THE DAY AT THE BIG FAIR.

IN SPITE OF AFTERNOON SHOWERS THERE WAS A BIG CROWD.

West Virginia Dedicates Its Building on the Anniversary of Its Admission Into the Union—Russia Opens Her Fine Arts Display—The Big Ferris Wheel Will Begin to Revolve in the Midway To-day.

CHICAGO, June 20.—Before noon to-day 40,000 admissions had paid through the World's Fair gates. The sun only appeared through the clouds at rare intervals, and a stiff lake breeze rendered the Fair grounds the most comfortable place in Chicago. After 2 o'clock the crowd became larger, and it was believed at that time that nearly 100,000 persons would be recorded during the day and this evening, but an hour later there came a thunder storm and a series of terrific showers that stopped the stream of pilgrims from down town. Most of those who were on hand remained during the evening to enjoy the illumination and music, but it was under the disadvantage of having to dodge the frequent showers.

Thirty years ago to-day West Virginia was admitted to the Union. The anniversary was celebrated at the grounds by the dedication of the State building, a typical Southern homestead, which was opened to the public at 4 o'clock this afternoon. The building was presented to the Governor's representative by President W. N. Chancellor of the Board of World's Fair Managers, and accepted by Gen. J. W. St. Clair, who made the address of the day in behalf of his State. Until last night it was expected that Gov. McCorkle and staff would take part in the exercises. The Governor had intended to make an address, but at the last moment he found it impossible to visit Chicago at the present time, and so telegraphed to the Commission. This disarranged the plans, but Gen. St. Clair consented to take the Governor's place. A grand ball that was to have been given in the spacious assembly room to-night was postponed, and will not be given until the Governor can be present.

Russia's section in the Fine Arts building was opened to-day. The exhibit of pictures is not so large as those of several other countries, but its quality is excellent. A great many of the canvases are large, and depict Russian peasant life, landscape and marine views, and others treat of ideal subjects. One of the best works is by Repin, and shows a group of Cossacks writing their defiant answer to the King of Poland.

All the arrangements have been completed for the dedication to-morrow afternoon of the big Ferris wheel in the Midway Plaisance. Capt. R. W. Hunt, President of the company, will introduce the inventor of the wheel, George G. Ferris, of Pittsburgh. Mayor Harrison expects to speak for the city, and the other speakers will include Major-Gen. Miles, President Higinbotham, James W. Scott, Major Moses P. Handy, and W. A. Vincent, ex-chief Justice of the Territory of New Mexico. At the conclusion of the last speech Mr. Ferris will blow a signal, and the big wheel, its thirty-six cars having in the mean time been filled with 2,000 invited guests, will start on its first regular trip.

A big celebration will be given upon the arrival in this port of the Spanish caravels from their circuitous voyage via Halifax and the lakes. They weighed anchor at Montreal to-day for a direct run to Chicago. Señor Dupuy De Lome, the Spanish Commissioner-General, Consul Chatfield-Taylor, Señor Fernandez of the Havana Chamber of Commerce and the commercial and official representative of Cuba and Porto Rico, are arranging to receive the Santa Maria, Nina, and Pinta with all the ceremony and enthusiasm which they think the craft and the captains are entitled to. The caravels will be met off the Chicago harbor by Spanish and Chicago officials and escorted inside the breakwater to the accompaniment of artillery salutes. There will be oratory, music, and feasting on shore and a water pageant from the harbor to Jackson Park. The Council of Administration, assisted by the Committee on Ceremonies, will see that a fitting reception is accorded to the ships of Columbus when they come to the Exposition grounds. The arrival and reception will be made the occasion for a gala day at the Fair, to close with fireworks at night. The caravels will be the star attraction of the Exposition on water.

The Wanamaker and Brown bill, which seeks for an injunction keeping the World's Fair closed on Sunday, was promptly and neatly thrown out of court this morning in a way which made its advocates' heads swim. Attorneys Eaton and Cleland, who represent the Philadelphia clothing firm, came into court early in the day to see which their bill could be argued, and they elected to go before Judge Jenkins with their motion, but Edwin Walker, representing the Exposition Company, set up the plea that his client had not been properly served with notice of the bill.

