Real Estate For Sale.

IT WILL SAVE YOU MONEY TO BUY A HOME,

Because the man who pays rent for a house has, when his lease expires, absolutely nothing to show for his money.

Suppose you live 12 years in a house for which you pay rent; at the end of that time you have paid out a tidy little sum, and don't own a nail or a shingle. Do you not think you have made a pretty poor bargain?

Now, suppose instead you go to the New York Building Loan Banking Company, choose one of the houses they will show you, make a comparatively small first payment, and then pay monthly installments of about what your rent would amount to. In a short time you find yourself the owner of a fine home, clear and free of encumbrance, and with no more exertion on your part than as if you had been paying rent as usual.

Now as to the houses.

The New York Building Loan Banking Company has scores of just such houses as you describe when you sit down to plan out your ideal home. They are in the most attractive and convenient parts of

Brooklyn

and are complete in every detail, new, finished in hard woods, have ranges, set tubs, electric bells, carved mantels, mirrors, in fact everything modern taste can suggest and money procure. Some of them are arranged for two families, so that you can, by letting part, help along materially.

It is an acknowledged fact that Brooklyn real estate is increasing in value all the time, so you are doing a good thing for your family in having one of these houses. It is really an injustice to your wife and children not to take advantage of this unparalleled opportunity.

If you have money to invest, much or little, this company pays from 7 per cent. to 16 per cent. on all sums invested with it, and, what is very much to the point, in these uncertain times, guarantee absolute security.

For further information call on or address
