Knickerbocker Trust Co.
Report of Superintendent of Banks.
Published by Order of the Supreme Court.
SUPREME COURT, RICHMOND COUNTY.
THE PEOPLE OF THE STATE OF NEW YORK against KNICKERBOCKER TRUST COMPANY.

To the Supreme Court:

Pursuant to the order of the court herein, dated February 15th, 1908, I respectfully report:

I am now engaged in the consideration of the safety and practicability of the plan of resumption of the Knickerbocker Trust Company. It is obvious that in determining the adequacy of the plan of resumption an important element is the cash position. I have already proceeded sufficiently far in the consideration of the situation to state that the amount of cash now in the hands of the Receivers is insufficient to meet the possible demands of non-assenting depositors, and to satisfy other immediate requirements.

This condition can be improved by further assents on the part of depositors, since the greater the amount of assenting deposits the less the cash required.

I expect within the next week to be able to make a further report upon the matters submitted to me.

Respectfully submitted,
CLARK WILLIAMS,
Superintendent of Banks.
Dated February 20th, 1908.

DIVIDENDS AND INTEREST.

THE DELAWARE & HUDSON COMPANY.

New York, February 21, 1908.

A quarterly dividend of TWO AND ONE-QUARTER (2¼%) PER CENT. on the capital stock of this Company will be paid at the office of the Company, 32 Nassau Street, in this city, on and after Monday, March 16, 1908, to Stockholders of record at close of business to-day.

By order of the Board of Managers.
CHARLES A. WALKER, Treasurer.

REPUBLIC IRON & STEEL COMPANY.
DIVIDEND NO. 28.

At a meeting of the Board of Directors of the Republic Iron & Steel Company, held February 18th, 1908, the regular quarterly dividend of 1¾% on the Preferred stock, was declared, payable on April 1st, 1908, to stockholders of record on March 21st, 1908. Books remain open.

H. L. ROWND, Secy. & Treas.

Office of
Federal Mining & Smelting Company.
52 Broadway, New York, February 21, 1908.

A dividend of one and three-quarters (1¾) per cent. on the preferred stock of this Company has to-day been declared, payable March 16th to stockholders of record at the close of business on February 28th. F. J. KILNER, Secretary.

ELECTIONS AND MEETINGS.

HOME LIFE INSURANCE COMPANY, 256 Broadway, Borough of Manhattan, City of New York. Election of Directors of this Company, to fill the places of those whose term of office then expires, will be held at the office of the Company, on Wed., March 4th, 1908. The polls will be open at one o'clock and be closed at three o'clock of said day.
E. W. GLADWIN, Vice-Pres. and Sec.

FINANCIAL AND COMMERCIAL.

FRIDAY, Feb. 21.

Dealings in both stocks and bonds to-day were reduced by one-third from yesterday's total and the general security market was wholly of a kind that usually precedes a Stock Exchange holiday. On several occasions during the day the market was suddenly quickened into considerable relative activity, but at other times was utterly stagnant. The undertone of the market was, however, distinctly firm and most of the leading stocks continued to exhibit the advancing tendency that set in several days ago. Toward the close of business a receding movement, due apparently to profit taking, reduced the gains made earlier in the day, so that final net advances were not as large as were at one time shown. Nevertheless the market as a whole seemed to present renewed evidences that it was one in which liquidation for the time being was completed and in which a large short interest had been created. Important developments of interest were only two in number, the resumption of dividends on Brooklyn Union Gas stock and a decided recovery in the price of copper metal; and as these events caused a sharp rise in all the copper and gas stocks the sympathetic influence of the rise was naturally a factor in the day's general advance. The dividend of 2½ per cent. on Brooklyn Union Gas stock was declared merely as an isolated distribution and not in pursuance of any regular rate. The last dividend paid by the Brooklyn Union Company was in July, 1906, when a payment of 1 per cent. was ordered. To-day's action took Wall Street quite by surprise inasmuch as it was commonly supposed that the Consolidated Gas Company was in a much better position through its revenues derived from the electric lighting concerns to make distributions to its stockholders than was the Brooklyn company. The management of both companies is doubtless confident that the decisions of the courts thus far in nullifying the 80 cent gas law will be upheld by the courts of last resort; but on the face of things the Brooklyn Union company will profit less by this result than the Consolidated Gas Company, inasmuch as it did not, like the Consolidated company, enforce the payment from its customers at the old rate pending the litigation over the constitutionality of the law. It is very likely that to-day's dividend of the Brooklyn Union Gas Company will not be soon repeated. The upward rebound in the price of copper was due to the large buying of the commodity that was stimulated as soon as the price fell below 13 cents a pound. The consumers of copper the world over seem to realize that at this price there is little if any profit in the copper mining business to the great majority of the copper producing companies and that all the weight of probability is against any prolonged depression in the price of copper below the figure named.

The bank statement for the week, which made its appearance after the end of business hours to-day, bore witness to the financing operations arising out of subscriptions to the city of New York's recent bond issue. At least this was the explanation commonly given in banking circles of the increase of $8,700,000 in the bank loan account shown under the average system and of $20,700,000 in the figures for the same item of the actual condition of the banks this morning. Under the former system of reckoning the cash holdings of the banks increased $5,113,900, while on the latter basis of calculation cash holdings increased $7,504,400. The percentage of cash reserve to deposits was therefore in both instances slightly above the figures for last week. At the end of the week sentiment in the financial district was inclined to be favorably impressed on the one hand with cumulative proofs of reviving business throughout the country, even if this revival is as yet being conducted in a very tentative way, and to regard as the most unfavorable factor of the moment the signs of opposition raised by the labor union interests, backed apparently by the President of the United States, to the reduction that must, it seems, necessarily take place in railway pay schedules. Nothing like a concerted movement for the reduction of these pay schedules has yet been started by the railway companies, and indeed orders for such a curtailment are being delayed in the hope that as time goes on business may so improve as to avert the necessity for the action. Meanwhile the railways are making all the economies they can by cutting down the salaries of the higher operating officials, by laying off men where they can and by the practise of every form of saving except a reduction in the pay of day labor. But it is the judgment of those in closest touch with railway affairs that even if there is some picking up in business during the coming weeks a certain amount of cutting down of the compensation of labor is inevitable.

THE CURB MARKET.

A little improvement occurred to-day in the quotations for the great majority of curb securities and there was also an increase, although slight, in the volume of dealings. The principal gains were made in the copper shares, which reflected the better tone displayed in the market for the metal. Butte Coalition, Boston Copper, Greene Cananea displayed the largest advances.

The curb market last week was a small affair, the volume of business falling far below the recent average. There were few noteworthy developments. In the first half of the period prices were generally depressed under light sales, especially the copper shares, but after this a more cheerful sentiment came to prevail in response to the rise in values on the Stock Exchange. Advances, however, were only moderate and there was no notable increase in the trading. Transactions in detail in the market to-day were as follows:

Sales.		Open-ing.	High-est.	Low-est.	Clos-ing.
65	American Tobacco	245	245	245	245
