BUSINESS TROUBLES.

Attachments Against A. N. Ryerson Quickly Settled—Sheriff in a New Store.

The Sheriff received yesterday attachments for $47,291 against Adelbert N. Ryerson, manufacturer of neckwear at 43 East 12th street, from Blumenstiel & Hirsch. All were obtained on the ground that Mr. Ryerson is a non-resident, his home being at Noroton, Conn. They were in favor of William H. Riley, $29,808; Walter H. Graef & Co., $13,133; William Schroeder & Co., $4,250, all for goods sold and delivered. As soon as Mr. Ryerson learned of the attachments he went to work to settle them, and at 4 o'clock yesterday afternoon Blumenstiel & Hirsch announced that he had adjusted matters satisfactorily to the attaching creditors. The Sheriff was taken out of the store, and Mr. Ryerson will continue in business as heretofore. It is said that Mr. Ryerson's statement of his affairs shows a surplus of $40,000.

Louis, Abraham, and Jacob Caplan (Louis Caplan & Sons), manufacturers of ladies' cloaks and suits at 308 Canal street, made an assignment yesterday to Benjamin Reass, giving preferences for $500, of which $150 is to employees for wages.

The news of the failure of Louis Caplan & Sons caused trouble for I. Caplan & Co., cloak manufacturers of 350 Canal street, as Isaac Caplan is related to the other Caplans and was formally a partner with them. Herman Joseph bought a transfer of stock and accounts from I. Caplan & Co. to secure his claims, and said that a settlement will be made with the other creditors.

James Tompkins, dealer in hardware and housefurnishing goods at 2,643 Third avenue, Mott Haven, made an assignment yesterday to John P. Elder.

Morris Gluck, jobber in dry goods, notions, &c., at 47 Lispenard street, has given a bill of sale of the stock to the H. B. Claflin Company to secure a claim of $800.

James J. Nealis has been appointed receiver in supplementary proceedings for George V. Sims on the application of Mr. Thurman. Mr. Sims was formerly a director and promoter of the new Mining Exchange, which was organized a few months ago.

Deputy Sheriff Linsky is in charge of the store of E. Kohn & Co., dealers in clothing under the style of the People's Clothing Company at 1,477 Third avenue, under writs of replevin aggregating $2,555. The firm is a new one, and had the opening of the store on Saturday night. The goods to stock the store had been purchased a few days previously, and the sellers expected to receive cash for the goods at once. When payment was not ready on Monday the creditors proceeded to get back the goods by replevin.

JOBBER LEAVITT IN JAIL.

He Is Accused of Receiving Goods Stolen by Paul Biller.

Jacob Leavitt, a jobber in trimmings at 55 Rutgers street, this city, was held for the Grand Jury in the Lee Avenue Police Court, Williamsburgh, yesterday on the charge of receiving stolen goods. He was arrested two weeks ago on information furnished by Paul Biller, who was formerly a clerk and foreman in the August Mall Manufacturing Company in Lynch street, Williamsburgh. Biller was suspected of robbing the company of braid, and the police caught him in the act of stealing a bundle of mohair braid worth $40.

Biller confessed that he had robbed the company for more than a year, and said that he sold nearly all his plunder to Leavitt. He testified yesterday at Leavitt's hearing that the latter induced him to steal from the company. In default of $1,000 bail, Leavitt was committed to jail.

TUESDAY, April 21.

While there was no abatement to-day of the confident feeling in Wall street regarding the future of the market for securities, the professional element betrayed a disposition to take profits, particularly in Sugar Refining. In consequence that stock, which led the list in respect to activity, closed 1¾ ⅌ cent. lower than yesterday. The selling of it was so plainly of a professional character that it did not deter fairly liberal purchases of the shares of the Granger trunk lines, which were influenced by the unusually heavy receipts of corn at Chicago. The magnitude of those receipts encouraged the belief that the corn that was cribbed last fall because of the low price for that cereal is beginning to come forward; and as the amount withheld from market is unusually large, it is expected that the earnings of the Granger roads, particularly Chicago, Burlington and Quincy and Rock Island, will be materially affected when the remainder of last year's crop is moved.

