I have a gold mining proposition, both quartz and placer. The placer mine pans out more than 50 cents in gold to the cubic yard of gravel. The celebrated Oroville, Cal., placer mines show only 17 cents, and pay enormous dividends. My quartz property shows a vein 40 feet in width. Gold visible to the unaided eye is found in the ore. $10,000 buys a half interest in these two properties, $5,000 of which will put both properties on a paying basis this season. Only 12 hours from New York city. Loss impossible. Big returns certain. C. A. PARSONS South Dudswell, Quebec, Canada.