He said that notice had been served on him, but he was not the attorney of the Exposition Company, simply its counsel in certain cases, and hence he thought the notice was insufficient. Judge Jenkins agreed with him, and promptly passed the motion. This allowed the Sabbatarian Association, if it cares to still further press the Wanamaker and Brown suit, to begin over again.

The number of paid admissions to-day was 60,061.

MINOR BUSINESS TROUBLES.

Failures Here and There About the Country—Stringency of the Money Market.

NASHUA, N. H., June 20.—The Colony Manufacturing Company of Wilton assigned yesterday. The liabilities are estimated to be $168,000 and the assets simply amount to the plant, buildings, and some goods on hand. It is estimated that not more than fifty cents on the dollar can be realized from the assets. Several Nashua merchants were stockholders, and will lose heavily. The corporation has carried on a woollen manufactory and has done an extensive business. It employed 200 hands. The cause of the failure is said to be inability to sell the goods, and also that the company paid too high wages.

COLUMBUS, O., June 20.—J. & G. Butler, wholesale grocers, assigned yesterday to Charles R. Butler. Liabilities, $60,000; assets, $80,000 to $100,000. Cause, financial stringency. The firm has been in business since 1854.

WILMINGTON, N. C., June 20.—Adrian & Vollers, wholesale grocers and liquor dealers, one of the oldest business houses in the city, have assigned, with preferences. The failure was precipitated by the Bank of New Hanover, the whose favor they executed a mortgage for $90,000 several months ago. Few depositors are calling for money at the Wilmington Savings and Trust Company's banking house to-day, and some of those who withdrew their money yesterday have already returned it. Deposits are being freely made by business men this morning.

MONTGOMERY, June 20.—James McMillan of Minneapolis has made a voluntary assignment of his property to M. C. Fletcher. Mr. McMillan was in the mine and bar business until a short time ago, when his business was transferred to a corporation known as James McMillan & Co. The assignment does not affect this corporation. Mr. Fletcher estimates that the assets will amount to about $100,000, and liabilities to $150,000. Of his liabilities sixty per cent. are foreign creditors, persons who have made consignments of goods to him, or who have furnished capital. The other forty per cent. are Montgomery people.

TYLER, June 20.—The State Bank Commissioner yesterday ordered the State Bank of Thallville closed. The capital stock is $10,000, but the amount of the liabilities is not obtainable. The officers of the bank say that depositors will be paid in full.

Abe Steinberg, a clothing merchant, failed yesterday. The liabilities are $40,000, with nominal assets of about an equal amount. Chattel mortgages on the stock were given to various preferred creditors.

BRADDOCK, June 20.—The liabilities of the Eaton, Cole & Burnham Company, which passed into the hands of receivers yesterday, are said to be $400,000, and the assets double that amount. The business here will be conducted by the receivers, E. G. Burnham and J. H. Cole, who are members of the copartnership. Frank Miller of this city gave $50,000 bonds for the receivers. The first intimation here of any trouble was received last night, when the 100 employees did not receive their pay as usual.

EUGENE, Or., June 20.—The Lane County Bank temporarily suspended to-day. It has plenty of property in sight to secure all depositors.

SAN FRANCISCO, June 20.—The Broadway Bank has closed its doors. It was an unincorporated concern. A lively run was kept up for over three banks until the closing hour. Apprehensions are felt for to-morrow, as it is evident that the run will be kept up.

Will Pay Depositors in Full.

WILMINGTON, N. C., June 20.—At a meeting of the Executive Committee of the Wilmington Savings and Trust Company, held to-day, it was decided that beginning on June 28 depositors desiring to withdraw their deposits from the bank will be paid in full.

The following resident of the company received the following telegram to-day:

BALTIMORE, June 19.
Draw on us at sight for $100,000, or any part thereof, offered for your savings and trust company.
W. T. WALTERS,
W. H. SOMERVILLE.

BOOKBINDER GRANGE'S ASSIGNMENT.

Oberly & Newell Say They Did Not Make the Notes Held by Lawrence, Frazier & Co.

