Lisco is on the new line of the Union Pacific in the new GARDEN COUNTY. It is a part of the Reuben Lisco Ranch and largely under irrigation.

The development of the Scotts Bluff country has been a remarkable demonstration of what good land, well watered, will produce and it shows what a systematic effort at colonization by a capable firm may accomplish.

**THE Gossard Corsets**

"They Lace in Front."

MISS ELENOR McLEMORE, an expert corsetiere, trained in the Gossard "New School" of corset design, will be in attendance to show the superior features of Gossard front-laced Corsets.  
We extend a cordial invitation to every woman who is interested in the corset styles for Fall, to meet Miss Elenor Mc Lomore and discuss the corset question with her. If, in the past, you have had any doubts as to the corset which would do the most for your figure, a fitting with one of the Gossard models will put them to rest. If you have never worn a Gossard you have yet to learn what the perfect corset union of beauty and hygiene means to the wearer. There is a model for YOU. Exactly right for YOU. Befitted to it and you will be delighted with the results. Gossard corsets give the supple figure and the long, lithe lines demanded by the season's fashions. They support instead of depressing the abdominal organs, that is why physicians recommend them. They impart the classic, sculptured back. Anyone who knows the Gossard corset can tell the Gossard wearer by the back, at a glance.

The front-lacing is convenient and sensible. You can stand before your mirror and adjust your corsets while you are putting it on. This season's Gossard models are the product of the "New School of corset design," which means that every seam, gore and bone is adjusted with that precision which is necessary in adjusting the balance wheel of a fine watch. Gossard corsets are made of the finest materials. Every detail is as nearly perfect as human ingenuity will permit. The materials are selected with great care for their textile strength and the Gossard corset will outwear two or three ordinary corsets. All Gossard corsets are boned with "ELECTROBONE" the basis of which is the highest quality high-carbon, non-breakable, clockspring steel, perfectly flat and resilient; guaranteed rustproof, and the best boning material used in corsets at any price.

Although Miss Elenore McLemore will be here November 11th, 12th, 13th, 15th, 16th and 17th, we advise you to come Thursday if you possible can.
