Vermilye & Co. and J. W. Seligman & Co. offer at 95 and accrued interest $2,000,000 of Milwaukee (Wis.) Electric Company First Mortgage 25 year 4 per cent. gold bonds, due May 1, 1927. At the price offered these bonds net 4.35 per cent. upon the investment. The total issue is $10,000,000, of which $4,000,000 have been sold and $4,000,000 are retained in the treasury and can only be issued at par for 80 per cent. of the actual cost of extensions, additions and improvements to the property. The net earnings of the company for the year 1901 were $486,082, and the net earnings as shown during the first four months of the present year warrants the expert who has examined the property in the behalf of the bankers in estimating that the net earnings for the year will be $545,000, the interest on the bonds outstanding is $240,000 per annum, which would leave a surplus of $305,000. The company has the exclusive right to manufacture and sell gas in Milwaukee, and the validity of this franchise and franchise has been litigated and sustained by the highest court of the State. The company's prices for its products are comparatively low and in consequence it is popular with its patrons, the number of which is constantly increasing with the rapid growth of the population of Milwaukee.
