The local movements of money this week are described by the New York News Bureau as follows: The known movements of gold, so far as the results of the direct express shipments and shipments and of the operations of the banks with the Sub-Treasury, indicate a gain in cash of $4,384,693. The banks received by express $4,098,693 and gained from the Sub-Treasury $353,000, an aggregate gain of $5,821,693. The shipments by direct express were $937,000. The position of the banks is stronger than these figures show. Undoubtedly there should be reflected some of the cash that did not show in last week's statement. Furthermore, bank loans apparently have not been increased, if they have not been decreased, and the large payments by the Sub-Treasury yesterday will, of course, be only partially covered by to-morrow's bank statement. The items that contributed toward the gain of the banks from the Sub-Treasury included $1,000,000 for pensions and $288,475 for bonds purchased as noted by this bureau there were also large payments on account of army expenses and against San Francisco credits. The loss of the banks on account of gold exports for the week, up to the close of business yesterday, was $512,000. The receipts of money from the interior were again mainly from the West and South.

Bradstreet's reports the number of failures for the week ending to-night at 192, against 197 last week and 167 the corresponding week last year. R. G. Dun & Co. compute the liabilities of the concerns failing for the three weeks of May at $4,779,103, against $6,611,291 the corresponding week last year.

The receipts of the Government to-day were: Customs, $734,592; internal revenue, $809,558; and miscellaneous, $15,488, a total of $1,559,638. The disbursements were $1,196,[illegible] on account of receipts over expenditures of $362,556. The receipts for the fiscal year to date have been $325,462,921, and disbursements $470,126,700, an excess of receipts over expenditures of $55,336,215.

The official count of the cash in the Treasury to-day, not including the gold reserve of $150,000,000 and $770,293,598 in gold, silver and notes against which certificates are outstanding, and compared with that of yesterday shows:

July was the main feature of the cotton market, advancing rather sharply early in the day and pulling most of the list with it, although the next crop months felt the effects of favorable crop reports, not to mention the large receipts at the ports and interior towns. Mr. Hester made the quantity brought into sight this week 70,639 bales against 77,053 a week last week, 51,731 last year, 52,306 in 1899 and 55,359 in 1898. Hearne, Tex., had a rainfall of over three inches and showers were predicted for the cotton States generally, spot markets were quiet, cotton goods continued slow and in a word most of the conditions were bearish. But for all that July still dominated the situation. The short interest in it is believed to be large and Chicago people are said to be largely long of that month. Developments in July are being watched with a good deal of interest. It is understood that if the price advances much further considerable cotton will be shipped hither not only from the South but also from New England, and this may be the reason for the tactics pursued by bull brokers who sold on the rise and thus prevented any very marked advance. New York, New Orleans and Liverpool bought July. New Orleans sold June to some extent against the actual cotton.

Afternoon reports were that Rio exchange was down to 11¾d. This and selling against trading in Brazil had a depressing effect. The public despatch quoted exchange at 12d. Hard & Hand had a despatch quoting it 11 13-16d. If 11¾d. is right the decline is ⅜d. in a single day, which argues serious financial disturbances of some kind. Prices here, however, were only slightly lower. Combined Rio and Santos receipts during May and June, 1900, were 1,500,000 bags against 875,000 for the same time in 1899, but it is contended that the total this season points to 1,500,000 bags more than in the previous season.

Chicago, May 24.—Provisions were up a little at the opening on higher prices for hogs, but the sympathetic influence of weak grain markets checked the advancing tendency. The closing was steady. The rather moderate trade was mainly between brokers. A pretty good cash business was transacted.

SUGAR.—Raw was firm and quiet at 4 9-32c. for 96 test and 3¾c. for 89 test. Refined was in moderate demand and firm.

REAL ESTATE NEWS.

Another sale in the block bounded by Liberty street, Maiden lane, and Nassau and William streets was authoritatively announced yesterday. Yesterday's sale comprised the Brooklyn Life Building at 51 and 53 Liberty street and the abutting property on the corner of Nassau. The Brooklyn Life Building is a seven-story structure, built in 1884 on the site of the Thorburn House. The adjoining property on the corner was bought by the company some time after, at $150 a square foot. An officer of the Brooklyn Life Insurance Company said yesterday that he did not know the name of the buyer, who was represented in the negotiations by Richard M Montgomery, Frank D. Allen, an attorney in the law department of the Manhattan Elevated Railway, who has taken title to the several parcels at 33 to 49 Liberty street and 36 to 50 Maiden lane, except the holding of the Lawyers' Title Insurance Company, disclaimed any connection with yesterday's purchase. What interest Mr Allen represents is still unknown. It will be remembered, however, that some time ago the Mutual Life Insurance Company acquired a large frontage in Cedar street, between the Germania Life and the Continental Fire Insurance companies, to protect the light of the addition to its building, which the Mutual Life is erecting. At that time it was pointed out that to protect itself effectively the company would be obliged to buy in Liberty street also. The Lawyers' Title Insurance Company is credited in some quarters with being the integest for which Mr. Allen is acting, but the prices which have prevailed in the various deals are said to be so liberal as to suggest that the property was hardly wanted for improvement as an independent investment. Indeed, the Brooklyn Life Insurance Company had no intention of disposing of its property until induced by the overtures made through Mr. Montgomery.

The Marshall O. Roberts property on the southeast corner of Fifth avenue and Eighteenth street is reported to have been finally bought by Henry Corn for improvement with a ten or twelve-story loft building.

Myer Hellman has sold the plot 100x100 on the northeast corner of 135th street and Bradhurst avenue to L. Mestanik, who will build a seven-story apartment house.

John N. Golding has sold for A. Van Horn Stuyvesant the stable at No. 28 West Forty-fourth street. Mr. Golding recently purchased the stable adjoining. No. 30 West Forty-fourth street. John N. Golding has also sold the five-story flat No. 33 West Forty-fourth street for a Mr. Osborn to A. Van Horn Stuyvesant, who will tear it down and erect in its place a handsome private stable.

Bernard Smyth & Sons have sold for Elizabeth V. Irwin the plot on the west side of Broadway, 40 feet north of 122d street, 25x137.6x26.9x128.6, and for the City Realty Company, No. 502 Eleventh avenue, near Forty-second street, a four-story brick tenement.
