SCHOLES DEFEATS TITUS.

HENLEY CANDIDATES MEET IN HARLEM REGATTA.

Canadian Takes the Honors Easily From Local Man—Harlem R. C. Eight Defeats Columbia 'Varsity Oarsmen by Five Feet—Fast Time by Both Crews.

The Harlem Regatta Association held its thirty-sixth annual regatta on the "Speedway Course" yesterday, and outside of an interesting programme of minor events there were contested two of the best races ever seen in this or any other country. One of these was the senior single sculls, in which the men who supplied the sensation were C. S. Titus of the Triton Boat Club of this city and Louis Scholes of the Don Rowing Club of Toronto. Both are entered in the Diamond Sculls at the Henley regatta next week, and the curiosity to see who was the better man knew no bounds among the thousands of spectators who fringed both banks of the river. Whatever luck may have had on the other side of the water, it was evident yesterday that he is Titus's equal in a mile or any distance beyond it. Titus is as strong as a lion and had lots of reserve when the flag fell. Scholes used a stroke four feet shorter than the Philadelphia. He is not as neat a sculler as Titus, but he has a more effective way of forcing a vessel travel.

The most stirring feature of the day's sport was the senior eight-oared shell race between the 'Varsity, the Harlem and the New York A. C. The latter crew pulled in to their stake boat a length ahead of the Harlem, but there was a strong tide that would make matters interesting. Ned Hanlan's cracks, and those who knew a thing or two about rowing were not surprised at the result. Not by any means did a big motor separate the crews at the finish, those who were lucky enough to see a boat race they will never forget. It may be that the distance of one mile was a little short for the collegians, but it is certain that they came within five feet of a tie and that their time was 4 minutes 20 seconds, the merits of the race can best be judged by the fact that the Harlem's time of 4 minutes 20 seconds. The Harlems rowed a fine race, appropriately named eight, and the Varsity was second.

The races were one mile. The trial heats of the finals were rowed down the course, while all the finals were rowed up against the current. In the morning there was a hard, nasty swell on the course, which made rowing unpleasant, but in the afternoon it was almost a mirror, and conditions of note. Summary:

Hunt dropped off with about 100 yards gained a length, and Clary, after the order to go, Hunt, and Clary, with Scofield and Daly in the rear. Facing the half-mile flag showed the way, but at the turn Fraser overhauled him, and, with a steady stroke, won by five lengths. Daly was third, about a length in front of Scofield, and Hunt last. Time, 6 minutes 22 seconds. Clary's time, 6 minutes 42½ seconds.

Crew of Columbia University, and the Atalanta club were the four crews lined up for the exhilarating sight. From end of the river their positions were: New York A. C., Columbia, Harlem, Atalanta. The first two were even at the start, but the Columbia crew had the Harlem boat a little in the rear of the New York. When the men settled down to real work it was seen that the Quakers exhibited the best form, and after the half-mile rowed in faultless style, winning by about three lengths.

The Nassaus were second and the New Yorks third by three lengths. University's time, 6 minutes 19½ seconds. Nassau's time, 6 minutes 18¾ seconds.

INTERMEDIATE SINGLE SCULLS.

Ormond Butler, Harlem Rowing Club, David A. Clary, Nassau Boat Club.

For about a quarter of a mile the pair sculled about level, when Clary gained about a boat length by a spurt. In this order they rowed until about 200 yards from the finish, when Butler spurted, but he could not quite reach the Nassau man. Clary's time, 5 minutes 32½ seconds. Butler's time, 5 minutes 35 seconds.

SENIOR DOUBLE SCULLS.

Vesper Boat Club—B. J. Lockwood, bow; J. B. J. Wood, stroke.

After being sent away a second time the Bohemes pegged to the front and crossed the finish line four lengths to the good. Time, 5 minutes 10½ seconds. Nonpariel's time, 5 minutes 38½ seconds.

SENIOR EIGHT-OARED SHELLS.

Harlem Rowing Club—H. Novenhacker, bow; R. W. Weed, No. 2; Fred Teagel, No. 3; William Rogers, No. 4; H. H. Hearn, No. 5; James J. Rooney, No. 6; J. Hughes, No. 7; Joseph W. Maher, stroke; Ted Scannell, coxswain.

This was the race of the day. Columbia had the Speedway berth, with the Harlems in the middle and the New Yorks on the Westchester side. There was quite a delay at the start, as there were no stake boats and the crews had to drift into position. At the crack of the pistol the New York's shell was the first in motion and gained half a length. The Columbia men found their stroke a little quicker than the Harlems, but when the latter crew got together they held their lead through the entire race, a great rate. Toward the quarter the Harlem stroke was raised from 33 to 40 and this extra amount of beef gave them half a length over Columbia and the New York, who were flying along about even. Between the half and quarter Columbia raised her stroke and almost pulled up level with the Harlems, with the New Yorks behind less than a length. All three crews were rowing in faultless style and with a swinging reach that is the best test of a crew. A few feet from the white line, which marks the three-quarter journey, Columbia drew level on the Harlems for one brief instant and in the next had to give way to the superior speed of their opponents.