The most active trading next to that in Sugar Refining was in St. Paul common, and was principally due to the operations in the stock by foreign arbitrage houses. Judging from the operations of those houses, London dealers are taking a greater active interest in the market for American securities. This view is corroborated by cable advices from London. This is not surprising in view of the condition of the foreign and domestic money markets and the rapid progress that has been and is being made toward the reorganization of bankrupt railway properties, circumstances to which attention has repeatedly been directed in this column of late. Regarding reorganizations, the interesting statement was made to-day that the time for depositing Northern Pacific securities under the plan of reorganization will not be extended beyond Thursday of this week. The managers of the reorganization have doubtless been influenced to take this step by the fact that all opposition to the plan has disappeared, and by the equally important fact that the Northern Pacific Railroad Company itself has admitted all of the allegations in the foreclosure proceedings brought by the trustee of the second and third mortgages. Besides, the security holders of the company have been given ample notice of the time within which they should deposit their securities, and any further delay seems to be unnecessary and would simply add to the expense of the reorganization.

There was a continuation of the buying of Union Pacific by houses with close connections with Washington, which was generally believed to foreshadow action at the present session of Congress upon the pending measure for funding the indebtedness to the Government of the subsidized Pacific railroads. Northern Pacific preferred was also exceptionally strong, for reasons already noted. A further advance in Missouri Pacific was also a feature of the gradually broadening speculation. The friends of American Tobacco marked the price of that stock up a point, presumably to show their skepticism of a successful outcome of efforts to restrain the company from paying the scrip dividend upon the company's common stock. The annual report of the General Electric Company was favorably regarded by the Street, though it failed to stimulate speculation in the shares of the company. The prevailing comment was that the management had pursued a conservative policy in marking down the various assets of the company, and that the showing of earnings was as good as could have been expected considering the competition which existed up to a month ago and the depression in business which is now passing away. Though the volume of transactions was a little larger than yesterday, the ardor of the speculative community was checked a little by intimations from Washington that the Senate may compel Congress to remain in session until after the National Conventions have met. The latest advices from the national capital were of a more favorable character. The closing, though irregular, was in the main firm.

TODAY'S FEATURES—The early Liverpool news was disappointing and prices weakened at the opening. Subsequently they rallied when it was seen that Liverpool was stronger. Then, too, Liverpool was a good buyer of the summer months, especially of September, and that month displayed more strength than any other in the list. The receipts at the ports proved to be considerably smaller than the early estimate, and the arrivals at some of the interior points were only moderate. Advices were received from Georgia and South Carolina stating that the early plantings were not good germinators. The close of April delivery Friday will be notice day for May cotton, and some are expecting the difference between May and June to widen, owing to the large number of contracts expiring in May. Some of the buying to-day was attributable to the fear that we are overexporting ourselves, as the increased movement to the ports, it is stated, is due to the filling of back orders for export. The shipments from the ports of late have been rather large.

COFFEE—Futures closed unchanged to 5 points higher, with the tone steady and the sales 5,000 bags. Havre declined ⅛f. Hamburg was ⅛ lower to ¼ pf. higher. Rio exchange advanced 1-16d. American warehouse deliveries yesterday 22,012 bags, making the U. S. visible supply of Brazil 396,000 bags. The trading was dull and featureless. Rio was steady at 50 reis decline; receipts in two days, 4,000; stock, 76,000. Rio exchange 9 7-16d. Santos was quiet at 200 reis decline; receipts in two days, 3,000; stock, 120,000. Rio on the spot was dull and steady; No. 7, 13½c; sales 800 bags Maracaibo and 600 Central American p. t. The future trading was as follows:

	Sales.	Highest.	Lowest.	Closing.
March	750	10.70	10.70	10.70@10.75
July	500	12.40	12.40	12.40@12.45
