L. D. Smith had his left wrist broken in a runaway Tuesday afternoon. He was bringing a load of calves to town and was driving along on the east side of Wm. Daniels' farm when one of the calves jumped over the front end gate, lighting on the doubletrees. This frightened the horses and they started to run. Mr. Smith hung to them for a little while but found he could not check them, and as they were approaching the turn in the road he jumped out. As there were high sideboards on the wagon he did not have much chance to jump, and his left wrist was doubled under him and broken. In making the turn in the road the wagon was turned upside down but the calves escaped without injury. The horses ran a little farther and the wagon ran against a telephone pole, which stopped them.

Next Tuesday evening, at Hoover's opera house, Prof. F. O. FRITZ, of Brownville, taxidermist and naturalist, will deliver his lecture on the animals, birds and reptiles he has killed and mounted. The lecture will be very interesting and instructive. Admission: Adults, 20 cents; children, 10 cents.
