The fire department was called out last evening to the 300 block on South Maple to put out another fire in a sweet clover patch. The fire was same place that it was Wednesday night and how it was started is not known unless it was not entirely put out the night before. This is the fourth time the department has been called to that place in the past few weeks. The pile of hay and all the grounds around were thoroughly drenched last evening and there is little danger from a fire in that place again. He was driving at a slow rate of speed or the accident would have been serious. Martin was driving up the street and at the corner met two teams. He attempted to get around them, but ran into the beer wagon. He did not strike it squarely and no damage was done to it. In trying to steer away from both the wagons he ran into a telephone pole. No serious damage was done but the crank on the car was bent and one of the fenders was torn up some. He struck the pole hard enough to loosen it so that it will need resetting.
