Mrs. Eshleman and daughter Mrs. Ware of Hershey visited in the city Wednesday.

Feed and Garden Seeds of all descriptions. North Platte Feed Co. Phone 206.

The Chamber of Commerce respectfully solicits the co-operation of the citizenship at large in a general clean up of yards and alleys during the week beginning April 4th. This is a community work in which the organization believes it should interest itself for the reason that cleanliness not only promotes the health of the people at large through the lessening of disease germs, but makes North Platte a more attractive looking city.

Many citizens have already completed the work of hauling off the rubbish from their premises in advance of the week designated and have thus set an example for others to follow. If your neighbor fails to take sufficient pride to clean up his yard and the alley abutting his premises, will you not kindly place yourself in the role of a missionary and ask him to get rid of the rubbish that mars the sightliness of his property.

If you wish your rubbish hauled and are not in touch with a drayman, phone 67 giving your name and address and a drayman will be sent to your premises with whom you can make arrangements.

The 100 per cent cards, indicating that your premises have passed inspection, will be delivered by the Boy Scouts.

To the end that North Platte may be a clean, healthful and beautiful city, the hearty co-operation of all in this clean up work is asked.

CHAMBER OF COMMERCE.

NOTICE OF BOOSTER MEETING

The Citizen's Caucus will have a booster meeting in the Baptist Church Sunday afternoon at 3 p. m. This meeting will be the final meeting before election day on the following Tuesday. All interested in the work of this caucus, which nominated Wm. E. Shuman for Mayor are requested to attend. There will be a short snappy program commencing promptly at 3 p. m. and ending at 4 p. m. The reason that this organization is forced to use the church buildings for these meetings is because the Court Room is too small and it is the only public room available.

O. L. JOHNSON, Chairman.

AFTER EASTER—WHAT?

The history of the Christian Church is still being written. The Cross had failed to defeta and the Tomb had failed to hold the Conquering King. The decisive battle between heaven and hell was fought, not in the wilderness with the wild beasts, but in the quiet tomb of Joseph of Arimathea.

The Resurrection of Jesus is the central fact of Christianity. The followers of Jesus wherever found are not marching in a funeral cortege, but behind a chariot. The Church is not a widow, but a bride. The program is plain before us. It is not so much "Back to Christ," as "Forward to Christ," for truly the world has never caught up to His high ideals and standards. If we really are to follow Jesus, we must be on the move.

But, after Easter—what? The first requisite is POWER. "But tarry ye in Jerusalem until ye are endued with power from on high." That Power having been received, it means an earnest effort to lay the world at the feet of our Crucified and Risen Christ. If we rightly use that power, then when the Bridegroom comes, we shall not be ashamed to go forth to meet Him.

The CHURCH OF THE OPEN DOOR will gladly welcome you to her services Sunday at either eleven or eight o'clock.

You might try attending the Church School at 9:45 o'clock. At this church you are always welcome.

The choir will sing. There is room for all.

First Evangelical Lutheran Church

"The Church of the Open Door"

Forty years of faithful service in North Platte.

Located on Fifth Street at Sycamore.

Rev. C. Franklin Koch, Pastor.

HEART CAN FEEL NO PAIN

But Vital Organ Sends Out Its Message of Warning When Physical Danger Threatens.

The heart has no nerves of sensation, Stanley M. Rinehart, M. D., writes in the Saturday Evening Post. If the surgeon could get to it without cutting through the sensory nerves on the surface of the body he could operate upon the heart itself without causing pain. And yet pain is sometimes a symptom of heart disease, but it is produced in a roundabout way.

If the heart cannot feel, how can there be pain in heart disease? Branches of the heart nerves go to certain subcenters in the spinal cord, and there they connect with the superficial nerves of sensation. Continued irritation of the heart nerves is thus communicated to the surface nerves and there is reflex or referred pain, not in the heart, but in the chest wall over which the sensory nerves are distributed.

