made him virtually confess that his whole story about his changing the tally-sheet, aided by the Democrats, was a lie, manufactured by interested Republicans. Converse showed Francis a letter and asked him if it was his handwriting. The convict said it was. Converse then read the letter, which was to a relaxed effect, and it created a sensation. In it Francis said that "prominent Republicans had been trying to get him to make an affidavit that he had committed the tally-sheet forgery at the instance and by the direction of Horn, Montgomery, and other Democrats of note, but that he would not perjure himself for their sake even to regain his liberty." He has since made such affidavit, and four Democrats have been arrested.

MAIL TRANSPORTATION.

Increased Service at Less Cost—An Annual Saving of $1,940,786.

WASHINGTON, Oct. 28.—The report of Second Assistant Postmaster-General Knott shows that from April 1 to June 30, 1886, there has been a total saving in the annual rate of cost for transportation and mail equipments, effected by orders and new contracts, of $1,940,786. In the star service there was an increase of 874 routes and of 1,093 miles in length, and a decrease of $62,623 in annual rate of expenditure. In the mail messenger service there was an increase of 20 routes and a decrease of $44,357 in the annual rate of expenditure. In the steamboat service there was an increase of 1 route, and a decrease of 1,185 miles, and of $1,05,583 in annual rate of cost, the steamboat service thus dispensed with being supplanted with railway and star service. In the railroad service there was an increase of 81 routes of 2,304 miles in length, and of $701,698 in annual rate of cost. In the railway postal car services there was a decrease of $53,167, or 2.94 per cent. in the annual rate of cost.

The annual rate of expenditure for railway transportation on Jan. 30, 1886, was $15,520,191, as against $14,759,496 on June 30, 1885. The estimates for the next year are $15,867,962, being an increase of only $272,530 over the appropriation for the current year.

An examination has disclosed the fact that since 1873, notwithstanding the law says that no pay shall be allowed for service in apartment cars under forty feet in length, many railroads had been paid for such service to the aggregate amount of $979,959. This payment, has been discontinued. It was also discovered that overpayments had been made to land grant railroads to the amount of $89,647, which sum has been deducted from the pay of those companies, and there is a consequent reduction of $12,178 in the rates of annual expenditures for railroad transportation.

The report closes with a recommendation for a change in the method of compensating railway mail service. Under the present law railroads are paid according to the average daily weight carried both ways. On account of the many incongruities under this method of pay, and the unsatisfactory method of adjusting the compensation, a change is recommended by the substitution of a space basis instead of a weight basis of pay. It is believed that the substitution of this method will, without seriously affecting the present service, make a saving of about $800,000 a year.

Pretty Mary Magee Sent from Prison to an Asylum.

Mary Magee, the young girl who two years ago threw vitriol in the face of Superintendent Clark of the Clark Thread works, at Newark, and was sent to State prison for ten years, was taken to the Morris Plains Insane Asylum on Wednesday evening. At her trial the defence was that she was insane. While in jail she was examined by Dr. Hendry, Mr. Clark's family physician, and County Physician Hewitt, both of whom pronounced her sane, and upon her conviction Judge Lodiow Mc Cartter gave her the extreme penalty of ten years. Since her imprisonment she frequently has shown symptoms of insanity, and now she is adjudged hopelessly insane. She was one of the prettiest girls in the Clark works, but was always considered queer in her ways. She thought she had a grievance against one of Mr. Clark's sons, and hung around the house waiting for him. Finally she rang the door bell and when his father came to the door, she dashed a vial of acid at his face. The vial of acid has not saved his eyes, but the lower part of his face was severely burned.

Was this Steamer the Elder?

The steamship Buffalo, which arrived from Hull yesterday, reports that on Oct. 27, several hundred miles east of Newfoundland, at 6¾ P. M., she exchanged night signals with a Bremen line steamship proceeding slowly, bound east, apparently under sail only. At the office of Oelrichs & Co., agents for the Bremen line, it was said that the steamer seen was possibly the Elder, which sailed from this port on Oct. 20 for Southampton and Bremen, and would be in the vicinity indicated at about the time the Buffalo reports. The Elder carried 150 passengers and a good freight. The agents say they have seen and conversed with the Captain of the Buffalo, who informed them that he was within one and a half miles of the strange steamer; that she had no distress signals flying, and that smoke was issuing from her smokestacks, indicating that her machinery was not seriously disabled. The supposition is that she might have had a hot journal or some other trifling mishap to cause a temporary stoppage of her machinery. Messrs. Oelrichs & Co. are not at all alarmed about the Elder, even supposing that this was that vessel. The Elder arrived at Southampton last night.

Young Mr. Peck and his Wife.

Frank E. Peck, a son of the Rev. Dr. Francis Peck of Brooklyn, was married ten years ago, when he was 25 years old, and went to live with his wife's father. After fifteen months he went West to try to make a home for his wife. She waited about five years, and then began an action for separation. The matter was settled by young Peck agreeing to give her $21 a month. He continued the payments till last July. In 1878 she wrote to him asking whether he would return and live with her at her father's house if a place bringing him $2,000 a year was obtained for him. He replied that he would not accept favors at the expense of his and her happiness. She acted him for abandonment after he stopped sending her money, and the suit was tried yesterday before Justice Levine. Young Peck is residing with his father at 1,271 Bath street, and a part of his defence was that he is suffering from a pulmonary affection and is unable to work in this climate. The magistrate reserved his decision.

