TOPICS OF THE DAY.

Spent \$5,000 to Earn \$20.

Joseph Downey, a Chicago contractor, has just returned from a tour around the world, which he made at a cost of \$5,000 to win a \$20 bet.

Might Try Football.

A single game of football takes 10 to 12 pounds in weight off every player. Fleshy women who are afraid of the various anti-fats might try football.

Overwork in Sight.

You will be requested to take note hereafter that stamps that have suffered any mutilation whatever will not be accepted for postage. This will make more work for the recording angel.

Cherished Idea Vindicated.

The conviction of a clergyman's son of manslaughter in Minneapolis, Kan., and the striking of a Chicago saloon by lightning have given a number of people a firmer grip on cherished ideas.

Interest on \$80,000,000.

An \$80,000,000 company, headed by James J. Hill, has bought the principal coal properties of Illinois. The interest on \$80,000,000 is a safeguard against the price of coal becoming disgracefully low.

No Joke.

It costs good, sound money to play a practical joke on a Chicago maiden. A man who jokingly asked a woman to marry him was held up for \$2,500 in a breach of promise suit. An offer of marriage is no joke.

Mayor Weighs 403 Pounds.

Charles T. Taylor, mayor-elect of Mankota, Minn., is the heaviest chief executive of any city in the United States. He weighs 403 pounds, but is as nimble as a kitten and one of the fastest pedestrians in the city.

Unfavorable Comparison.

Eight per cent. of the population of this country is still illiterate. In Germany only one per cent. of illiterates exists, and in Bavaria, Baden, Wurtemberg and Scandinavia there are no totally uneducated people.

Can We Stand It?

A Northwestern university professor predicts that "A Hot Time in the Old Town" will become our national air, and still no precautionary action is taken. Some people think that with our strength and prosperity we can stand anything.

Influence of Environment.

Already the demoralizing influence of the United States senate has shown itself in the case of Senator Clark, of Arkansas, who, after a week or two in the national deliberative body, went home to Little Rock and whipped a congressman.

Not Unmixed With Fear.

Chicago boasts of a woman who is president of no fewer than seven clubs. Before her duties as president became so exacting she managed to dispose of three husbands. The capabilities of the modern woman is a continual source of wonder, not unmixed with fear.

Growth of 11 Years.

It seems like only one day before yesterday since John Wanamaker was postmaster general, and yet during the last year of his administration the post office receipts were but \$56,000,000, while last year they amounted to \$140,000,000. You have to take a sight on things once in awhile to see how fast this country is really growing.

Great Demand for Steel.

While the American steel industry has been growing steadily, British steel manufacturers have also been increasing their products. Few people are in position to perceive the extent of the demand for structural steel in all parts of the world. The area of steel consumption has been expanding so rapidly that our facilities for supplying it have not kept pace. It is no wonder that the biggest fortunes of the world have been made out of steel and allied industries.

The Ruler of Turkey.

Abdul Hamid II. is 60 years old and has between 300 and 400 wives. He is a victim of neurasthenia, chronic insomnia and self-preservation monomania. He sleeps for three or four hours in 24 in a chamber surrounded on all sides by corridors patrolled by sentinels. He eats little, but drinks enormous quantities of coffee. He is said to spend \$500,000 a year on subsidies for European papers; after the Armenian massacres he distributed \$1,000,000 to those which defended him.

GUEST OF NEBRASKA.

The President Spent Memorable Day in the Prairie State.

Wind Blew Dust and Sand, Making the Trip Unpleasant—Laid a Cornerstone at Grand Island—Talked Forestry to Citizens of Hastings.

Lincoln, Neb., April 28.—The arrival of President Roosevelt's special train in Lincoln was announced by a chorus of all the factory whistles in town. At this signal all stores in town were closed and remained locked up until after the departure of the president and his party. The weather was fine. The military escort formed a pageant that has not been equaled in Lincoln since the recruiting of troops for the Spanish-American war. In addition to the survivors of the civil war that found representation in the parade were the First regiment Nebraska national guard, with regimental band and the cadet battalions from the University of Nebraska and the Nebraska Wesleyan university with the bands of the two organizations. All schools and colleges in the city had dismissed for the day and those of the students who did not participate in the parade were assembled at the statehouse to join the student bodies gathered there to listen to the president.

President Roosevelt made an early start from Grand Island on what promises to be a busy week. He broke the ground for the new Carnegie library and then delivered a short address in front of the high school at 9:15.