Fishel Brothers, cloak manufacturers at 124 Greene street and at Boston, have failed, and the Sheriff has taken possession of the New York store. The firm confessed judgments for $18,032, as follows: Jacob Morse, $5,480, for money lent; Jennie E. Fishel, $5,042, money lent; Emma H. Fishel, $5,042, money lent; Rachel Fishel, $1,247, money lent; Unger & Simensfeld, $845, for merchandise; John Kafka, $367, money lent. The partners are Isaac S., William V., Abraham L., and Jacob L. Fishel. On Jan. 1 last they claimed a capital of $40,000. Horwitz & Hershfield, their attorneys, said yesterday that the failure is solely on account of tight money. Collections were also poor. The liabilities are about $150,000, of which $50,000 is for merchandise and $100,000 for borrowed money, discounts on their own paper and on accommodation paper. The value of the assets is not known yet.

James Grange, bookbinder at 66 and 68 Duane street, made an assignment yesterday to Andrew Gilhooly, attorney, giving preferences for $20,734, as follows: Lawrence, Frazier & Co., $14,118; William Grange, $1,722; Sylvester Grange, $2,613; Elizabeth Titus, $1,831; Andrew Gilhooly, $450. The preference to Lawrence, Frazier & Co. includes notes "purporting" to have been made by various parties, as follows: Oberly & Newell four for $4,192, F. M. Lupton three for $4,795, W. H. Davis three for $1,250, Julius Hart one for $610, and W. N. Jennings one for $420, also a check of John Karst for $1,100, all of which were discounted by Lawrence, Frazier & Co.; also a check of the Franklin National Bank for $750, and a draft drawn by Mr. Grange on the Smyth Manufacturing Company for $1,000. The other preferences are on notes of Mr. Grange, except that of Mr. Gilhooly, which is for professional services. It was said yesterday that 150 hands were employed in the business. They were discharged by the assignee. Last November Mr. Grange made a statement claiming assets $178,000 and liabilities only $7,500. The assets consisted of plant, $100,000; stock, &c., $25,000; equity in Brooklyn real estate, $25,000; accounts receivable, $20,000; personal effects, $15,000; plates and copyrights, $10,000. Mr. Grange was not at his office yesterday and creditors said they had been unable to find him. He resides at 537 Third street, South Brooklyn.

The word "purporting" in the assignment gave an idea to the creditors that something was wrong. Lawrence, Frazier & Co. said they had taken the notes in good faith, and presume they are all right. Assignee Gilhooly declined to say anything about them. Among the notes which Mr. Grange had discounted by Lawrence, Frazier & Co. are four bearing the name of Oberly & Newell of 556 Pearl street. These gentlemen declared that the notes were not made by them, that they had not given Mr. Grange any notes nor had they exchanged any with him. All their accounts had been settled with checks at the end of each month. Another creditor said that Mr. Grange had obtained over $1,000 cash from him on Monday.

Lucius Hart, doing business as Lucius Hart & Co., metal merchant at 10 Burling slip, made an assignment yesterday to Frank M. Clute, giving a preference to Hendricks Bros. for $1,200, and to Julius Hart for merchandise. This business has been established fifty years. In 1882 Mr. Hart made an assignment on account of losses through E. A. Dunning, jr., the note broker, but speedily settled with his creditors.

Deputy Sheriff Mulvaney has received two attachments against Frank H. Frederick and John Colony, doing business as the Colony Bros. Manufacturing Company, flannels, at Wilton, N. H., one for $25,000 in favor of Henry A. Page, and the other for $5,185 in favor of P. T. Sullivan & Co., both of Boston. The commission accounts in this city were levied upon.

Two receivers have been appointed by Eaton, Cole & Burnham, manufacturers of iron pipes and fittings at 80 and 82 Fulton street, whose works are at Bridgeport, Conn. Edward H. Cole has been appointed receiver of the company's property in this State and Edward G. Burnham for the property in Connecticut. The company was incorporated in 1875 under Connecticut laws. The capital stock is $350,000, and some months ago the surplus was said to be $400,000 and net assets $750,000.

