Sterling exchange opened with an active demand and rates advanced, the figures reached for short being the highest yet made. There was renewed covering of maturities and the rise in open market discounts at London above the Bank of England rate had a strengthening effect on demand and cable transfers. Long sterling, however, finally eased off a little from this cause and other classes of remittance were a trifle off from the best at the end of the day. Continental exchange was firmer, particularly the Paris check rate. The consensus of opinion among bankers was that some gold would be forwarded by the French steamer on Thursday, but the day closed without any positive announcement in the premises. It is known the Bank of France is not offering bills payable in either London or New York for gold. This, of course, will play some part in the matter, possibly minimizing the outflow should exports actually take place. There was a good supply of cotton bills as the result of last week's heavy movement from the interiors. This did not have any effect during the morning, but considering the commercial easier tone at the opening rates for long bills, $4 84½, a shade above last week's. Actual rates: Long bills, $4 84½@4 84¾; sight drafts, $4 86¼@4 86½, and cable transfers, $4 87¼@4 87½. Francs were quoted at 5 18½@5 18¾ for long and 5 17½@5 17¾ for short; reichsmarks, 95¾@95⅞ for long and 95½@95⅝ for short; guilders, 40 1-16@40 3-16 for long and 40⅝@40 5-16 for short.

Wheat declined on lower cables, good rains in Argentina, foreign selling, heavier rains in the whiter wheat belt, an increase of 1,311,000 bush. in the visible supply, easier Southwestern and Northwestern markets and liquidation as well as more or less short selling. Liverpool declined ½d., London ½ to ¾d., Paris 5 to 10 centimes, Berlin ¼ mark and Antwerp ⅛f. Later on there was a rally on covering of shorts, some commission house buying at the West, a decrease of 700,000 bush. in Liverpool stock, a falling off of 2,000,000 in the amount on passage and smaller world's shipments, the total being 7,268,000 bush. against 8,786,000 in the previous week and 8,925,000 last year, but subsequently prices again sagged under renewed selling in which Schwartz, Dupee & Co., Bartlett, Frazier & Co. and Logan and Barrett were prominent sellers, bought on the decline. Corn declined on a drop of ½ to ¾d. in English markets, a sluggish cash trade, an increase of 187,000 bush. in the visible liquidation, but part of the loss was recovered upon covering, smaller receipts and moderate world's shipments, the total being 2,316,000 bush. against 1,864,000 in the previous week and 4,108,000 last year. Primary receipts were 481,000 bush. against 835,000 last year, and the shipments 214,000 against 1,100,000. Oats showed more steadiness than other cereals, owing to the strength and activity of the cash market. Mr. Reynolds was a good buyer. The visible supply increased 208,000 bush. Primary receipts 523,000 bush., shipments, 426,000.

Cotton felt the depressing effect of fine weather, liberal receipts, heavy Liverpool selling and a good deal of local and other liquidation which uncovered stop orders. The South sold considerable and it is understood that brokers supposed to be acting for large Philadelphia spot interests were also sellers. Golder was also reported for Texas and the Southwest generally, but this had comparatively little effect. What seems to be needed is a sharp falling off in the receipts and a general killing frost if prices are to permanently improve.

COFFEE—Rio on the spot was firmer at 6¾c for No. 7. Sales, 5,000 bags Rio to be shipped at 9¼c. 5,000 Victoria No. 7 at 6¾c, and 7,000 Maracaibo. REAL ESTATE NEWS.

The week's brokerage market opened tamely yesterday with two sales of the kind that figure most commonly in current dealing. The only item of special interest made public was a report that the First Church of Christ, Scientist, had sold its church building, occupying a plot 80x100.5, on the north side of Forty-eighth street, between Sixth and Seventh avenues. The property was formerly occupied by the Rev. Heber Newton's Episcopal parish, and in 1890 was sold to the Methodist Church Extension Society for $70,000, which, in turn sold it to the Christian Scientists in February, 1896. The latter have since bought the north corner of Central Park West and Ninety-sixth street, with the intention of moving uptown. The report circulated yesterday, however, of a sale of the present place of worship was denied by Mrs. Augusta E. Stetson, the reader of the Church.

L. J. Phillips & Co. have sold for James Carlew to a Mr. Thompson No. 14 West Seventy-sixth street, a five-story American basement dwelling, 25x70x102.2, with extension. It is the sixth sold of a row of seven new houses built by Mr. Carlew.

William Feinberg and Isidor Mishkind have sold the new seven-story flat, on plot 41x77, at Nos. 144 and 146 East Seventeenth street.

John P. Kirwan has leased No. 38 West Fifteenth street, a four-story basement dwelling, for Marie L. Hopkins to Harriet Prentiss at $4,200 a year. No. 233 West Forty-f
