TUESDAY, July 14.

While no important action was taken at to-day's meeting of the Western Traffic Association, the full attendance and harmony which prevailed at that meeting was taken as an earnest of future possibilities, and was reflected in the strength of Stock Exchange securities. In the matter of joint agencies, which formed the principal topic of discussion, all was accomplished that could reasonably have been expected at this time, and it is likely that the present free discussion of that vexed question will lead to important results at the October meeting of the association. Another important influence in giving a strong tone to to-day's transactions in stocks was the large increase in Atchison earnings. For the first week of July the increase in gross is $99,650, as compared with the same week last year. There was, too, the further assistance of good crop reports and the growing improbability of gold shipments, which did not, however, impart the desired activity.

In the specialties the principal feature today was an advance of 5¼ points in Edison General Electric stocks as a result of the recent decision of the United States Circuit Court in sustaining Mr. Edison's claim to priority in the invention of the incandescent lamp. The general list was comparatively neglected, and after midday became weaker, so that the net results of the day's trading have been a fractional decline as compared with the opening prices.

Final sales compare with those of yesterday as follows:

Government bonds strong. The 4s closed ¾ per cent. higher bid. Railway bonds irregular and without feature. The more important net declines were in Atchison incomes, ¾ per cent, to 47¾, and Reading general 4s, ¾ to 76¾. The noteworthy net advances were in Northern Pacific consol 5s, ¾ per cent, to 79¾, and Oregon Improvement 5s, ½ to 65½.

In bank stocks 18 shares of Gallatin sold at 205. 10 shares of Bank of America at 202, 50 shares of Bank State of New York at 109¾, 45 shares of Citizens at 160, and 50 shares of Western National at 95.

Silver bullion certificates for 315,000 ounces sold at 100⅝@101¼. Bar silver in London, 46d. per ounce.

Money on call 1¼@2 per cent. Time money 4 per cent. for sixty days, 5 per cent. for ninety days on prime Stock Exchange collateral, and 6 per cent. for five, six, and twelve months. Commercial paper dull. Prime endorsed bills receivable are quoted at 5½@6 per cent., and first-class single-name paper at 6@7 per cent.

Sterling exchange weak, owing to increased supply of commercial bills. Posted asking rates $4.85¾ for long bills and $4.87¾ for demand. Actual rates are: Long bills, $4.84¾@$4.85; sight drafts, $4.86¾@$4.87, and cable transfers, $4.87¼@$4.87½.

The Wheeling and Lake Erie Railway Company has declared the regular quarterly dividend of 1¼ per cent. on its preferred stock, payable Aug. 17.

The Central Pacific Railroad Company has declared a dividend of $1 per share, payable Aug. 1.

The Cleveland and Canton Railroad Company reports gross earnings for May of $66,347, an increase of $18,037, as compared with the same month last year, and net $24,131, an increase of $5,122.

European Money Markets.

LONDON, July 14.—The markets continue dull. Discounts and call money are firmer and tending upward. Consols declined ⅛. In consequence gold is being exported to Holland on Russian account. Two hundred thousand pounds were taken there yesterday and to-day, and more is expected to go shortly. American railroads are flat. Denver preferred declined 3 per cent. on passing its dividend. Other stocks declined fractionally in sympathy.

Crop Report.

ST. PAUL, July 14.—Wheat cutting will commence this week in the neighborhood of Carthage, S. D., and a yield of twenty bushels to the acre is estimated. The North Dakota harvest will be considerably later, as recent rains and cool weather have delayed ripening. The prospects, however, are as good as at any time for a tremendous yield. In portions of Minnesota the spring wheat harvest will begin in about ten days, while the last week in July will see harvesting machines at work everywhere. Corn has advanced rapidly in the past few days.

New York Markets.

TUESDAY, July 14.—FLOUR AND MEAL—Prices favored buyers, but at a slight reduction a fair business was done, sales aggregating 18,000 bbls. and sacks. Quoted: Flour, ⅝ bbl.—Fine, $3.35@$3.75; superfine, $3.80@$4.15; No. 2 extra, $4.10@$4.30; No. 2 extra, $4.40@$4.65; clears, $4.50@$4.85; straights, $4.80@$5.10; patents, spring, $5@$5.35; winter, $5@$5.25; city mills, shipping extras, $4.90@$5.15. Rye flour, ⅝ bbl.—Superfine, $4.75@$4.85. Corn meal, ⅝ bbl.—$3.30@$3.50 for Western and $3.85 for Brandywine.

