TOPICS OF THE DAY.

Quick to Catch the Drift.

The western desperadoes are quick to catch the drift of prosperity. They are holding up cattle trains instead of express trains.

Should Stop the Leak.

A new Mont Pelee is building up near the old crater. While the volcano is in its infancy some way should be found to stop the leak.

Expensive Autograph Collection.

The most expensive autograph collection known to history has just been gathered by John Bull in the signatures appended to the document containing the peace terms agreed on with the Boers.

Senators are Considerate.

It is apparent that the present members of the senate are opposed to subjecting their successors to the terrible ordeal of standing for an election by popular vote.

Eminent Medical Testimony.

No need to worry over the potato trust. Potatoes are only distenders. They afford no nutriment; those who eat them and nothing else soon have no calves on their legs. That's what an "eminent medical authority" says.

The Height That Birds Fly.

Birds rarely fly higher than 3,000 feet, and few are seen above 1,200 feet. The aeronaut, Hergesaal, at Strassburg, however, saw an eagle at a height of 12,000 feet, and Humboldt once saw a condor floating over Mount Chimborazo at 22,000 feet elevation.

Where Some Pension Money Goes.

Not all of Uncle Sam's pension money is spent at home, for 427 pensioners live in Ireland, 328 in England, 102 in Scotland, 13 in Wales, 610 in Germany, 72 in France, 9 in Russia, 15 in Norway, 27 in Denmark, 7 in Spain, 6 in Portugal, 33 in Italy, 7 in Turkey and 13 in Africa.

Whipped Spain All Alone.

The old question of whether Great Britain helped the United States in the Spanish war was brought up again in parliament and Lord Cranborne on behalf of the foreign office replied that he could find no trace of any assurances, either verbal or written, regarding the conduct or policy of Great Britain toward that war. We shall have to conclude that we whipped Spain all alone.

A Menace to the Country.

Since 1820, and including 1901, over 22,500,000 aliens have come to our shores to live. Since 1850 the overwhelming majority have come from southern Europe. They are extremely illiterate and very poor, bringing with them on an average no more than \$9 apiece. They have no occupation, but become day laborers, and by settling in manufacturing and mining centers reduce wages and the standard of living.

Illumines a Naughty World.

If Diogenes were living he would have a hurry call to New Jersey, where a man has given up his entire fortune to secure the interests of poor depositors in an association with which he is connected, although not personally responsible for the error imperiling these interests. This good deed shines far in a naughty world in which the cornering of the people's food supply is just now the prominent exhibit.

Cuba's Financial Needs.

Cuba begins operations without any debt except its own revolutionary bonds, the payment of which is guaranteed by the new constitution. Bonds to the amount of \$3,145,600 were printed. The claim of the Cuban revolutionary army for payment is much larger and estimated as high as \$75,000,000. President Palma has expressed the opinion that Cuba should at once raise \$40,000,000 by loan for the uses of the government, which is no small burden to be carried by 1,500,000 people.

TEN PEOPLE PERISH.

Awful Result of a Fire in a Chicago Hospital.

Many Were Drink Victims and Some Were Strapped to Beds on Account of Their Ravings—About 30 Injured, Several Fatally.

Chicago, June 10.—Nine men and one woman were killed and about 30 persons were injured in a fire which yesterday afternoon destroyed the sanitarium conducted by the St. Luke's society at Wabash avenue and Twenty-first street. The society occupied the building which was long known as the Hotel Woodruff and for a brief period as the Hotel Lancaster. By far the greater portion of the patients received in the institution were those seeking cure from the drink habit and those who were addicted to the use of drugs. When the fire broke out there were on the fifth floor a number of patients suffering from delirium tremens and some who were deranged by drugs. Several of these were strapped to their beds and it was found it was impossible to save them, so rapidly did the fire spread through the building. The fire originated in the basement of the building and spread rapidly to the upper stories through the elevator shaft.

The fire department was on the scene within a few minutes and as the windows were filled with people shrieking for help the firemen devoted their first efforts to save the lives and allowed the fire to burn. While this was the means of saving a large number of people, who were carried down ladders by the firemen, it gave the fire such headway that there was almost no chance for those on the upper floors of the building to make their escape, and such of them as were not suffocated were killed or badly injured by leaping from the windows.

