FRIDAY, Aug. 12.

Sales of silver bullion at the lowest price it has to uched since statistics of the market for it have been kept created an uneasy feeling relative to the security market. The dealings in silver were not large, and, according to brokers who watch the market for it carefully, they were not entirely genuine. It is currently reported that foreign operators are endeavoring to make a profit out of the unfortunate condition of the world's finances by selling rupee paper and silver short. A fairly large short interest in silver is believed to exist in this market. However that may be, the low price at which silver is selling is urged by the bears on stocks as an argument in favor of their position.

There was no change in the character of the speculation to-day, the dealings being in the main professional. It is worth noting, however, that in spite of the bearish sentiment that found expression through various channels, the tone of the market was strong, and the majority of stocks closed higher than yesterday. The most important dealings were in Atchison, St. Paul, Northern Pacific preferred, and Reading. All of these, except the last named, closed a shade lower than yesterday. The strength of the market was in the industrials and specialties. Of the specialties Western Union and Manhattan Railway were the most conspicuous, and of the industrials the National Cordage stocks scored net advances.

A number of the standard dividend-paying stocks were in demand, and advanced easily on light transactions. This was especially true of Lackawanna, Lake Shore, C., B. and Quincy, and Rock Island.

The news consisted of the engagements of $1,000,000 gold for shipment to-morrow and the discussion which has elicited the fact that the Chancellor of New Jersey has not yet formulated his decision in the suit of the State against the Jersey Central and Port Reading railroad companies. So much alleged authoritative information has been circulated regarding that decision that it would seem to be in order for the proper officers to set on foot an investigation with the view of apprehending and punishing the professional pointers who have presumed to anticipate and make public the probable decision of the Chancellor.

Final sales compare with those of yesterday as follows:

New York Markets.

FRIDAY, Aug. 12.—There was no activity in flour; in fact, there was only a moderate demand for the higher grades, and the lower descriptions were for the most part neglected. Prices were rather weak owing to the decline in wheat. The receipts were 10,000 bbls. and sacks and the exports 50,800 bbls. and sacks. The sales were 12,000 bbls., including 3,600 for export, spring in bbls. quoted nominal at $1.75@$1.95; superfine, $1.85@$2.15; No. 2 extra, $2.10@$2.35; No. 1 extra, $2.70@$3.20; clear, $3.10@$3.50; straights, $4.10@$4.30; patents, $4.30@$4.75.

Grain—Wheat declined ½c. in a pretty good export business at the lower prices, but very little speculation. The bear points were big receipts at the West, lower foreign markets, European selling, and the depression in corn. The receipts surprise a good many, and there is said to be more or less wheat to arrive being offered in this market. These were the receipts: Chicago, 352,251 bushels, Milwaukee, 17,100, Minneapolis, 94,240, Duluth, 22,202, St. Louis, 283,000, Toledo, 249,681, Detroit, 65,000, New York, 210,850, Baltimore, 147,000, Philadelphia, 114,850, Boston, 20,780; grand total, 1,616,977 bushels, total yesterday, 1,618,404; total last year, 1,370,590 bushels. The spot sales were nearly 300,000 bushels, including 25,000 for export and two loads for milling. No. 1 Northern, 89½c. f. o. b., No. 2 Northern ¾c. under September, No. 2 red at ⅛c. over September, No. 3 hard winter 79½@81c., No. 2 red at 88c. c. i. f. Liverpool; sample red at 82c. and No. 4 red at 75@75½c. in elevator. Future sales 1,380,000 bush., as follows:

	Opening.	Lowest.	Highest.	Closing.
August	81	82¾	82	82¾
September	82¼	83	83½	83¾
October	84½	84¼	84½	84¾
December	87½	87¼	87¾	87¾
May, '93	92¾	92¼	92¾	92¾

Corn was moderately active and lower, with crop advices more favorable, and some pressure to sell. The spot sales were 65,000 bush. No. 2 mixed 68½c. in elevator, kiln dried at 69c. Most graded at 68½c., and a little at 69½c. to arrive. The total receipts at all points were 392,844 bush., including 132,500 here, spot corn was scarce and firm. Future sales 350,000 bush. as follows:

	Opening.	Lowest.	Highest.	Closing.
August	61¼	60¾	61¼	60¾
September	59⅝	59⅛	59¾	59⅛
October	59⅝	59⅛	59⅝	59⅛

Oats declined ½c., with a moderate business; the spot sales were 60,000 bush. No. 2 mixed 38@38½c., and 5 m. 38¾c. No. 2 white, 42c.; No. 3 do., 41c.; ungraded mixed, 39½@40c. The total receipts at all points were 638,000 bush., including 175,825 bush. here. Future sales 525,000 bush. August, 38⅛@38½c.; September, 38⅛@38½c.; October, 38⅛@38½c., and May, 42⅛@42½c., closing with August and September 38½c., October 38¼c., and May 42½c. Rye was dull and nominal and 0@0½c. for prime, on track and afloat.

Provisions—The depressing influences were larger receipts of hogs, the decline in corn, and lower quotations at the West. Lard was lower here. Sales 1,500 tcs. including September at 8.42c., closing nearly with September at 8.40@8.42½c., and October at 8.45@8.47½c., and sales 100 tcs. city at 7.75c., and 500 tcs. Western at 8.10@8.20c. Dressed hogs, 7½@7¾c. pkg. 7½c. Cut meats were quiet and steady. Pork was dull and weak. State prime mess, nominal; for family, Extra creamery butter, 20@24c. Extra 17½@18c.

Cotton oil—Cotton futures declined 10 to 15 points in the long selling, but the close was firm. The deliveries were still late and most of the foreign markets steady. The receipts at ports were 11,000 bags, and at Hoo 15,000 bags. Spot cotton closed rather weak. The sales here were 10,500 bags, closing as follows: August, 12.85@12.88c.; September and October, 12.80@12.82c.; November, 12.80@12.82c.; December, 12.80@12.82c.; January, 12.86@12.90c.; February, March, April, and May, 12.90@12.95c. Rio on the spot was firm at 13½c. for ordinary, with sales of 4,000 bags, including No. 7 to arrive at 14c. and No. 4 at 12¾c. Molasses were firm, with sales of 900 bags. Raw sugar was firm but quiet at 3 5-16@3½c. for 96° test. Refined was in good demand and strong. Cut loaf and crushed, 5 7-16@5 9-16c.; powdered, 4 13-16@4 15-16c.; granulated, 4 7-16@4 9-16c.

Coffee—In spite of the continued depression in silver, some decline in Liverpool, dullness in Manchester, large stocks here and abroad, generally favorable crop reports and long selling, a net advance of 3 to 4 points took place to-day. The Liverpool advices reporting a decline of only about 1 point were an agreeable surprise to the bulls, and another source of satisfaction to them was the fact that in spite of a further fall in silver Liverpool closed steady after a very small decline, in response to the decided decline here yesterday and the disquieting weakness in silver. There were also good rains in the northern belt, where they seemed to be needed, but there were reports of too much rain in Texas. The buying here was mostly for short account. At one time the market was 1 to 2 points lower than last night, owing to the lower quotations for silver, but this was soon recovered on the comparatively cheerful Liverpool news and covering by local traders. New Orleans after some early weakness advanced 2 to 4 points. The Southern spot quotations were as a rule unchanged, but they were weak at Galveston and 3-16c. changed, but they were depressed, but lower at Savannah. Here they were depressed, but without quotable change, including upands remaining unchanged. The port receipts were 26,000 bags, against 34,000 last year, making a total for the week of 7,000 bags, against 8,012 last week and 8,000 bags a year ago. The receipts of new crop to-day were 124 bales, inside at Galveston. New York closed quiet and steady, with sales of 84,750 bales, as follows:

	Closing prices.	Highest.	Lowest.	Sales.
August	7.07@7.08	7.07	7.05	200
