Money on call, 3½@4½ per cent., closing at the lower figure. Time money is quoted at 5 per cent for two, three and four months and 4½@5 per cent for six months. Commercial paper is quoted at 4½@5 per cent., prime single names, bills receivable; other names, 5½ per cent.

Sterling exchange was strong and higher. The receipts of cotton bills from the South were disappointingly small, showing that planters are still holding the staple for higher prices. The supply of grain bills was also light. Simultaneously with this poverty of supply, there was considerable demand to cover maturing long sterling and the approaching London settlement and further sales of stocks for foreign account also caused more or less injury. The day's rise in rates obliterated for the time being any prospect of further engagements of gold abroad. Continental exchange was also firmer. Posted rates for long bills, $4 83½, sight drafts, $4 86. Actual rates: Long bills, $4 82¾@4 83; sight drafts, $4 85¼@$4 85¾, and cable transfers, $4 85¾@$4 86¼. Francs were quoted at 5 21¾@5 21¼ for long and 5 20@5 19¾ for short; reichsmarks, 94 9-16@94 11-16 for long and 95 1-16@95¼ for short; guilders, 39¾@39 15-16 for long and 40@40 1-16 for short.

The final prices were lower for cotton, owing to local and Southern selling and a lack of support. Besides the Houston estimated receipts for to-morrow were 20,000 to 21,000 bales larger than the receipts there to-day. Liverpool was lower, "spots" were weaker here and in New Orleans, Texas was said to be offering cotton here more freely, and the weather at the South was clear and warmer. The temporary rally at one time was due to cold weather at the Northwest and small receipts at the ports, but realizing and New Orleans selling, together with some local bear pressure, caused a quick downward reaction in the last hour.