CORN—Futures opened a few points lower, nearly recovered, closing slightly below yesterday's final figures. The early decline was due to a weaker report from Liverpool, that market was evidently disappointed with the depression in this market yesterday. Both parties to speculation are now inclined to somewhat play a waiting game. The bulls are waiting for some disaster to the growing crop. The bears are waiting for the pressure to sell the large current stock to carry down prices. In the mean time the dealings are on a very limited scale. Spot cotton was much more active for home consumption, but the demand was freely met, making uplands, 8⅝c., do. tinges, 8 15-16c. The following are the details of the transactions in futures, with sales of 31,400 bales:

Months.	Closing prices.	Highest.	Lowest.	Sales.

PROVISIONS—Lard futures were dull and weak, from the absence of demand; no sales were reported. After Change the close was weak at 6.47c. for July, 6.50c. for August, 6.62c. for September, 6.77c. for October, and 7c. for December. Spot lard was more active at about steady prices; sales 40 tcs. prime city at 6½c. and 17 tcs. and 17 tcs. prime Western at 6.50@6.52½c. regular; refined for the Continent quoted at 6.55@6.80c. Pork quiet, but steady; sales 100 bbls. Quoted: New mess, $15.50@$16; old mess, $14.25@$14.75; extra prime, $13.50@$13.75, and short clear, $16@$16.50. Cut meats more active at the late advance; sales 1,000 lbs. pickled bellies, 10@12 lbs. average, 6¾c., and 300 pieces do. do. Quoted: Pickled bellies, 6¾@7½c.; pickled shoulders, 5¾@6c.; hams, 10¾@11c.; smoked shoulders, 6¼@6½c.; hams, 12@12½c. Dressed hogs unchanged at 7½c. pigs 7½c. Beef firm. Quoted: Extra mess, $16@$18; city extra mess, $18@$19; for packet, $12@$14 for family ⅝ bbl., and $22@$22 for tierce, for India mess. Beef hams firm at $18 ⅝ bbl. Stearine quoted at 7¼@7½c. for in bbls. and tcs. Oleomargarine quiet at 6¾@6¾c. Tallow easier; quoted at 4 1-16@4 5-16c. Butter in fair supply and weak; creamery, 14@16c.; Western factory, 11@14c. Cheese in good export request, but prices are weaker; state factory, full cream, 7¾@8½c. Eggs more freely offered and lower.

GRAIN—Wheat futures were depressed. Good weather and liberal receipts at the West brought out large offerings in the face of the liberal export demand and the stronger statistical position. DECISION FOR EDISON.

The United States Company Beaten in the Long Contested Suit.

In the patent case of the Edison Electric Light Company against the United States Electric Lighting Company Judge Wallace in the United States Circuit Court yesterday gave a decision sustaining Mr. Edison's patent on the incandescent electric lamp. This case has been pending for several years. The testimony was voluminous, including 6,000 pages.

Judge Wallace also ordered an injunction against the defendant and an accounting of the profits for past manufacture. The present output of incandescent lamps in this country is about 50,000 a day, only 25,000 of which are made by the Edison company. That company claims that this decision gives it a monopoly. Judge Wallace said in his decision:

"He (Edison) was the first to make a carbon of materials and by a process which was specially designed to impart high specific resistance, it: t e first to make a carbon in a special form for the special purpose of imparting to it high total resistance, and the first to combine such a burner with the necessary adjuncts of limit consumption to prevent its disintegration and give it sufficiently long life. By doing those things he made a lamp which was practically operative and successful, the embryo of the best lamp now in commercial use, and but for which the subdivision of the electric light by incandescence would still be nothing but the fanciful vision it was prodaimed to be in 1878, the date of the Edison invention, by some of the learned experts who are now witnesses to belittle his achievement and show that it did not rise to the dignity of an invention."

The other electric companies profess not to be greatly disturbed by the decision of Judge Wallace, c. It is said that the Thomson-Houston and Westinghouse companies will continue their business as before. They claim that the decision will not seriously affect them. The patent has only two or three years more to run and is said to be sustained only in part by the decision. No incandescent lamps have been manufactured at the Westinghouse factories in Pittsburgh and Newark for over two years, and the Thomson-Houston company has done only a very small business in lamps. The United States Electric Lighting Company, against which the decision was rendered, proposes to take an appeal at once.

BOSTON, July 14.—The Thomson-Houston Company claims that it is well satisfied with the Edison decision. The decision will have the effect, they say, of closing the small companies, which have been pirates in this field, by vastly enhancing the value of electrical patents.

The decision rendered to-day was foreseen, and the Thomson-Houston Company some time ago perfected arrangements which will protect them in future business.

Temple Beth-El Borrows $350,000.

The Temple Beth-El, at Fifth avenue and Seventy-sixth street, has obtained leave from Judge Truax of the Supreme Court to borrow $350,000 from the Manhattan Life Insurance Company. With this amount it will retire five mortgages, aggregating $240,000, on the synagogue and apply the rest to finishing the building.