Creditors of the Cassell Publishing Company are very anxious to know how the outlook is for them. The view of the large amount of paper which President Dunham had discounted, if the company is liable for it, of course their share in the assets will be materially reduced. The total liabilities are currently estimated at about $400,000. Deputy Sheriff Young yesterday received the attachment obtained by Hezekiah S. Archer against Oscar M. Dunham for $10,000. It was on a note made by Dunham, dated May 10, 1890, payable eight months after, which was presented for payment on June 13, 1892, and protested. It is due from Nov. 18, 1892. The attachment has been served on the Union Trust Company, the Chatham and Norfolk Exchange banks, and on Treasurer Wagstaff of the Cassell Publishing Company.

The company's failure has caused the works of the Merchant Printing Company at Rahway to shut down. A levy was made yesterday on $50,000 worth of stock of the Cassell Company, which was at the printing company's works. The levy was made to satisfy an attachment for $100,000 issued in New Jersey on the application of the Merchant Company.

The statement of Receiver Kirkpatrick of the Domestic Sewing Machine Company was made public in Newark yesterday to the effect: Domestic Manufacturing Company's assets, $898,142.15; liabilities, including capital stock of $100,000, $298,362.01; surplus $397,652.04. Contingent liabilities per endorsements, $305,059.22. Domestic Sewing Machine Company's assets, $2,642,379.14; liabilities, including capital stock of $1,500,000 and preferred stock of $2,141,106, $3,443,916.40; deficiency, $801,534.90. The contingent liabilities as per endorsements amount to $698,613.

In his report the receiver says: "It must be borne in mind that the statement is as the books show, and perhaps some of the assets may not realize the amount at which they stand on the books. In fact, this is the most favorable showing that can be made."

The receiver said that the shops would be running again next week, but that the back wages of the men would not be paid until the first dividend is declared.

About 400 men are employed, and two weeks' wages is due nearly all of them, amounting in all to $10,000. The creditors will hold a meeting on Thursday or Friday.

An Engineering Company Assigns.

CHICAGO, June 20.—An assignment has been declared by the General Engineering Company of Harvey, Ill., and the American Loan and Trust Bank has been appointed receiver of the concern. The stringent condition of the money market is given as the cause of the failure. The attorneys say that the liabilities, mostly claims of Wheeling, W. Va., banks, are in the neighborhood of $75,000.

The assets, as reported by John M. Sweeney, President of the concern, consist of real estate in Wheeling, valued at $35,000; real estate in Harvey, $5,000; a $45,000 foundry building at Harvey containing $100,000 worth of machinery, and patterns and fixtures amounting to $40,000 more. With this total of $225,000 Mr. Sweeney alleges they will be able to pay all debts if they only get a little financial assistance and time to fill contracts.

Oregon Banks Suspend.

ALBANY, Or., June 20.—J. L. Cowan, President of the Linn County Bank, which suspended yesterday, says that the deposits in the bank amount to about $100,000, and that the assets will exceed the liabilities by $80,000 or $100,000. J. A. Crawford, the wealthiest citizen of Albany, and one of the directors, says he will guarantee personally every depositor of the suspended bank. Among the deposits is $41,000 of the county's money. No official statement has been made.

A branch of the Linn County Bank at Lebanon, this county, also closed its doors at noon yesterday, and the Bank of Oregon, this city, closed its doors during the afternoon. Cashier Blain says the assets are 50 per cent. more than the liabilities. Both failures were caused by the steady withdrawal of deposits for several weeks.

A Bank's Books Disappear.

ABEALON, Kan., June 20.—On Sunday night unknown persons broke into the State Savings Bank building and did considerable damage, smashing up furniture and tearing up books and setting fire to the building. Much of the bank records were destroyed or spirited away. There is an air of mystery surrounding the matter. The receiver of the bank, Sheriff Guyon, does not appear to know where the bank records are. He, however, thinks they are somewhere, and promises to look them up when he is at leisure. County Attorney Beauchamp has instructed the receiver to find the books at all hazards.

LIVE WASHINGTON TOPICS.

AN ALLEGED RING OF SWINDLING FEDERAL OFFICIALS.

