The local movements of [illegible] for the week ending June 26 are described by the New York News Bureau as follows: The feature of the monetary situation this week is an extremely heavy movement of money from the interior in favor of New York. The banks gained net from the country $4,712,100 in cash, and after deducting a loss to the Sub-Treasury of $1,994,000 they show an apparent net gain of $2,808,100. There should also be in to-morrow's bank statement a correction of last week's figures, which represented the banks less favorably in the matter of cash than the actual conditions. All indications point to a very favorable bank statement to-morrow, provided the large sums of cash received from the interior up to the close of business yesterday have been 'averaged' fully. Our weekly cash figures are actual records by the banks individually, and there is no guess work whatever in their compilation, so that if the individual bank figures do not agree with the bank statement, it is because the money received or shipped was handled too late to be averaged, or because of local cash changes. The receipts of cash were measurably close to the largest volume reported in any week for several months past, amounting to $5,917,000. The shipments were $1,264,900, a net gain on the movement of $4,712,100. Deducting a loss by the banks to the Sub-Treasury of $1,994,000, leaves an apparent net gain of $2,808,100. In the previous week the banks received direct by express $4,127,297, and they shipped $1,013,300, a gain that week of $3,111,997. The loss of the banks to the Sub-Treasury last week was $397,000. The net result of the out-of-town and Sub-Treasury operations last week was a gain by the banks of $2,714,997, but the bank statement last Saturday showed an increase in lawful money of only $876,900. Last week our statement indicating fairly considerable increases in loans was borne out by the averages. This week a number of the larger banks do not show any appreciable change in loans, but in two instances there have been increases of $1,000,000 in deposits. A feature of the money movement this week is the receipt of a considerable amount of gold, approximately $1,000,000 from California. This does not include any Klondike gold. As has been frequently pointed out the collections by the Sub-Treasury on its own account, which have so unfavorably affected the banks for a long time past, will no longer militate to any noteworthy extent against the resources of the local institutions on account of the reduction of war revenue taxes. The official Sub-Treasury report shows the following payments: $791,722 for new gold on New York Assay Office checks, $320,056 for Pacific Coast gold and $1,477,000 for pensions."

Bradstreet's reports the number of failures for the week ending to-night as 153, against 185 last week and 177 the corresponding week last year. R. G. Dun & Co. compute the liabilities of the concerns failing for the three weeks of June at $6,047,347, against $6,313,180 the corresponding period last year.

The receipts of the Government to-day were: Customs, $998,852; internal revenue, $959,379; and miscellaneous, $30,335, a total of $1,988,566. The disbursements were $700,000, or an excess of receipts over expenditures of $1,288,566. The receipts for the fiscal year to date have been $557,241,789, and disbursements $459,651,798, an excess of receipts over expenditures of $87,589,991.

The official count of the cash in the Treasury to-day, not including the gold reserve of $150,000,000 and $831,057,089 in gold, silver and notes against which certificates are outstanding, and compared with that of yesterday, shows:

Messrs. Brown Bros. & Co., Hallgarten & Co. and Vermilye & Co., have purchased about $14,000,000 of the new first consolidated mortgage fifty-year 4 per cent. gold bonds of the Atlantic Coast Line Railroad Company.

N. W. Harris & Co. offer to investors $850,000 first mortgage forty-year 5 per cent. gold bonds of the Equitable Gas and Electric Company of Utica, N. Y. This company controls the entire gas, electric lighting and power business in the city of Utica and vicinity, and furnishes power to the Utica and Mohawk Valley Railway Company, which operates over ninety-eight miles of road in Utica and adjacent cities.

In the statement to stockholders of the American Ice Company, advertised this morning by President John D. Schoonmaker, in reference to the deferring of further payments on the preferred stock for the present, a clerical error was made with regard to the bond issue authorized some time ago. The statement on this point should read as follows: "Since dividends on the preferred stock are cumulative, their payment is only deferred and the holders thereof will soon become convinced of the wisdom of the course now adopted. The early extinction (not extension as was first printed) of the floating debt will be greatly facilitated by the marketing of the bonds issued against and upon the security of the collaterals belonging to the company."

