YOUR CHILDREN'S EYES
 are of the greatest importance toward their future success. See that they are in fit condition to start the school term by allowing us to give them a careful test in our finely equipped examination room. The Dixon Optical Co. We grind our own lenses.
 County Agent Kellogg says: Potato growers, potato specialists, and Western County Agents of Nebraska made a tour of Scottsbluff, Sioux and Kimball Counties last week, where it was plainly shown that dry land certified seed was a great deal better than ordinary irrigated seed. Dry land seed from Kimball County seems to have a big advantage over most other certified seed. It pays to use dependable seed as well as "good purebred sires." It knocks out a lot of chances of losing at the farming game.

NOTICE TO HUNTERS.

Hunters and trespassers are warned that they will be dealt with according to law.

Where Health's at Stake—Take no Chances

The backbone is the foundation of the body, and until you know it is right—every joint in alignment with its neighbor—you are only a pitiful gambler taking a long chance, though your health and happiness are at stake.

There is not an organ of the body

but is dependent on spinal nerve impulses. Yet these spinal nerve impulses may be shut off at the nerve openings between joints of the spine to such a degree that you are greatly weakened in the natural power of your stomach, your liver or your kidneys. The only method of resigning spinal joints to free nerves under pressure is the chiropractic method.

Chiropractic spinal adjustments free spinal nerves by restoring normal nerve openings and by this simple process chiropractors everywhere are correcting diseases of the eyes, ears, nose, throat, lungs, heart, stomach, liver, kidneys, bowels and genital organs.

WHEN HEALTH BEGINS depends on when you telephone No. 70 for an appointment. Consultation is without charge.

Good-bye to the Rubber Sac!
 THE pen at the left is a rubber sac self-filler—the barrel is more than half full of rubber. It holds only 25 drops of ink.
 The pen at the right is the marvelous Dunn-Pen, the "Fountain Pen with the Little Red Pump-Handle." It holds seven times as much ink as the rubber sac pen of the same size—and you can pump it full in a jiffy.
 The marvelous **DUNN-PEN**
 The Fountain Pen with the Little Red Pump-Handle. The Dunn-Pen has no rubber sac. It doesn't leak, clog, or flood, and automatically cleans itself while you are filling it. Absolutely guaranteed.