Ten Dismissals in the Puget Sound District for Smuggling in Chinamen and Opium—Bids Received for a New Torpedo Boat.

WASHINGTON, June 20.—The official heads of Patrick H. Winston, United States Attorney; Thomas R. Brown, United States Marshal; Andrew Wasson, United States Collector at Port Townsend; C. J. Mulker, United States Special Agent, and six special inspectors of customs in the Puget Sound district, all in the State of Washington, have fallen into the official hopper as the results of reports made to Secretary Carlisle by Special Treasury Agents Wood and Lewis. These reports tell the story of one of the most extensive and successful conspiracies ever formed to smuggle Chinese and opium into the United States across the far Northwestern boundary. The officials, it is charged, have been doing a wholesale business for several years in connection with private citizens in Victoria, B. C., in smuggling in Chinese by means of fraudulent certificates, and in permitting opium smuggling either by connivance or otherwise. Two months ago Agents Wood and Lewis, new men from the East, were detailed to secretly investigate the alleged frauds. Uninfluenced by local surroundings or affiliations, they went to work and unearthed what is regarded here as one of the greatest conspiracies in which Government officials were ever implicated. Not to defeat the continuance of the investigation, all the prominent Government officials named were removed by the President and their successors appointed without the usual announcements being made. The purpose was to keep the public in ignorance that other implicated persons might be caught. The new men appointed in the place of those removed were James L. Saunders, Collector at Port Townsend; James C. Drake, United States Marshal; W. H. Brinker, United States Attorney. Other removals are yet to come, and the matter in the course of time will find its way into the courts.

It does not appear that the Department of State will feel called upon to interfere with the execution of the sentences imposed by the Turkish tribunal in the case of the rioters at Cesarea and Marsovan last spring, resulting in the burning of the American college at the latter place. In the first place, it is said that none of the prisoners is an American citizen. In the second place, the crime for which they are to be punished involved the destruction of the American college, which formed the basis of our complaint, and, finally, the incident has been completely closed. Mr. Newberry, the American Secretary of Legation at Constantinople, who has since been relieved by John W. Riddle of Wisconsin, made a full inquiry into the case, and mainly upon his report the Turkish Government made full reparation for the burning of the college by authorizing the payment of 500 Turkish pounds to the college authorities. In addition to this the Government granted the college permission to rebuild, and further promised to guarantee it protection and exemption from taxation, a most important consideration for a foreign school in the Ottoman empire.

The President to-day made the following appointments: Paul B. Trammel of Georgia to be Collector of Internal Revenue for the district of Georgia; Felix C. Rudolph of Kentucky to be Surveyor of Customs for the port of Paducah, Ky.; Andrew Wilson to be Appraiser of Merchandise for the district of Mississippi. The total number of fourth-class Postmasters appointed to-day was 137, of which fifty-five were to fill vacancies caused by resignations and deaths.

Thomas Kehoe was to-day appointed assistant inspector of boilers of steam vessels at New York city.

Postmaster-General Bissell has awarded to Thomas Kane & Co., of Chicago, the contract for furnishing during the next four years all carriers' distributing cases, sounting tables, and stools that may be needed in free delivery Post Offices. The Postmaster-General has also awarded to George F. Lasher of Philadelphia the contract for printing the annual and monthly postal guides, at a slight reduction from present prices. Mr. Lasher is the present publisher of the guide.

Bids were opened at the Navy Department to-day for a submarine torpedo boat. Congress appropriated $300,000 for the construction of an experimental boat of this kind, and the advertisements issued by the department allowed inventors to submit their own plans. The result was eight bids of various prices. No award will be made until the various plans have been examined by the experts of the department.

PAYMASTER SULLIVAN'S ACCOUNTS.

He Will Be Tried by Court Martial for Alleged Irregularities.

