Wheat was firmer early in the day, owing to better English and French cables than expected, some foreign buying, smaller Northwestern receipts, light country offerings, expectations of a decrease in the Bradstreet statement and covering. Liverpool and London advanced, and Paris continued firm, gaining 5 to 10 for flour. Northwestern receipts were 120 cars smaller than a year ago. Consul Meyer at Buenos Ayres advises the State Department that in his opinion the Argentina exportable surplus will not exceed 57,500,000 bush. leaving 30,000,000 for home consumption. But the demand soon abated and later on prices slowly sagged, closing at a fractional loss for the day. The Bradstreet statement was just generally, and this had strengthened selling by scalpers. Furthermore, the seaboard clearances dropped to only 220,000 bush. of wheat and flour and primary receipts were 40,000 bush. larger than a year ago. While a short month of some of the Northwestern mills was expected, Bradstreet's figures showed a gain. Budapest, Antwerp, etc., corn was firmer, owing to a rise of ½d. at Liverpool, light country acceptances, a good cash trade at the West and covering. Seaboard clearances were again large at 1,000,000 bush. Cash wheat closed 1c. net higher.

FLOUR. Dull and featureless. Sales 4,000 bbls. Receipts were 19,841 bbls. and 14,000 sacks; exports, 5,187 bbls. and 10,439 sacks. Winter fancy: Superfine, $2.20@$2.25. No. 2 extra, $2.35@$2.40. There was a decline in cotton yesterday owing to disappointing cables, Liverpool declining where same advance had been expected, and also owing to unexpectedly large semi-weekly interior receipts. The port receipts were not heavy by any means but the increased interior movement was not regarded as a good sign especially as spot markets at the South continue quiet. The imports at Liverpool yesterday ran up 45,000 bales and the decline there was attributed largely to this fact. Liverpool was a seller of the futures during most of the day. The South and local operators bought to cover to a moderate extent. Manchester is doing a good business, but reports from New England are unsatisfactory. Mr. Hester adds 7,770 pounds to the weight of the bales received thus far this season, thereby adding 125,000 bales to the amount brought into sight. One great trouble just now is the dullness of the speculation. Outsiders are beginning to sell to some extent and some take the ground that if the dullness continues a much greater decline may result.

COFFEE. Rio on the spot was steady at 6⅞c. for No. 7. Sales, 2,500 bags Santos, basis 7 3/16c. for No. 4, full differences. 2,000 Maracaibo, 2,000 Porto Cabello, 500 Mexican. Future declined 5 points, but recovered the loss and closed steady. Sales, 37,500 bags. Havre was unchanged. Hamburg declined ⅛c. to 1 pfg. American warehouse deliveries, 50,635 bags. Rio was quiet, receipts for two days, 17,000 bags; stock, 285,000; exchange, 10¼d., an advance of 1 32d. Santos was steady; receipts for three days, 31,000 bags; stock, 1,201,000. REAL ESTATE NEWS.

An estate in real property of a kind not frequently offered was sold in foreclosure yesterday by Auctioneer William M. Ryan. An apartment in the Gramercy at the northeast corner of Twentieth street and Gramercy Park, including 129 shares of capital stock in the Gramercy Company, was sold for $5,000, which was some $8,000 less than the incumbrances. The Gramercy, which was built years ago through the agency of George W. Dudenhu, is one of the few cooperative apartment houses in the city, of which the Navarre flats is perhaps the best known example. The cooperative principle in housing would seem to insure economy and a greater degree of exclusiveness than is obtainable in the ordinary flat. Nevertheless, the projection of cooperative houses was abandoned after the idea had been embodied in a few centuries.

Nos. 43 to 49 West Thirty-fifth street, four four-story brownstone dwellings on a plot 95 x 98.11, have been bought by Mayer Hallman and resold to Robert H. Spaulding, who will build on the site a fireproof apartment hotel the resale being associated with a building loan. No. 45 was bought by Caroline R. Woodworth in December, 1900, for $14,500; No. 45 by Harris Mandelbaum in 1899 for $5,750; No. 47 by Ottinger Brothers in 1900 for $5,000 and No. 49 by Emma Coleman in 1900 for $[illegible]. It is understood that Mr. Spaulding pays $10,000 each for the several parcels, which are identical as to dimensions and improvement.

Greene & Taylor have sold for the trustees of St. Luke's Hospital the flow lots on the southwest corner of Fifth avenue and Fifty-fifth street, adjoining the University Club, 100.5x125, to J. C. Evans for about $[illegible]. Mr. Evans will improve the plot for the erection of private dwellings.

Herbert A. Sherman has sold for a client a 50-foot corner plot on Fifth avenue, said to be located north of the Carnegie blocks. At his office it was said that the particulars will be withheld until later in the week.

Slawson & Hobbs have sold for Hattie Mandelson to a client for occupancy the four-story 20-foot brownstone dwelling, No. 315 West Eighty-eighth street.
