Wheat declined slightly in the early business, owing to lower cables and liberal Northwestern receipts, but later on covering and export buying caused a rally and final prices were slightly higher for the day. Export sales were reported as high as 50 loads or 472,000 bush. The total receipts at all points in the interior were 1,495,000 bush against 1,009,000 a year ago. The sea board received 527,000 and cleared 725,000. There was a holiday at Baltimore and no returns were received from Galveston, Tex. It is pointed out that since July 1, the supply of wheat has decreased, owing to a good demand for flour for home use and also owing to the large exports, and some veterans take the ground that considering the size of the crop and the time of the year the visible supply is surprisingly small. Corn, like wheat, weakened at first, but later on advanced. Light frosts were reported in South Dakota. Export sales here were reported as 45 loads. Chicago was more active on the spot and primary receipts were smaller, being 385,000 bush. against 536,500 a week ago and 466,700 last year. Reports from the West all state that there will not be enough corn for farmers' needs "only by the greatest economy," remarked an experienced broker, "will farmers pull through to an otherwise, over a year hence." Liverpool fell ⅛@¼d on corn, while it dropped only ⅛@¼d on wheat. London fell ¼@½d on wheat and ¼@½d on corn. In other words the cables were not very encouraging, but there are those who think that the European cables ought to cut less figure here this season than at any time for years past, and that the American farmer will be a fool to let Europe dictate the price of wheat and corn when it should be the other way about. The seaboard received 29,000 bush. of corn and cleared 149,000. Oats were higher. The supply is short and of light weight. Irwin, Green & Co. were buyers at Chicago. The interior receipts were 421,000 bush. and the shipments 334,000.

FLOUR—Quiet but steady. Sales, 12,500 bbls. Receipts were 7,769 bbls and 41,812 sacks. Exports, 10,711 bbls. and 9,114 sacks. Winter in bbls. Superfine, $2.40@$2.50. No. 2 extra, $2.50@$2.60; clears, $2.90@$3.15; straights, $3.20@$3.30; patents, $3.45@$3.75. Spring in bbls. Clears, $2.85@$3.10; straights, $3.25@$3.40; patents, $3.60@$3.75. Rye flour, $2.90@$3.55.

COTTON—Spot cotton here was unchanged. Sales, 823 bales to consumers. Middling uplands, 9c. against 11⅛c. last year. New Orleans, Gulf, 8⅝c. against 11⅛c. Savannah, New Orleans and Galveston declined ⅛c and August advanced ⅛c. Liverpool was unchanged on the spot with sales of 5,000 bales; futures advanced 2½@3½ points. Manchester was quiet. The movement to-day was as follows:

Early cotton prices were slightly higher owing to higher cables, a fire in Brooklyn which destroyed 2,500 bales of a stock rapidly dwindling from shipments to New England and Europe, the favorable reports from Fall River, light receipts at the ports and covering of shorts. The advance was lost and a decline followed mainly owing to the largely increased receipts estimated for both New Orleans and Houston to-morrow, and heavy New Orleans and New York selling. Eastern Texas got considerable rain, but the central part of the State had little. East of the Mississippi, however, the weather was generally favorable.

COFFEE—Rio on the spot was steady at 5⅞c. for No. 7. Sales, 3,000 bags Nos. 7 and 8 at 5⅞c., 1,000 bags Santos No. 4 at 6⅞c.
