

ONE SIDE OF THE STRIKE QUESTION IS GIVEN BY RAILROAD MAN

C. R. Gray, president of the Union Pacific wrote a letter to E. E. Calvin, vice-president under date of July 16th in which he stated the position which is taken by the Union Pacific in regard to the striking shopmen. Copies of this letter have been made by mimeograph and a copy has been handed to the Tribune for publication. Since it is an authoritative statement of the stand taken by the railroad, it is printed herewith without comment.

Chairman Ben W. Hooper of the United States Railroad Labor Board July 1, 1922 issued the following statement:

"Regardless of any question or the right of the men to strike, the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. For this reason public sentiment and full government power will protect the men who remain in their positions and new men who may come in."

Subsequently, the Labor Board has declared that the rules and working conditions under which the mechanical forces were working before the strike are still in full force and effect. They cannot be changed except by an agreement between our employes and the Management of this system, or in event of failure to reach mutual agreement by our employes (not the former employes) and, or the Management exparte or jointly referring the disagreement to the United States Railroad Board for decision, therefore, since our former employes left our service of their own free will and accord, thereby ceasing to be employes of this System, the public, and those who remained loyal to our service and those who are entering our employ daily, may rest assured that the Management of this System will use every resource at its command to keep faith with them, and unqualifiedly pledges itself to make no settlement of the strike which will in any manner whatsoever deprive them of their rights or jobs which they have gained in accordance with our shopcrafts agreement and the declaration of the Labor Board.

The only way that any one of our former employes may enter our service is as a new employe and the opportunity to even thus enter the service is growing less day by day owing to the fact that our forces are rapidly increasing.

The public will keep in mind the fact that this strike is not against this railroad system, but that it is against the decision of an agency of our Government, therefore, the strike simply resolves itself into the question whether the orderly process of law and order shall prevail or the arbitrary action of a very small minority. To that question there can be but one answer, we are a law abiding people—the orderly process of Law shall prevail.

The Management of this System has religiously at all times kept faith with its employes both as to its spoken and written word and it always will.