WASHINGTON, June 20.—There is trouble ahead for Paymaster John Clyde Sullivan of the navy, who has been put under arrest at the Mare Island Navy Yard for not accounting for $12,000 of the Government's money. When Secretary Herbert returns from the South a court martial will be ordered to try the Paymaster. This is the second time this officer has been in trouble in the last year, the first occasion being about six months ago, when he expressed an opinion to the effect that the merits of one case in the Tehuing Sea matter. The department's attention was called by the Consul at British Columbia to an interview which quoted the Paymaster as saying that the United States had no ground on which to stand in the extention over the seals, and that we might as well throw up the case before submitting it to the arbitration tribunal.

Upon denying that he had made this statement Sullivan escaped a court of inquiry, but as the department had doubts in the matter he was relieved from his ship and placed on waiting orders. The amount of his delinquency was discovered when he turned over his accounts on the Mohican, the last ship he served on, to his successor, but the Paymaster hearing that he was suspected of misusing the money, promptly replaced it to the Government, claiming at the time that he had the money on deposit elsewhere. Upon examination, however, this was not found to be so.

Mr. Sullivan is now under arrest on the Independence, and Capt. Robeson of the Mare Island yard will probably be President of the court.

Favorable Report of Hamburg's Condition.

Health Officer Jenkins has received reports from Dr. Nash, his representative in Hamburg, which lead him to believe that no cholera will be imported from Hamburg this summer. In answer to a cable despatch asking about the water supply, Dr. Nash telegraphed yesterday:

"Reports of scarcity of filtered water decidedly false. The entire city is supplied with absolutely pure, filtered water. All streets are sprinkled with the same. Unfiltered water supply cut off. Superabundance of water furnished to filter plant, which supplies all needs of city. Hamburg-American Packet Company is using only artesian well water from pure and independent source. No case of cholera in the city or suburbs since March 4, excepting the sporadic case, still doubted by many, on May 29."

Fired a 300-Gallon Oil Tank.

Some street boys in Broome street, near Ludlow, set fire yesterday morning to oil tank 20 of the Domestic Light Company of 610 West Forty-sixth street. The tank is about as large as a street sprinkler. It is customary for the driver to have a "soil rag" fastened at the back of the tank, and generally these rags are saturated with oil. To these rags the match was applied, and instantly the wagon was in flames, the wooden truck burning fiercely. An alarm was sent in and the engines put the blaze out in short order. It was feared that the tank, which held about 300 gallons of oil, would explode, but the Fire Department's quick response set matters aright.

She Wanted to Drown Herself.

Sarah Green was arrested at the West Twenty-third Street Ferry house yesterday afternoon on complaint of J. J. Sloane of 10 Spruce street, who said she had tried to jump into the river. She told the police she was 26 years old, and that she had no home and was tired of life. She was locked up.

Beecham's Pills

(Worth a Guinea a Box.) (Tasteless) Price 25 cents.

SCROFULA 12 YEARS

Always Sore, Burned Like Fire—Ashamed to Be Seen—Got Worse Under Four Doctors—Cured by Cuticura.

For about ten or twelve years I have been troubled with scrofula. My head was always sore, my face was dry and scaly, and burned like fire most of the time. My body had big red spots on it, and I did not know what to do. I went to four different doctors, and they helped me at first. In the fall I got worse again; then I tried other remedies, but they did me no good. I was ashamed to go into public. I was a sight to look at. Every one would say, "What is the matter; why don't you take something?" Even at my daily labor I had to wear a sort of cap to keep the dirt from getting into the sores. After I would wash I would be covered with big red pimples all over my neck and face. Some two or three people advised me to try the CUTICURA REMEDIES. I did so, and am glad I have done so. Glad to say I am a well man and in the best of health since. I cannot praise the CUTICURA REMEDIES too highly. I enclose my portrait. LEWIS W. EATON, Larksville, Pa.

Cuticura Remedies

CUTICURA RESOLVENT, the new Blood and Skin Purifier, internally to cleanse the blood of all impurities and poisonous elements, and CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Purifier and Beautifier, externally to clear the skin and scalp and restore the hair, cure every disease and humor of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scrofula, when the best physicians, hospitals, and all other remedies fail.

Sold everywhere. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

"How to Cure Skin Diseases," 64 pages, 50 illustrations, and testimonials, mailed free.