True heart pain is always due to exhaustion of the heart muscle and may be recognized by the presence of other symptoms. It is made worse by the slightest exertion; by anything that increases the rapidity of the heart's contractions. And nearly always the respirations are labored and deep, expressing the desire of the sluggish blood stream for more air. But the pain is in the chest wall, never in the heart.

More significant than pain is a feeling of contraction, of tightness in the chest behind the breastbone, which may be experienced by those of middle age. It is especially noticeable after a full meal, after smoking or during exertion. This is another of nature's quiet warnings. It usually accompanies high blood pressure, with or without hardening of the arteries. The more often the sensation recurs and the more easily it is induced, the more attention it demands.

A RECORD OF PROGRESS!

The candidate of the Citizen's Caucus, has always worked for the public welfare. His most recent work was the fight against the gas rate increase. This began after the company had secured the signatures of several hundred gas consumers, requesting Council to grant an increase of rates. Thereupon he made an investigation of the matter, found that the gas and electric rates were already high enough and he began the fight against an increase in rates. This fight was carried on for several months and was only ended recently in the legislature. The local corporation, joined with other corporations, in making an application to the legislature to have the State Railway Commission given power to control these rates. This bill was killed largely because of the attack which he made upon it. Were it not for this fight, it is likely gas consumers in North Platte would now be paying an increase of 33 1-3 per cent over the present charges.

In 1919 he was Chairman of the Court House campaign. A prior election had been lost, but he carried the campaign through at a total expense of \$31.60 and North Platte will have a splendid new Court House before long.

Four years ago, the North Platte Cemetery was a disgrace, with weeds and a condition of chaos everywhere. He was largely influential in getting this property deeded to the city. Then he was appointed a member of the Cemetery Board and Chairman of the Committee on Grounds and his work, with that of other members of the Board, has been largely instrumental in bringing about the wonderful improvement that has been made in this cemetery.

Years ago the Bell Telephone Company Trust attempted to get a tighter grip upon the people of this city by way of larger grants of power, than they then had, and he led in the fight, defeating this move by the Telephone Company.

He was also one of the leaders in the fight, when the North Platte Gas and Electric Company, sought at a special election, the franchise which they now have. This fight was unsuccessful and the franchise was obtained by this company, but it was a franchise very favorable to the company and not to the people and the terms of this franchise are the reason why it has been impossible to get better street lighting in the city of North Platte, from this company.

These are some of the measures in which the Citizen's candidate, Wm. E. Shuman, has given his time and services unstintingly for the public welfare. In none of these matters has he ever received or asked a single penny of compensation. He has gone into all of these matters and rendered these services and intered into these fights, because he thought it was his duty as a citizen, to do so. Nor has this been the extent of the work he has done for public welfare, during the past 16 years. He has always been on the side of progress.

He has shown his constructive ability in the development of the east portion of the city, which he developed for a bankrupt estate and where now 120 homes stand where once the town herd ranged.

O. L. JOHNSON, Chairman of Citizen's Caucus.

IRRIGATED POTATOES COOK WELL

Irrigation does not impair the cooking qualities of potatoes to the extent commonly supposed, according to a test made by the College of Agriculture. Lots of different varieties grown in western Nebraska, irrigated and dryland, were baked, steamed, boiled and mashed and submitted to seven disinterested judges. Care was taken to make the preparation fair and uniform, and none of the judges knew the variety in any lot. The scoring was very close. Dryland Triumphs

and Pearls outscored irrigated potatoes of the same variety, while the irrigated Irish Cobbler defeated the dry land Irish Cobbler. Dry land Early Ohio were considered slightly superior to irrigated Pearls in all methods of cooking, while baked and boiled Early Ohios were favored over baked and boiled irrigated Triumphs. When mashed, however dryland Early Ohios found no place over irrigated Triumphs. Specialists say that irrigation need not be considered as a rule when buying potatoes for table purposes. It is true that occasionally unsatisfactory cooking results when potatoes are irrigated too late or too heavily.

AUTO SHOW.

Promptly at 1 p. m. Thursday, April 7th, the doors of the Auto Show will be thrown open to the public. All the Cars and decorations will be in place for the Great Event.
