EDITORIAL

Christ said—"Take My yoke upon you, and learn of Me; for I am meek and lowly in heart, and ye shall find rest unto your souls"—Matthew 11:29.

Washington said—"We must educate our people to discriminate the spirit of liberty from that of license."

Yesterday we sent a telegram to Omaha and the same telegram to Denver. The distance is practically the same. The Omaha message cost 35c and the Denver message 74c. One costs twice as much as the other because it had to cross a state line. Does that fit in with any part of your reasoning process? It doesn't with us.

Hershey Welch, city water commissioner reports that during the week from August 17 to 24 inclusive the water works pumped 12,367,800 gallons of water. This is more than a million and a half gallons a day. North Platte people will remember that these were the hottest days, eight of them continuous. The average citizen has no conception of what a million and a half gallons of water would amount to.

We wonder if North Platte appreciate the fine water system we now have. At the last meeting additions were ordered which will place a number of families on the service and which covers all of the closely settled parts of the city with water service and fire protection. During the hottest weather of last week the pressure was good and the supply abundant. In Lincoln all kinds of restrictions were placed in force and at one time it was thought all lawn watering would have to be forbidden. Other places have suffered the same inconvenience. North Platte has had an abundance of water and good pressure. Do we appreciate it and are we willing to pay for it?

We all recognize that community effort is what counts in making a success of any enterprise. We are all inclined to be individualists and want to go it alone. If Derryberry & Forbes would go to almost any North Platte gardener and ask him to prepare an exhibit of his best garden products for display in the store window, the gardener would feel honored and do his best. The exhibit would be a credit to the individual gardener but strangers would not be especially interested because the exhibit would be so small and incomplete. Now if every gard-

NOTICE TO PROPERTY OWNERS.

Weeds within the city limits must be cut by September 1. If same are not cut by September 1, I shall proceed to cut them and charge to property owners.

By order of
John Jones,
Street Commissioner.

You Can't Look Pleasant

When you're on the broad of your back with nothing coming in, and the doctor and grocery bills to pay.

BUT

You can smile occasionally if you had the foresight to take out a health and accident policy when you were well and kicking.

Better get one today while you're up, for you can't get one when you're down.

Gold Strike at Washington, D. C.

Panning gold almost within the shadow of the capitol building at Washington, D. C., is now being done. The strike was made across the Potomac. The picture shows Senator William H. King of Utah, a gold expert, looking on while discoverers of the placer mine pan the gold for his inspection.

ner in Lincoln county would do as well as the single gardener did, we would have an exhibit which would compel the whole world to stop and pay attention. It would be simply wonderful. Why can't we each take the invitation of the men of the state fair committee as if it were a personal honor and make it a community effort for the credit of Lincoln county? Let's do it.

Miss Lena Gartner arrived Friday from Burchard, Nebraska. She attended the Pyle-Hinds wedding Sunday.

A party consisting of P. P. Maddox, J. B. McDonald, H. D. Weise and W. H. McDonald spent Sunday in Keystone.

Mrs. R. G. Wier and daughter Ella returned Sunday to their home in Sterling after visiting with friends in the city for a few days.

The funeral of the late William Sherman will be held Thursday afternoon from the Presbyterian church. The American Legion will be in charge. Burial will be made in the Fort McPherson cemetery. Mr. Sherman died Sunday morning at the home of his niece Mrs. Florence Widstrand, living five miles south of the city. He was 76 years old. He lived for a number of years at Birdwood.

"Some of these Chamber of Commerce secretaries who are advertising their communities would make good automobile salesmen", says J. V. Romigh. Continuing he said—"When you read one of these "Come, live in our city" tracts, is always stresses the pure water, the good schools, the fine churches, the good transportation facilities and a lot of other things than merely houses and lots. So what a city has to sell are the things that make it pleasant and profitable to live there. What's that got to do with selling and automobile? Well, when you sell a car, what you really sell are the advantages that ownership of that car will bring to the purchaser. Not the least of these advantages in the mind of the present day motor-wise prospect—in fact the basic advantages on which all others depend—are the dealer's readiness and desire to render good service at honest prices, his ability to supply any parts that may later be required and his constant friendly interest in the owner's satisfaction and welfare. At least, that's the basis on which we sell cars."

Miss Mabel Churchill spent Sunday in Sutherland with friends.

Steve McWilliams left Sunday for Denver to visit his brother Robert for several days.

Trees and Telephones

The limb of a tree hanging against a telephone wire may put the line out of order, and is certain to make it "noisy", especially in wet weather.

Your co-operation in the proper trimming of trees along our lines will be appreciated because it will be helpful to the telephone service of everyone. And when properly done by our trained men, it will help the trees also.

This company has experts who know how to trim trees in such a way as to keep the branches away from the telephone lines and yet improve the appearance of the trees and lengthen their life.