CARROLL D. WRIGHT'S QUEST.

The United States Commissioner of Labor Sees President Mitchell About the Miners' Strike.

New York, June 10.—President John Mitchell, of the United Mine Workers' union, arrived here late yesterday afternoon, having been sent for by Carroll D. Wright, United States commissioner of labor, who is here investigating the anthracite coal miners' strike.

Commissioner Wright said of the visit of President Mitchell: "President Mitchell has given me all the information I wanted and it will be presented to President Roosevelt. I can say that I am now in possession of the facts on the miners' side of the issue and to-morrow I will see the operators."

The Pope's Gift to Roosevelt.

Rome, June 10.—The pope was delighted with President Roosevelt's gift of a complete set of the latter's works, and the pontiff issued orders that mosaics of St. Peter and the vatican be transmitted to the president, with his thanks. These mosaics are magnificent specimens of this branch of art and are made at the vatican workshops.

Centennial Anniversary of West Point.

West Point, N. Y., June 10.—The centennial anniversary exercises of the establishment of the United States military academy began Monday and continued until Thursday, when the present first-class cadets, 54 members, will be graduated. Distinguished officers of the army are here.

Six Men Indicted for Conspiracy.

Guthrie, Ok., June 10.—Frank Wilson, John Simpson, John Harper, Edward Norris, Thomas Fogarty and William Vannoy, of Cleveland county, have been indicted for conspiracy, in that they employed Ku Klux methods to drive Helen Bonner, a negro woman, from her claim.

Ed Butler's Trial at Columbia.

St. Louis, June 10.—Columbia, in Boone county, was selected by Judge O'Neill Ryan as the place where Ed Butler should stand trial on the two charges of attempted bribery for which he was indicted by the February grand jury. The trial of Col. Butler will probably begin next week.

Great Service in Pretoria.

Pretoria, June 10.—A great religious service was held here Sunday concurrently with the thanksgiving services in London. Gen. Kitchener, 5,000 troops and 20,000 civilians were present. Ten bands led the singing. The archbishop of Cape Town preached the sermon.

Amnesty to Americans in Cuba.

Havana, June 10.—President Palma yesterday signed the bill granting amnesty to all Americans under sentence or awaiting trial in Cuba and proceedings have been begun by the courts to quash the complaints against such Americans and liberate those who are in jail.

STATE PRISON MUTINY.

With Weapons Smuggled to Them by Friends Two Oregon Convicts Killed—Three Guards and Escaped.

Salem, Ore., June 10.—Two desperate prisoners, Harry Tracy, sentenced to 20 years, and David Merrill, a 13 year man, both serving sentences for assault and robbery from Multnomah county, escaped from the penitentiary Monday after killing three guards, Frank Ferrell, shop guard; S. R. Jones and Ben Tiffany, fence-men. The prisoners had just marched into the foundry for work at seven a. m., when Tracy suddenly appeared with a rifle, shot Guard Ferrell, killing him almost instantly. Ingram, a life prisoner, attempted to take the rifle from Tracy, when Merrill shot Ingram through the leg, shattering it. Other prisoners were forced at the point of the pistol to take the ladder to the wall when the two armed men escaped. Getting outside they shot Guard Jones dead at a distance of 150 yards. Guard Tiffany, after being wounded, jumped off the fence and followed the men, shooting at them until they killed him. The prisoners then escaped into the woods. A posse of 40 men is out after the prisoners and has them located half way between Salem and the reform school. The prisoners are armed with two rifles and two revolvers. The arms are believed to have been thrown over the stockade Sunday night by friends among the excursionists who came from Portland.

FOR NICARAGUA ROUTE.

Senator Harris, of Kansas, Addressed the Senate Monday and Received Close Attention of His Colleagues.

