FINANCIAL AND COMMERCIAL.

MONDAY, July 7.

The feature of to-day's stock market was the attention accorded the high-priced stocks at advancing figures. None of them was exceptionally active; still, there were heavier transactions in Pennsylvania than for some time past, and comparatively large dealings in St. Paul, Louisville and Nashville and Rock Island. The last named, at a reaction of 1½ per cent. from the highest price, closed 4 points higher than last Thursday. Less active issues of the same class that scored material net gains were Chicago and Eastern Illinois common and St. Paul preferred. The upward movement in the stocks mentioned was supported by further advances in Missouri Pacific, Atchison common, Union Pacific and Illinois Central. There were also sharp advances in Des Moines and Fort Dodge, Hocking Valley, St. Louis Southwestern preferred and Wisconsin Central preferred. The anthracite coal stocks and the local traction issues were neglected. The same statement applies to the industrial group, in which the greatest activity was in United States Steel common and in Sugar Refining. The lack of interest in the industrials resulted as a rule in lower prices for them. The only noteworthy exceptions were Colorado Fuel and Tennessee Coal and Iron.

The ostensible reason for the moderate advance in the majority of the railway list were the excellent traffic returns that are constantly coming to hand and the satisfactory crop reports that are furnished by railway officials and coming from various other sources. The strike of the freight handlers at Chicago, which threatens to embarrass the operations of the railroads having terminals at that centre and the further advance in the prices of cereals, particularly corn, appeared to have little or no effect on the limited and largely professional speculation. So far as the advance in the price of corn is concerned, it is to be noted that it is based upon the remnant of last year's crop and not upon the prospects of this year's yield. Moreover, it is well known that the market for the cereal is in the hands of a powerful speculative clique that is playing a game against its opponents in the Chicago Board of Trade. For this reason the price of the July option for corn cannot be regarded as foreshadowing the prospects for the growing crop.

The Street is watching the monetary situation with great interest, but does not seem to be disturbed by the unusually early withdrawals of currency by the interior, by the unexpected absorption of money by the Sub-Treasury since the beginning of the new fiscal year or by the probability of exports of specie before the end of the week. Foreign exchange continues to rule at figures that warrant the transfer of gold to Europe, but so far as can be learned no steps have been taken to make such a transaction. Since last Thursday $350,000 has been transferred to New Orleans through the Sub-Treasury and $500,000 to Chicago. Besides, the banks have lost to the Sub-Treasury since last Thursday over $2,000,000. The heavy internal revenue collections are attributed to payments that were deferred until the repeal of the Internal Revenue Tax law became operative. After these payments have been made the collections from internal revenue will doubtless become normal. As against the present and prospective loss of cash from the banks there is certain to be an adequate offset in the gold that has begun to arrive at the Pacific Coast points from the Klondike, nearly all of which will promptly find its way to this centre. The call money market was easier than last week until shortly before the close, when the rate ran up to 6 per cent. This circumstance, however, did not prevent the stock market from closing strong.

The dealings in bonds were on a moderate scale, but the tone of the market was strong owing to the demand for investment issues, notably Atchison general 4s, C. B. & Quincy joint 4s, Consolidated Tobacco 4s, Missouri, Kans. & and Texas, St. Louis Division 4s, Pennsylvania convertible warrants, St. Louis Southwestern first 4s, Union Pacific convertible 4s and Wisconsin Central general 4s. In the outside market the more important dealings were in New England Gas and Coke receipts, at an advance to 60⅝. American Can issues, the market for which was weak, at a decline of a point in the preferred, International Banking, at 200, Manhattan Transit, Montreal and Boston Copper, Northern Securities, at an advance to 104, Standard Oil, at an advance of 13 points to 673, and United Copper, at 34¼@34½.

Government bonds steady at unchanged quotations. Railway and other bonds firmer. The feature was the application of money as joint bonds, Central of New Jersey general 5s, Chicago and Alton 3½s, Colorado and Southern 4s, Colorado Fuel and Iron cnv 5s, Consolidated Tobacco 4s, Detroit, Mackinaw and Marquette land grants, Distilling of America 4½s, Pennsylvania Railroad cnv 3½s 50 per cent. pd. Reading general 4s, Wisconsin Central general 4s. Atchison, Baltimore and Ohio, Central of Georgia, Erie, Kansas and Texas, Mexican Central, Norfolk and Western, St. Louis Southwestern, Southern Pacific and Union Pacific issues.

Commercial price of bar silver in New York, 52⅞c. Bar silver in London closed at 24¼d. Mexican silver dollars were quoted at 42¾c.

Money on call, 4@6 per cent. Time money is quoted at 4@4½ per cent. for four, five and six months and 4½@5 per cent. for four, five and six months on mixed securities, and 5 per cent. for four, five and six months on all industrials. Commercial paper is quoted at 4½@4¾ per cent. for prime and single names, bills receivable, other names, 5 per cent.

Sterling exchange was firmer here and easier at Paris. Through these movements the gold shipping point was reached early in the day, but there was no talk of exports before Thursday, when the regular French steamer is appointed to sail. The local market was strengthened during the forenoon through rather heavy selling of stocks by London. At the close, however, matters were quiet and there was a little easier tone, with a slight shading in rates from the highest point. This condition was due to the offering of bankers long bills drawn against European credits. As the margin of profit on gold shipments at the day's highest figure was very narrow, it becomes an interesting question whether the offerings of these bills will be sufficient between now and Thursday to prevent an outflow of gold. Furthermore, the afternoon rise in call money rates was also an interesting feature of the situation, a similar movement in the recent past having turned the scale when shipments seemed imminent. Francs were firmer on the decline in sterling at Paris. Posted rates were quoted at $4.86 for long and $4.88½ for short. Actual rates: Long bills, $4.85½@$4.85¾; sight drafts, $4.87.85@$4.87.95, and cable transfers, $4.87½@$4.88½. Francs were quoted at 5 francs 15¾c for long, and 5 francs 13¾c for short. Reichsmarks, 95@95 1-16 for long, and 95⅞@95 7-16 for short; guilders, 40@40 1-16 for long and 40 3-16@40⅜ for short.

Domestic exchange on New York: Boston 15c discount; Charleston, Buying, par; selling, 75c premium; Savannah, Buying, 25c discount; selling, 75c premium; San Francisco, Sight, 15c premium; telegraph, 17½c premium; St. Louis, Par; Chicago, 50c discount; Cincinnati, Between banks, 15c discount over counter, 50c premium; New Orleans, Commercial, 75c discount; bank, $1 premium.

New York Clearing House statement: Exchanges, $101,514,525; balance, $5,231,637. Sub-Treasury debit balance, $765,233.

The weekly statement of averages of the banks of this city, Brooklyn, Jersey City, Hoboken and Staten Island, which are not members of the New York Clearing House Association, but which clear through some of the members, is as follows:

Loans, $9,717