But the college men were not so easily disposed of and again they tried for the scalp of the leaders. Then as the crews entered the last quarter commenced one of the most hustling ever seen in this city on the course. The New Yorks were fallen far adrift and blade for blade Columbia and Harlem were hitting the sounding furrows with a venjance. Inch by inch the Columbia shell crept up, but the Harlem veterans were game to the last and they kept up their punishing stroke and shot over the finish line five feet in front of Columbia, with the New York A. C. two lengths off. The times were: Harlem R. C., 4 minutes 20 seconds; Columbia University, 4 minutes 25 seconds; New York A. C., 4 minutes 40 seconds.

NAVAL RESERVE RACE.

Won by Second Division; time, 6 minutes 22 seconds. First Division, second; time, 6 minutes 24½ seconds.

Ocean Yacht Club's Boats Damaged.

The Ocean Yacht Club of Stapleton, Staten Island, held a regatta for the knock-about class yesterday morning, in the upper bay. Four new boats, built on the same lines, have been added to the club's fleet this season, and an excellent contest was promised, but the strong wind played havoc with the fleet before the race was started. The Dart, owned by Alexander Ferrill, carried away both shrouds, and the Sirius, owned by Irving Stapleton, was overturned. Her crew of three escaped with a ducking. Only three of the new boats started—the Spray, owned by Otto Schroeder and John Jones, the Hollywood, owned by Frank Bloom and Commodore Herman Steiner, and the Wall, owned by William Olsen and James Gould. The Wall finished first, but as all the boats turned the entire course wrong the race was called off and will be resailed.

DE WITT'S HAMMER RECORD.

PRINCETON CRACK SHINES AT INTERCOLLEGIATE GAMES.

Plaw, California Champion, Beaten by Over Twenty Feet in Trials—Harvard and Yale Place Equal Number of Men in Preliminaries at Berkeley Oval.

Several hundred athletes representing over twenty different colleges and universities took part in the preliminary events for the intercollegiate track and field championship at Berkeley Oval yesterday. The contests as a rule were close and hard fought, the established records having been dangerously approached in several instances. In the hammer throw John R. DeWitt of Princeton eclipsed all previous records by a throw of 164 feet 10 inches. The previous record of 154 feet 4½ inches was made two years ago by A. D. Plaw, the giant Californian. Plaw was on hand again, but his best effort netted only 144 feet 7 inches, or over twenty feet behind the new record.

Sears, the Cornell sprinter, and Boardman of Yale did not compete. Several protests were entered against Schick, the Harvard sprinter, on the ground that he has not been in academic residence at Harvard a full year since his competition in open events. He was permitted to run under protest, but an extra man was allowed to qualify in the races in which he participated. The protest against Preston of Yale in the pole vault is now of no importance, as he failed to qualify for the finals.

The results point out a hard struggle between Harvard and Yale for the championship to-day. Both institutions qualified nineteen men for the finals, and they are almost equally distributed among the several events. Princeton and California had eight men each to qualify and the numbers from the other colleges are as follows: Pennsylvania, 5; Cornell, 4; Amherst, 3; Columbia, Syracuse and Georgetown, 2 each, and Rutgers and Williams, 1 each.

In the sprints Duffy of Georgetown, Moulton of Yale and Schick, Haigh and Lightner of Harvard won with ease and are apparently the men to fight it out to-day. The relative ability of the contestants in the hurdles and quarter-mile run cannot be judged on the basis of yesterday's performances, as the men were satisfied by qualifying without exerting themselves.

Both trials in the half-mile were beautiful races. In each case there were several men whose records are close to 2 minutes, and the runners finished so bunched together that it was with difficulty that the judges picked out the first five men in their order. A dark horse appeared in J. R. Kane of Yale, who won his heat in 2 minutes ¼ of a second.

The field events were unusually good. Five men vaulted over 11 feet: four men cleared 5 feet 11 inches in the high jump, and it took almost 42 feet to qualify in the shot put. In the last Beck of Yale, last year's champion, again led with a put of only one-half an inch under 44 feet.

There was an amusing incident in the first heat of the quarter-mile. D. L. Parmenter of Yale made a great effort to get ahead of E. F. Rust of Harvard and was sure of second place as the home-stretch was reached, and slowed up to coach J. G. Fry, his mate, who was being hard pushed by A. L. Perry, a Princeton freshman. The three men finished in a bunch, and until a few yards from the finish, when the two Harvard men forged ahead and won out by a few feet only. The summaries:
