
We are trying to make a business so broad, so good, so safe that whenever a New Yorker thinks of a place to buy his own or his boys' wearables, our name'll pop right into his mind.

How?

Best clothes that can be put together, with not a thread of cotton in any fabric used.

Price enough on men's and youths' clothes to warrant reliability and a fair return on our capital and service.

All short-trouser boys' clothes at cost; by which we mean enough advance on cloth and making to pay for fitting and getting them to you—not one cent to live on.

Not a "premium" or other practice that will not stand daylight.

Money back if you want it.

Pretty hard to do a credit furniture business nowadays without more or less humbug.

People read advertisements about *"no money down,"* and they imagine nothing easier than to go and get the goods; but when they try they find that if they *"pay no money down"* they must furnish real estate security. *Just think of it! Real estate security!* It's a trick; but oh, how many are fooled by it!

We sell on credit, but we require a moderate deposit as an evidence of your sincerity to retain and pay for the goods.

Just make a test of the *"No money down"* plan and compare it with our way—we know how you will decide.

We will sell you good Furniture and Carpets on reasonable terms at prices that are right.