Wheat advanced under the stimulus of further rains in the Southwest, small Argentina shipments, unfavorable harvesting returns and covering of shorts, as well as more or less new buying and some support from prominent interests at the West, notably Armour, who was believed to be a heavy buyer of September. The outside markets were firmer and there was some outside buying. Further rains fell in Kansas, Nebraska, Missouri and Iowa. The Argentina shipments were only 64,000 bush against 856,000 last week and 968,000 last year. But later on the demand abated and on better crop reports, both foreign and domestic, fine weather in France and selling for both accounts, prices reacted. Paris was 15 centimes higher to 15 lower; the English markets were still closed. According to official reports the German crop shows a general improvement for the month ended June 15, and now says that winter wheat prospects are higher than a month ago with the yield larger than expected and well up to an average, that rain damage at harvest is not serious, that the stoning when conditions is less favorable. The *Modern Miller* says: "The threshing returns from the winter wheat harvest reveal that most of the disappointing yields are in the Southwest and South east, and the best returns are in Missouri, Illinois and Indiana. The weight of the soft winter wheat is less than last year, but the milling quality is excellent. A steady increase in the movement of wheat to market is looked for." The exports for the week, according to *Bradstreet's*, were 3,282,791 bush against 3,869,434 last week and 4,364,47 last year; since July 1, 246,668,584 against 212,624,150 in the same time last year. The rains in Texas, some think, may extend northward and further interfere with harvesting. Corn advanced, July touching the high price of the season at Chicago, owing to further rains, covering of shorts, buying by big interests at the West, smaller Argentina shipments and light offerings. Argentina shipped 1,192,000 bush against 2,240,000 last week and 2,804,000 last year. Later on realizing caused a reaction. The exports for the week were 128,102 bush against 110,879 last week and 3,245,860 last year, total thus far this season 26,323,177 against 173,879,684 in the same time last season. Oats were active and higher early in the day on rains in Iowa, predictions of further rain, light offerings and covering, but later on there was a reaction with corn. A late movement is expected.

FLOUR.—Quiet and steady. Sales, 9,000 bbls. Receipts were 7,670 bbls. and 19,000 sacks; exports, 2,828 bbls. and 2,500 sacks. Southern Texas got a drenching and the breaking of the drought in that section caused another decline in cotton, particularly as wire houses and Wall Street were selling freely of August, September and October. Liverpool was closed and the weather news was the dominant factor. Wharton, Tex., had a rainfall of 6.20 inches, Houston 2.36, Cuero 2.14, Corpus Christi 1.60, Galveston 1.24, Luling 1.18 and San Marcos, Beeville, Brenham and Huntsville precipitations ranging from one quarter to one inch, while there are also rains at other points in Texas, and the prediction was for showers in the eastern and northern sections of the State, with cooler weather. It is entirely a weather market.

COFFEE.—Rio on the spot was quiet at 5½c. for No. 7. Sales, 350 bags Maracaibo. Futures closed generally unchanged with the tone quiet and the sales 16,750 bags. Havre and Hamburg were unchanged. American warehouse deliveries, 8,918 bags. Rio was unchanged; receipts, 3,000 bags; stock, 562,000; exchange, 11½d., an advance of 3-32d. Santos was unchanged; receipts, 17,000 bags; stock, 888,000. Live Stock Market.

NEW YORK, Friday, June 27.

Receipts of beeves were 2,767 head, including 40 cars for export alive, 40 for slaughterers, and 21 for the market, making, with the state cattle, 33 cars on sale. Trade opened slow at steady prices, with light receipts sellers were enabled to clear the yards. Common to extra steers sold at $5.00@$5.20 per 100 lbs.; common oxen at $3.50; bulls at $3.00@$3.35; cows at $2.00@$3.00. City dressed native sides in moderate demand at 9@12c. per lb. Cables steady for beeves, sheep, and refrigerator beef. Exports to-day, 810 beeves, 1,015 sheep, and 2,700 quarters of beef; to-morrow 802 beeves and 6,400 quarters of beef.

Receipts of calves were 156 head, all for the market; making, with the state stock, 610 on sale. Trade was dull and prices lower all around. About 175 head were held over. Ordinary to choice veals sold at $5.00@$7.00 per 100 lbs.; buttermilks at $3.00. City dressed veals lower at 8@10½c. per lb., with extra carcasses selling at 11c.

Receipts of sheep and lambs were 2,420 head, including 4 cars for export alive, and 7 for the market, making, with the state stock, 13 cars on sale. Good sheep were strong on account of some export demand, under grades steady; with light offerings of lambs the market was tolerably active for all grades, and prime and choice were rated firm to a shade higher. The pens were well cleaned by 10 o'clock. Prime sheep sold at $3.90@$4.12½ per 100 lbs.; a few choice and export do. at $4.50@$5.00; culls at $2.25; common to prime lambs at $6.75@$7.00; culls at $6.00. Dressed mutton slow at 5½@6c. per lb.; dressed lambs steady at 9@11c.

Receipts of hogs were 1,281 head, including 100 head to be sold. Market easier at $7.35@$7.75 per 100 lbs. for the whole range.

JULY PAYMENTS BIGGEST YET.

$123,000,000 in Interest and Dividends Due Next Tuesday.

July interest and dividend payments will break all records. The total was estimated yesterday at more than $123,000,000. The dividends upon railroad stocks alone were figured at $22,253,000 and upon industrial shares at $26,781,000, while for these and all other companies the grand dividend total is $54,933,740. The railroad, industrial, traction and Government bond interest payments will be $68,744,613.

There is a decided decrease compared with July, 1901, in the total for industrial dividends, due largely to a change in the dividend dates of several copper companies, as well as to reductions in copper mining dividends.