Washington, June 10.—Mr. Harris (Kan.), a member of the committee on inter-oceanic canals, addressed the senate Monday in favor of the Nicaragua route. By profession, Mr. Harris is an engineer and was for a long time a chief engineer on the Union Pacific railway—Kansas division. His views upon the engineering problems presented in the pending proposition were listened to with great interest by his colleagues. One fact he said, was prominent and conspicuous. No exploration or survey made of a canal route had ever been placed on record adverse in opinion as to the feasibility and practicability of constructing a canal by the Nicaragua route. In answer to Mr. Hanna, he quoted M. De Lesseps, the famous French engineer, as saying to a committee of congress that if a canal with locks was to be constructed the Nicaragua route was the best.

MISS TAYLOR'S DISMISSAL.

Resolution of Inquiry Regarding Woman Who Wrote Articles Criticizing President Roosevelt.

Washington, June 10.—Representative Shallenberger (dem.) of Nebraska, a member of the house committee on civil service reform, introduced a resolution requesting the secretary of war to communicate to the house "the causes and reason for the dismissal of Rebecca J. Taylor from her position in the classified service of the war department." Miss Taylor is the clerk recently dismissed by the war department for writing letters to the press criticizing the president in connection with the administration of Philippine affairs.

Society to Prevent Consumption.

Kansas City, Mo., June 10.—The Missouri State Society for the Prevention of Consumption was formed at a meeting here last night. The object of the association is to formulate plans to check the spread of consumption and to educate people along these lines. Tracts will be distributed and meetings will be held with this end in view. State aid will be asked in building a free hospital for consumptives for the poor.

A National Bank Trust.

Chicago, June 10.—A letter dated New York, June 5, has been issued on the letter heads of the North American Trust company and signed by S. M. Scudder, 135 Broadway, New York, giving the details of the plans for combining banks in all state capitals and financial centers under one ownership, one bank in each center.

Floods in Allen County, Kan.

Iola, Kan., June 10.—Allen county was last night getting the full force of the floods that have been raging in the Neosho and Cottonwood rivers above here. The river here is the highest since 1865. Many acres of wheat and corn have been destroyed. Several families had to be rescued from their houses in boats.

To Be Absorbed by Other Roads.

Omaha, Neb., June 10.—It was semi-officially announced yesterday that the Union Pacific will formally take over the St. Joseph & Grand Island road July 1 and that at the same time the Kansas City & Omaha and the Quincy, Omaha & Kansas City roads will be absorbed by the Burlington

Ladies Can Wear Shoes

Do you roast people to their face, or behind their backs? The last trick is cowardly; the other foolish.—Acheson Globe.

Piso's Cure is the best medicine we ever used for all affections of the throat and lungs.—Wm. O. Endsley, Vanburen, Ind., Feb. 10, 1900.

INTERESTING LITTLE BITS.

Tobacco was grown last year at 25 different places in Ireland.

Seventy feet is the record rise for a tide in the Bristol channel.

For a quarter of a century no new houses have been built in the Sussex (England) village of Slindon.

There are 587 different languages spoken in Europe, but 90 per cent. speak the seven principal languages.

The crown swimming baths at Kennington are the largest in London. They are 160 feet long and 60 feet wide.

A monument to Prince Amedeo of Savoy, the late duke of Aosta and former king of Spain, has been erected in the Valentino park at Turin.

A transatlantic steamer, carrying what is called "a full mail," usually brings 200,000 letters and 300 sacks of newspapers for London, to say nothing of the 500 odd sacks for other places.

AFTER TWENTY YEARS.

Lusk Springs, Ind.—June 9th.—It would be hard to find a happier man than Mr. William Catterson, of this place, has been for the last few weeks. For twenty years his wife has been an invalid with a complication of diseases. Neuralgia, Rheumatism and generally broken down constitution.

Mr. Catterson had done everything that loving care could suggest but in vain—his wife only grew worse.

Recently, however, he heard of Dodd's Kidney Pills and determined to give them a trial and was overjoyed at the splendid result.

From the very beginning of the treatment she commenced to improve till now she is nearly well and Mr. Catterson is rejoicing. He says: "Nothing ever did her so much good. We will all warmly praise Dodd's Kidney Pills for the good work they have done for us."

Stops the Cough
and works off the cold. Laxative Bromo-Quinine Tablets. Price 25 cents.

"I see you pay your doctor's bills by check and send it by mail." "Sure. If I took him the money he might charge me for another visit."—Cincinnati Commercial Tribune.
