Wooden Topmast, Gaff and Boom for the Lawson Boat.

BOSTON, Jan. 15.—Designer Crowninshield is devoting most of his time pending the arrival of the nickel-steel frames and other material, to the consideration of sails for the Boston boat. From what he said to-day she will be fitted with wooden topmast and gaff. Work on the boom was commenced at Lawley's to-day. The stick was round and found to measure 125 feet, but Lawley says it is only 111 feet long. As a cruising shield states a foot or two is of no importance, and hence it is finished, and Lawley is forging ahead regardless of the Lawson order. Lawley is using a wooden boom flag that on the Columbia. Regarding the gaff, Mr. Crowninshield said:

"We will undoubtedly use a wooden gaff through the season. Steel has been tried, but we find it only making a few pounds difference in weight. A wooden gaff is more than a wooden mast, and it has not yet been a gain to be more reliable than wood. It has been stated that a wooden gaff always buckles, but I can show you pictures of both the Columbia and Shamrock where a big buckle is noticeable in the steel gaffs of both."

PUGILISTS NOT WANTED.

Justice Gummere Tells Grand Jury They Must Be Kept Out of New Jersey.

TRENTON, Jan. 15.—In his charge to the Grand Jury to-day, Supreme Court Justice William Gummere instructed the jurors that New Jersey must not be allowed to become a Mecca for pugilists. Speaking of prize fights he said:

"Since this kind of exhibitions has been stopped in New York and Philadelphia, the men who follow boxing have tried to start up clubs in this State and we, the inhabitants of New Jersey, must see that they do not gain a foothold here."

The charge was prompted by a 20-round encounter at a local club on Christmas day between Percy McIntyre of New York and Harry Berger of Philadelphia, which Justice Gummere holds, if the published reports were true, was a violation of the law and should resolve the attorney of the jury. A feature of the charge which has drawn favorable comment is that it is diametrically opposed to a similar charge made by Justice Gummere two years ago and which was interpreted as favorable to a continuance of the sport. In that charge Justice Gummere said:

"There is a marked difference between a prize fight and a contest to show skill. A contest for the show of skill is not a prize fight and the fact that the audience pays to see it does not make it a prize fight. A prize fight is defined in the words imply 'To fix a fight for a prize.'

In reversing himself to-day Justice Gummere said: "A prize fight is not necessarily a fight for a prize or a contest for a reward of any kind. It is a contest with or without gloves, in which one of the contestants tries to beat the other."

Gov. Voorhees yesterday received a telegram from a Cincinnati newspaper asking if New Jersey authorities would interfere in case the Ruhlin-Jeffries fight was arranged to take place in this State. The Governor declined to express any opinion.

Golf.

The annual meeting of the Richmond Hill Golf Club was held last week at the office of the President, R. L. Harrison, 59 Wall street. The members of the old Board of Directors were reelected for the ensuing year, with the exception of Mr. Whitehead, who retires at his own request and is superseded by W. H. Bachan. The principal subject of interest at the meeting was that of the finances of the club, the attendance of members being much larger than usual because it was expected that the report regarding finances would be favorable. This expectation was fully realized, as the treasurer's report shows the club to be in a very prosperous condition. The links is in better condition than ever before; the enlarged clubhouse is attractive, the installment of a new steward, who comes with the highest recommendations as a successful caterer, promises an increase in the social interest, so that the coming year is fully expected to be the liveliest in the history of the club. The members promptly voted an increase of the annual dues from $20 to $25, so as to enable the House Committee to expend $1,000 to $500 in additional furniture and decorations of the interior of the clubhouse.

At a meeting of the directors, held subsequently, the present House Committee members were re-elected for the ensuing year, except that Mr. Bachan, now a director, is succeeded by Nelson F. Griffin on the Greens Committee Hector N. Hutchings supersedes Mr. Paddock. Arthur Finde continues as captain of the club and manager of the team, which this year promises to be a strong one.

MIAMI, Fla., Jan. 15.—George Low of the Dyker Meadow Golf Club arrived here on last Monday to take charge of the links. Golf shots then have been pending, the best match having been between Henry W. Merrill and O. D. Seavey, both well known to Northern golfers. They finished all even after an exciting contest. The links is in splendid trim and vastly improved since last year. Golf is a bright as well as a daylight sport here now, for a short approaching and putting course has been laid out on the hotel grounds. It is illuminated every night by electric lights of various colors. The upper veranda of the casino has been turned into a club room, where the onlookers can view the course and note every play of the golfers.

