NEWCOMERS IN THE 2:30 LIST.

NEARLY A THOUSAND ADDED IN 1890.

Alcantara Heads the Roll of Honor for 1890 With 30, but Nutwood is a Close Second With 28—The Dead Electioneer Third With 16—Homestake, 2:14¼, the Fastest Recruit to the Trotting Ranks, White Cricket, 2:10, Leads the Pacers—Breeding 2:30 Performers Becoming a Less Uncertain Problem Every Year.

THE SUN presents this morning a carefully prepared table, showing the newcomers of 1890 to the 2:30 trotting and pacing lists. The horses of the two gaits are separated and arranged alphabetically in their classes. Our tables are founded on official reports from both the National and American trotting associations, and upon a regular book account with every horse that starts in races of the kind. There are a few "wildcat" performances that may be subject to slight amendments, but students of such matters and breeders who are preparing catalogues will find our table accurate, and it is the first one approximating correctness that has been published for the performances of the season.

The number is really astounding, when we reflect that a 2:30 performance was quite a rare thing a generation since. Such horsemen as Hiram Woodruff and Dan Mace, whose deaths were comparatively recent, would gaze upon its proportions with wonder could their eyes and their senses be restored to them. The list comprises 993 names, and it is possible that winter trotting on the Pacific slope may bring the number up to 1,000 before New Year's. This is a gain of more than 200 over the number that entered the charmed circle in 1889.

A comparison of the ages of the newcomers shows that there are one yearling, the young giant Freedom; thirteen two-year-olds, sixty-one three-year-olds, and thirty-eight four-year-olds that have taken records of 2:30 or better. This is a remarkable showing of early speed. The fact that the three-year-olds overtop the four-year-olds by twenty-three goes far toward strengthening the theory that a good three-year-old will trot faster at that age than at four, as the mouth of the horse at four years is in bad condition, owing to the process of teething, which is more active at the latter age than at the three years.

Where the performer is not over four year old the age is indicated by a number in parentheses following the name. This is a very interesting feature of the table, and it is worthy of remark that, for the first time, a yearling, Freedom, by Sable Wilkes, appears in the list. Electioneer, the great sire, who died week before last, the property of Senator Leland Stanford of California, ranks third among the sires of newcomers, and it is notable that a very large proportion of the neophytes by him are yearsters. He added sixteen to his long list of 2:30 performers, bringing his total up to sixty-four, and is now surpassed in this respect only by George Wilkes and Blue Bull, both of whom he is destined to excel, as their crops have permanently failed, while his will continue for several years to come. The star of the season as a sire of newcomers is Alcantara, a son of George Wilkes, from that famous brood mare Alma Mater, by Mambrino Patchen. His peers in less than twenty new ones from his loins in 1890. There has been a special incentive for the Alcantaras to enter the 2:30 ranks in a standing offer of $300 for each newcomer, which has cost his owner the neat little sum of $6,000 this year. But the added reputation is well worth the outlay. The next brood, successful sire is Nutwood, by Belmont, out of the dam of Maud S., by Pilot, Jr., owned by the Stout Bros. of Dubuque, Iowa. He has eighteen new ones to his credit.

The fastest performance chronicled is that of Cricket, pacer, by Sidneyan, a mare that signalized her entry to 2:30 honors by scoring a record of 2:10, which is faster than any other newcomer ever achieved. Homestake, by Gibraltar, shows a new trotting record of 2:14¼, which was never surpassed by any newcomer except Maud S. Altogether, the table bristles with interesting features. Each reader will pick out for himself the points of special interest to him, and there is enough of it to afford a great deal of study. After the name and description of the performer appears the name of the sire on the same line:

Abby V., gr. m. (6), Aberdeen.
A. B. C., br. g. Warwick Boy.
Abbesse Wilkes, ch. m., Wilkie Collins.
Actress, b. m., Knickerbocker.
Ada, gr. m., Fairy Gift.
