**Keep Your Kodak Busy**

"The Army lives on letters" is the way the boys at the front put it. And when those longed-for envelopes with the home town post-mark contain pictures of the home folks and home doings, they go far toward making lighter hearts and happier faces.  
Keep your Kodak busy for the sake of the lads in the trenches, the boys in camp and on shipboard. Help keep tight the bonds between the home and those who are fighting for that home.

**Patriotism and Business**

Every good citizen at this time should do his share toward strengthening the Federal Reserve Banking System which our Government has created with its billion dollars of resources to stand back of its member banks and all their depositors.  
You can contribute directly to the strength of this system, and at the same time secure its protection by depositing your money with us, since part of every dollar you deposit with us goes directly into the new system, where it is always ready for you when wanted.  
This is a suggestion for prompt action.

**The Bell Telephone is for Uncle Sam First**

At the very beginning of the war, the service, the equipment and the men of the Bell Telephone System were placed, unreservedly, at the disposal of the government.  
Skilled telephone men, telephone switchboards, poles, wire and telephone instruments have been turned over to the government as needed at army headquarters, in military training camps and for signal corps service in the field.  
You can "do your bit" by asking only for telephone equipment you must have and making only such local or long distance calls as are absolutely necessary.