Suspicions Against the Whiskey.

Mrs. Rothermel of 294 Graham avenue, Williamsburgh, gave a flask containing whiskey to Coroner Hesse yesterday for analysis. She said John W. Fox, a widower employed by her husband, who is a barber, gave the flask to her husband, telling him that it would do him good. She said that tasted it but it burned their throats, and she believed there was poison in it. It is said that Fox once made love to Mrs. Rothermel, and that she indignantly drove him from the house. The superficial examination made by Coroner Hesse was confined to his sending the stuff to the chemist of the Board of Health. Fox, it is said, hails from Williamsburgh.

No Fire, but Lots of Excitement.

Smoke issuing from a chimney caused people to think the New York Club House to be on fire about 12½ P. M. yesterday, and somebody summoned the firemen. The crowd was so great that there were many narrow escapes when the engines dashed through it. The procession was hotly followed up. The west tower collided at Broadway and Twenty-third street with a hansom from which Mr. S. Burke of Troy, N.Y. was viewing the procession, and she was thrown off and her face bruised. After getting her injury dressed at the New York Hospital she went home.

Mr. Newcombe Hasn't Heard of It.

Mr. R. S. Newcombe, counsel for most of the indicted Aldermen, was asked yesterday if there was any truth in the report that some of the Aldermen will plead guilty.

"Guilty of what?" asked Mr. Newcombe.

"Of bribery in the Broadway Railway matter."

"How can they plead guilty when we are innocent?" replied Mr. Newcombe, smiling. "There is no truth in the report so far as I know. We are waiting now to see whether we are insane or not, and then we shall go ahead."

The Bridegroom Couldn't be There.

Charles Rigel recently sold his liquor store, at Union avenue and Meserole street, Williamsburgh, and left town. It is supposed that he sailed on one of the German steamers. It is said that Rigel was to have been married on the night of his departure; that the young woman had bought her wedding outfit at a cost of $400; that the feast was prepared, and the guests came. She discovered yesterday that Rigel is married and has three children.

Citizen Emma Beckwith.

Mrs. Emma Beckwith of 310 Adams street, the only woman who succeeded in having her name placed on the registration list, visited the polling place in her district in the Fourth ward yesterday with her lawyer and asked to see the books to make sure that her name was there. The registers refused to show the books and intimated that it would be useless for her to attempt to vote.

Alderman Duffy's Son Discharged.

Alderman Duffy's son, Thomas, who was arrested for striking Benjamin Kahn of 1,775 Third avenue in the eye with a stone, was discharged in the Harlem Court yesterday by Justice Welde. Thomas had a witness in court who swore that Thomas didn't assault any one. Kahn didn't bring any witness.

The Niagara's Cylinder Head Blown Out.

The tugboat Niagara of the Farrell & Johnson line, which was towing a grain-laden canal boat to the dock at the foot of Twenty sixth street, North River, at noon yesterday, blew out her cylinder head and piston, entirely wrecking her wheelhouse. Loss $6,000.

To Run Against Deacon White.

Col. Jones of the Nineteenth ward, Brooklyn, an ex employee in the Custom House, has accepted the nomination of the Republicans of the Third Congressional district who are dissatisfied with the nomination of Deacon White.

Both Kinds of Money Found on a Vagrant.

At Oyster Bay, L. I., yesterday, an Italian was sentenced to thirty days in jail as a vagrant. When he was searched five gold watches, more than $100 in gold, and a lot of counterfeit coin were found.

Capt. Lynch at Home.

Capt. James Lynch of the steamboat Long Branch opened his $30,000 saloon at Fulton and Gamble streets, Brooklyn, yesterday. It was crowded with customers all day.

Fire in a Club House.

The club house of the South Side Club, at Islip, L. I., was partly destroyed by fire on Wednesday.

Duffy's Pure Malt Whiskey

Proposals.

TO THE STEEL MANUFACTURERS OF THE UNITED STATES OF AMERICA.

UNITED STATES NAVY DEPARTMENT,
WASHINGTON, D. C., Aug. 21, 1886.

The attention of all steel manufacturers of the United States is hereby invited to the requirements of the Navy Department in the way of armor plates and heavy steel forgings, for the prosecution of work already authorized by Congress.

This advertisement invites all domestic manufacturers of steel to specify, in competition with each other, upon what terms they will engage to prepare for the production of and produce the forgings and armor plate required for modern ordnance and armored ships; and no bids will be considered except such as engage to produce within the United States either all the gun steel or all the armor plate (or both) specified in this advertisement; nor will any bid be accepted unless accompanied by evidence satisfactory to the department that the bidder is in possession of, or has made actual provision for, a plant adequate for its fulfilment.

Bids are hereby invited for supplying this department with the undermentioned material:

About 7,350 tons of steel gun forgings, of which about 328 tons will be forgings of six inches calibre, 70 tons for guns of eight inches calibre, and 912 tons for calibres between ten inches and twelve inches (both inclusive).

These forgings are to be delivered rough bored and turned, and when in that other persons may elsewhere, which enters into the construction of a gun of each of the desired calibres will be about as follows:

6-inch	8¼ tons
8-inch	5 tons
10-inch	9
