### FACTS ABOUT SUGAR BEETS.

The following letter, from our friend John E. Evans, contains some interesting facts relative to sugar beets, and we therefore give it space in our columns:

LINCOLN, May 6th, 1895.

### BROTHER BARE:

On the train from Grand Island to Lincoln with H. Huxmann, boss farmer for the Oxwards sugar plant at Grand Island, a gentleman of years of experience in Germany, as well as Nebraska, I got the following:

He tells me that in 1894 he contracted for beets as follows: Sutton, 65 acres; Alexandria, 55 acres; North Bend, 35 acres. In 1895 he has contracted as follows: Sutton, 550 acres; Alexandria, 650 acres; North Bend, 485 acres; total 1685; in other places this year 2115, making a total contract this year of 3800 acres. He has refused over 600 acres, having all they can handle.

Beets should be planted in rows 18 inches apart. Twenty pounds of seed to the acre should be planted. Seed will cost 20 cents a pound for parties not contracting with them. He suggests that deep planting and plenty of manure was all that was required to insure a high percentage of sugar. He also said that German beet sugar growers were better posted on what Nebraska is doing in this line than we were at home, and that there is nothing they fear so much as our development in this line. He thinks a farmer ought not to plant more than five acres the first year, and that the beet crop should be rotated and not planted on the same ground more than two years in succession. By deep plowing and plenty of manure the ground is in splendid shape for any other crop. Plant the beets as near the house as possible, as an hour in the evening or morning can be put in weeding and thinning often when it far from the house it would not be done. The crop yields cash fully thirty dollars an acre above expenses and is marketed before corn can be realized upon. That the farmers in localities where the beets have been raised are extending this crop is evidence that it pays them.

As this gentleman is authority, and has had more beets offered him than he can handle, his statements can be taken as truthful. Mr. Huxmann remarked that the people in this country, usually quick to see a good thing, seem slow to take hold of this branch of farming. He says it is not necessary to bring Germany here to see us, but that it would be a good thing for us to see Germany. The talk with him was entertaining and instructive to me. He says if the Platte valley and Nebraska in general would do what she ought there would be a refinery centrally located in less than five years. If Mr. Huxmann could get a contract he would start a beet seed farm and that he could grow the seed better here than in Germany he has no doubt.

Yours truly,

J. E. EVANS.

### THE WOMAN'S RELIEF CORPS.

LINCOLN, Neb., April 30.—[To the Editor of the State Journal.]—I see by the last issue of the Campfire that a circle of the Ladies of the G. A. R. was organized at North Platte and in the article describing the meeting is this statement, to which I take exceptions, "This order is a part of the G. A. R."

Now, the only official part of the Grand Army of the Republic and auxiliary thereto is the Woman's Relief Corps, organized at Denver, Colo., in 1883; and all female relatives of the soldiers, sailors and marines of the late war and all loyal women are eligible to membership therein and their help and aid is needed in caring for our indigent comrades who get no pension or a mereittance from the government who promised to care for him and his if he would shoulder his rifle and stand between his country and its foes. All our relatives and sympathizers should rally under the standard of our only auxiliary, the Woman's Relief Corps, whose doors swing outward ever, and always to welcome the mothers, wives, sisters, daughters, sweethearts and any true, loyal women, all of whom can freely work under the rules and regulations of this order that was born

when treason first raised its fratricidal hand to destroy this nation, then woman took up the duty and privilege of sharing the labors of the hour. At home they cared for the business and the farm, reared the children, formed societies to furnish supplies for the hospitals, and delicacies for the sick and wounded; they worked in the "Christian commission," "sanitary commission and as army nurses went to the front; in the hospital and on the battlefield they were the ministering angels to the wounded, sick and dying.

When the war closed and the mighty host of citizen soldiery returned to the vocations of peace, many were wholly unfitted to resume the wanted occupations of former years. Crippled, wounded, disabled by disease, without means to provide for their families, they found woman still faithful to their interests, who nobly worked for years till the eighteenth annual national encampment of the G. A. R. "Resolved that we cordially hail the organization of the National Woman's Relief Corps and extend our greetings to them. We return our warmest thanks to the loyal women of the land for their earnest support and encouragement, and bid them God speed in their patriotic work." The status of this organization was thus at once established.

Side by side with the comrades works the Woman's Relief Corps; visiting the sick, caring for the widow and orphan, inculcating lessons of patriotism in the hearts and minds of the young, assisting in Memorial day exercises, and in all things striving to prove worthy of the trust conferred.

Comrades, our time is growing short and our wives are growing old by our hearthstones. The "Loyal Ladies," "Ladies of the G. A. R.," "Ladies League," and Daughters of Veterans should all unite with our auxiliary and save the expense of halls, fuel, lights, stationery, state and national conventions, (nearly all of which comes from the pockets of husbands and fathers) and devote their sole energies to our veteran comrades who will soon be no more and those condition demands their fostering care on the downward slope to the lowly mound soon to be their last resting place.

I know that Past Department Commander Church Howe by his unadvised and hasty action at the encampment at Hastings may have led these worthy ladies to believe that they were made a

part of the G. A. R. but no department officer can do anything of this sort, only our national organization can legislate on a question of this kind, and any recognition given at Hastings does not carry any weight beyond the personal preferences of Comrade Howe as an individual member of the G. A. R. Yours in F. C. and L. BRAD P. COOK  
Honorary Member of the Department of Nebraska Woman's Relief Corps.
