For Young Men & Women—City & Country

THE FRIENDS SCHOOL at Providence, R. I., is a very interesting and suggestive place for parents to visit who have children to place. It is beautifully situated in an eastern suburb of the city in the midst of stately trees; it is thoroughly complete in all of its appointments—library, cabinet, laboratory, astronomical observatory, mineral cabinet, fine studio, and beautiful apartments ventilated with forced air and lighted throughout by the most approved electric lamps. The walls of the rooms are attractive by reason of the extraordinary number of fine pictures exhibited on them, which are intended to contribute to the unconscious education of children in every healthful direction. The teachers are of the first quality and of long experience in the various departments. Its school record is creditable. It is fully abreast with modern progressive education, with all the advantages which follow from more than a century of its service. The School secured a diploma and medal for excellence in wood carving at the Columbian Exposition at Chicago in 1893. Its fine marbles and paintings alone make it worthy of a visit. If there were no other attractions, it welcomes all interested persons to an inspection of its means and methods.

COLLEGE PREPARATORY and primary classes; both sexes; combined advantages of class work and individual instruction. Young men and young women whose early education has been neglected find here excellent opportunity to make up lost time. The work is thorough and practical, and the moral tone high. A spirit of earnest endeavor and of honest pride in each other's success pervades the place. The best evidence of this and of the other advantages of the school is to be found in the good opinion of its neighbors, patrons, and pupils.