PIMPLES, blackheads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

NO RHEUMATIZ ABOUT ME? In one minute the Cuticura Anti-Pain Plaster relieves rheumatic, sciatic, hip, kidney, muscular, and chest pains, weakness and soreness. The instantaneous pain-killing, strengthening plaster.

THE GOVERNOR VISITS CAMP.

Delighted with the Spectacle Presented by the Seventh.

STATE CAMP, June 20.—Gov. Flower visited the Seventh Regiment to-day and will remain over night. His determination, he said, was formed suddenly. He was at the Windsor Hotel in New York this morning when the idea occurred to him.

The word got here at 10:30. Major Barnie of the Ordnance Department hustled his men over to the headquarters lawn, and set up the Governor's striped marquee, and got out the Governor's flag; and Capt. Pasquin's Third Battery detail gave a last polish to the already shining brass guns on the bluff, and moved them into position. The camp had been sizzling from the moment the sun got above the Peekskill hill, and the official thermometer stood at 101° when everything was ready. The Governor left New York at 2:15, and was due at Roa Hook station at 3:25. Half way to Roa Hook was Capt. Judson, booted and mounted, ready to announce the approach of the official party to Capt. Thurston at the head of the hill, a wave of whose handkerchief would set the guns a-booming.

At 3:30 Col. Appleton's bugler sounded the order for assembly. At 3:50 Capt. Judson rode his sweating horse up the hill, at 3:52 he had the troops united attention, a minute later Thurston's handkerchief waved, the first gun boomed, the battalion bugles sounded present, and the Governor was driving along the line. It was a splendid sight.

Before the nineteen guns of his salute were all fired Gov. Flower was at Post Headquarters and had shaken hands with the bedizzened officers who awaited him there and the Seventh had been dismissed.

In the evening the band got an inning, and worked Gov. Flower up such a point of enthusiasm that when Leader Rogers had finished a solo, the Governor came forward, hat in hand, and made a little speech. After thanking Rogers personally, he said he had never seen any such soldiers as these of the Seventh, nor such a band, and if money enough could be raised by private subscription or otherwise, he would send the Seventh to the World's Fair in Chicago on Sept. 4 to show the whole country what a National Guard regiment and a military regiment should be.

One of the regular events of the Seventh's biennial camp four came off last night. Years ago Commissary Walter Schuyler made a dish of lobster à la Newburg one night. Since then he has been regularly called upon for lobster à la Newburg, and the night of this year's feast was last night.

The Veteran Association of the Seventh Regiment and also the War Veteran Association of the regiment will visit the camp Thursday.

The Weather.

The warm wave continues unabated over the entire country from Minnesota and Kansas east to the Atlantic coast. Over this area the heat is uniform, ranging between 72° and 84° in the morning and between 86° and 100° in the afternoon. The highest yesterday was 98° at Philadelphia. There is no apparent reason to look for relief for a day or two in this region. There is a barometric depression over the Western States, strong enough to bring in showers in Minnesota, which is drawing the warm weather northward, and an area of high pressure over the South Atlantic States throwing off the warm southerly winds into the Northern States. These forces must give way before any cool weather can get into the country.

At present the cool weather is confined to the extreme northwest corner of the country, from Montana and Wyoming to the Pacific coast. There the temperature ranged between 40° and 50° yesterday, and it was not 6° above freezing at Oly-pia in the early morning.

Showers fell over the Southern States and the Mississippi and Ohio valleys, elsewhere the weather was generally fair.

In this city the heat was excessive. The temperature was the highest of this year, and higher than on a similar date in June in the past 22 years. In 1888 it was 94°, yesterday 96°. The humidity fortunately was below normal, averaging but 58 per cent; wind changed from southwest to northwest; average velocity 10 miles an hour.

The thermometer at Perry's pharmacy in THE SUN building recorded the temperature yesterday as follows:

	1893	1892		1893	1892
8 A. M.	75°	76°	3:30 P. M.	96°	90°
6 A. M.	75°	75°	6 P. M.	87°	86°
9 A. M.	79°	80°	9 P. M.	81°	80°
12 M.	84°	86°	12 Mid.	79°	83°

Average.....87½°