Golfing on the pleasanter days and skating during every cold snap have made enjoyable the visits to the Meadowood Country Club this winter. Kirk, the professional, playing the best ball of a trio of the members, on Monday established the record of 75 for the winter links and won by 4 up. Although shorter on account of the poorer greens, the course is harder to score on than the regular links, on which the record is 72, also held by Kirk.

ANOTHER CENTERBOARD YACHT.

The Herreshoffs Backed by Belmont Syndicate. Mar Build.

BOSTON, Jan. 15.—All matters in relation to the Cup defender under construction at the Herreshoff works are at a higher pressure than they have been at any time since the keel was laid. It is learned that the designer is preparing for any emergency that may arise in regard to a short delivery of the ship, and is to be supported by the employees of which August Belmont is the head.

In view of the apparent enterprise of Boston gentlemen to form a syndicate for the construction of a centerboard boat from a design of Charles Bailey, the Bristol boat is fully prepared for such developments. It is known that he has prepared a design and part of the working plans of a centerboard craft somewhat similar to that of the Bailey design. While the negotiations were going on at Boston about the Bailey question the Bristol man and the Belmont syndicate got pass with everything owing to the surface, and has stated that nothing is definitely fixed, if the Bailey boat is to be built on land with a mechanician on a contract basis and the plans are so well advanced that it would not take long to begin work in the Boston shop.

The work of preparing to land the frames of the Belmont boat goes on every day. The school cadets go to Long Island City, where the frames are all collected in a building that place will be out the slightest with a selected part of the frames goes up on the sail. The latter has been shifted a few feet west toward the harbor front.

The work of fitting in finishing the left and another one in left begins. New suits are ordered for the schooners and. The work has become so pressing that yesterday six sail makers were added to the force.

Last evening a car loaded with twenty-six crates of Tobin bronze was received from Boston. The crates are 6 feet 6 inches wide and 8 feet 6 inches long. The plates on the whole are half inch thick, instead of previously. The greater part are the strength of an inch thick and others are three-eighths of an inch. The plates are and as smooth looking as though they were just from the mill.

A Clyde steamer of angle irons are being shipped from Pennsylvania. In an Adams Express car of the Pennsylvania road there came this morning by special train, the last of a consignment of steel bolts will be used for the keelson. There is more metal here now than is needed for that work. The work of setting up the aforementioned keelson is being carried on.

Rear Admiral Mr. Ian D. Blunt, who will command the new Herreshoff boat, arrived here from Washington Navy Yard. He has been at Dover this winter but since spoking time for the prime of the ship at Dorchester. In a conversation Capt. Rhodes said that he had a pleasant time at home. He will be at Dorchester for a few weeks yet. For the information that a few men may be secured from other places

Valve for Pneumatic Tires One of the Features of the Show. Motor Machines Form an Interesting Exhibit. The Voting Contest.

There was a much better attendance at the second night of the bicycle show in Madison Square Garden. It was better, indeed, than the "big night" in the house. There probably included advance sale and "free" tickets at the gate. There was a considerable attendance of the cycle riders who were present on Saturday night.

The greatest attraction of the show is a mechanical novelty in the other whole the motor vehicles are present. They are very interesting. Two things of the show have to be sought for. There are new things for riders who are interested in finding and practicing pertaining to a bicycle, but they are not offered at first glance. One of the newest things is a valve for pneumatic tires of the kind that may soon be the trade name for a tire. Valve equipped tire some time and not yet invented.

New York A. C. Governors Organize.

The newly elected Board of Governors of the New York A. C. held an organization meeting last night. President John R. Van Wormer presented a list of the committees appointed, but as all the members had not accepted the positions the names were not made public. About fifty new members were elected. No action was taken regarding the building of a new clubhouse at Travers Island. It was said that Mr. Van Wormer, the quarter-mile record holder, John Flanagan, the sixteen-pound hammer record holder, and R. Sheldon, the shot putter, are no longer members of the organization.

Racing at New Orleans.

NEW ORLEANS, Jan. 15.—The selling race war which began on Saturday, when Lady Contrary was run up by Billy Carroll, goes merrily on at the Fair Grounds. There were two "bonds" to-day. Sutlia, winner of the first race, was run up to $750, $150 over her entered price, by Mose Gulbilat. She was bought in by her owner, Tom Settle. The second false occurred after Johnny McGafferty's Lady Contrary had won the fifth race. Billy Carroll, who "bonded" her on Saturday, was on hand when the daughter of Russell was offered for sale and run her up to $700, $200 over her entered price. Carroll then dropped out and Mose Gulbilat then took up the bidding and offered $750, at which price he secured the mare. McCafferty retaliated by taking Apacia, who finished second, for $675. Summary:

First Race.—One mile: Sutlia, 102 (Slack), 4 to 1 and 3 to 2, won; Old Fox, 105 (Dale), 7 to 1 and 2 to 1, second; Trebor, 109 (Weber), third. Time, 1:50. Bright Night, Brown Vail, Jim Gore, Phidias and Uncle Bill also ran.

JUNIORS COMPETE WITH LOUIS.

J. L. Irving of the Fencers' Club Wins A. F. L. A. Championship.

J. L. Irving of the Fencers' Club won the A. F. L. A. Junior Foil championship of the United States fencing tournament of the Amateur Fencers' League of America at the New York A. C. last night. The following were the contestants:

Contestants—New York A. C.: E. B. Clark, B. S. Brown, E. L. Reilly and A. L. Morrison; Columbia University, New York A. C.: Albert Hassler; Fencers' Club, New York A. C.: J. Van Ness, Jr., J. Irving; Fencers' Club, N. Y.: Arnold, Yale; G. A. Fencers' Fencers' Club and W. F. Meyers, Yale.

The contest was carried out under new conditions, the competitors being divided into four groups, which were judged simultaneously. The four best bouts were selected from each group to compete in the finals. Albert S. N. Arnold of Yale defeated Irving, which gave the champion a bye in the second bout. Irving turned the tables on the Yale, which gave him the champion bye with a clean score. Arnold was second and Morrison third. The scores:

BILLIARDS.

Poggenburg Easily Defeats Gardner at the Hanover Club.

Ferdinand Poggenburg, the champion of the Liederkranz Club, defeated Frank C. Gardner, champion of the Crescent A. C., last night by the score of 300 to 141. The game was the second in the series for the billiard championship of the National Association of Amateur Billiard Players, and was played at the Hanover club, Brooklyn. The game was fast, and Poggenburg finished with an average of 9 21-31. He displayed rare judgment in playing open-table billiards at the start. His best runs at this style of play included a break of 39 in the fourth inning, 19 in the fifth and 36 on his eleventh. He also demonstrated his accuracy in negotiating difficult nurse shots.

Gardner was not at his best, but at no stage did he attempt to nurse, but poked the balls about in the hope that wide spreads would head off his antagonist. The crescent champion showed that he is a great hard-shot player. A cross draw from the cushion in his eleventh inning was wonderful. Summary:

Poggenburg: 1, 2, 0, 0, 39, 19, 1, 0, 1, 4, 7, 36, 14, 0, 0, 19, 21, 3, 0, 2, 2, 4, 21, 1, 0, 0, 0, 12, 18, 19, 37, 3. Total, 300; average, 9 21-31; high runs, 39, 36, 37 and 37.

Gardner: 4, 8, 3, 13, 1, 0, 0, 1, 4, 1, 22, 7, 8, 4, 6, 0, 4, 0, 0, 20, 6, 3, 1, 1, 0, 0, 6, 0, 0, 4, 11, 2. Total, 141; average, 4 17-31; high runs, 22, 20, 13 and 11.

Referee, Edward Mayer, Jr.

The game this evening will bring together J. Byron Stark, former class B champion, and Edward Gardner of Passaic.

In the X. Y. Z handicap billiard tournament at the Knickerbocker A. C. two games were played last night. Joseph Steiner, 100, beat Dr. C. R. Fletcher, 90, by the score of 100 to 56. In class Y at straight rail, At the fourteen-inch balk-line game in class X, W. E. Bracken, 150, defeated the scratch man, J. D. Bennett, 150, by 110 to 98.

Yale Field Practically Free of Debt.

NEW HAVEN, Jan. 15.—It is announced that the Yale Field corporation is practically free of debt. The Field was built twenty years ago and cost $80,000, and bonds to that amount were issued. Last year the debt had been reduced to $8,000, and it was said to-night that $2,000 have since been raised in cash, and the balance has been pledged to be paid at once.