At Hastings the president spoke of the forestry situation in Nebraska, saying that as the people of the state were protecting the original scanty forest they now had a more and better natural forest than ever before. But the work should not stop, he said; the people should continue the planting of trees. The federal bureau of forestry, he said, is co-operating directly with tree-planters in different parts of the state. At the conclusion of his speech the president was taken for a short drive, in the course of which he made an address to the school children from his carriage.

At Omaha 10,000 Heard Him Speak.

Omaha, Neb., April 28.—Ten thousand people were gathered at the Coliseum to hear President Roosevelt. The day had been a trying one for the entire party, the wind blowing the entire day, and at Lincoln a smart rainstorm greeted the president on his arrival. The dust and sand which blew across the prairies added another unpleasant feature to the journey, which was of a circuitous route.

FATAL KANSAS WRECK.

Eleven Foreigners Killed and Twenty-Five Injured, Some Perhaps Fatally, Near Buffalo.

Buffalo, Kan., April 28.—A north-bound Missouri Pacific stock train crashed into the rear end of a work train just north of this town. Eleven men were killed and 25 injured. Ten of the latter are dangerously and four probably fatally injured. All were Greeks or Italians excepting one, Peter Fry, an American, who has lived here several years and was a boss on the work train.

Bulletin on Railroad Accidents.

Washington, April 28.—The interstate commerce commission yesterday issued a bulletin on railroad accidents for the three months ended December 31, 1902. It shows that during that period in train accidents 266 persons were killed and 2,788 injured. Accidents of other kinds, including those sustained by employes while at work and by passengers in getting on and off cars, etc., bring the total number of casualties up to 938 killed and 11,873 injured.

Business Block Burned at Centralia.

Centralia, Mo., April 28.—An entire block of business houses burned here last night, and the loss will exceed \$100,000 it is estimated. The losers are: J. W. Hulen, hardware; J. G. Wiseman & Son, dry goods; Bank of Centralia; T. O. Robinson, dry goods; H. Brown, groceries; C. W. Lyons, Sames & Roberts, groceries; W. W. Boatman, hardware, and Miss Annie Sherry, millinery.

She Slept 57 Days.

Salt Lake City, April 28.—Bessie Knecht woke from her sleep of 57 days yesterday. Part of her treatment has been a cold bath every morning. Yesterday, when about to be immersed, she broke away from her nurse and ran unassisted to her cot. When she went to sleep she weighed 125 pounds. Now she weighs only 76.

Presbyteries Favor Revision.

Philadelphia, April 28.—Rev. Dr. W. H. Roberts, stated clerk of the Presbyterian general assembly, announced that two-thirds of the presbyteries have voted in favor of revising the confession of faith. The subject will be finally disposed of by the general assembly which meets in Los Angeles next month.

GOOD ROADS CONVENTION.

It Was Called to Order Yesterday at St. Louis—The Topics of the Speakers.

St. Louis, April 28.—The National and International Convention of the Good Roads' association was called to order at ten o'clock in Odeon hall by Chairman L. D. Kingsland.

After the opening session had been called to order the presiding officer, Hon. W. H. Moore, was introduced and made a short address. President Moore introduced Mayor Wells, who accorded a hearty welcome to the association and the visiting delegates. Gov. Dockery followed with an address on "The State's Duty," in which he outlined what the state should do in co-operating in the work of improvement. "The Exposition" was a subject fully treated upon by President D. R. Francis, of the Louisiana Purchase exposition. Hon. Martin Dodge, director of the office of public roads inquiries in the agriculture department, spoke on the subject, "What the Government is Doing for Highway Improvement."

Female Students Expelled.

Liberty, Mo., April 28.—A clandestine drive by moonlight and a midnight lunch with liquid trimmings taken last week by six young men from William Jewell college and six young women from Liberty Ladies' college has just bore fruit in the suspension of the male and expulsion of the female participants from their respective schools.

Col. Andrew Smith Dead.

Syracuse, N. Y., April 28.—News has been received here of the death of Col. Andrew J. Smith at Cochran, Col. He was at one time a federal officeholder in Montana and served as governor of the soldiers' home at Leavenworth, Kan., and Los Angeles, Cal. For the past four years he had been inspector of the homes.

Her Charred Body Found in the Woods.

Joplin, Mo., April 28.—Mystery enshrouds the death of Mrs. Myrtle Tolbot, a young woman of Galena, whose charred body was found in the woods six miles west of this city early Sunday morning. Two men, Robert Jones and Rube Long, said to know more about the affair than anyone else, are missing.

Call the Pope "Anti-Christ."

London, April 28.—The Protestant alliance has telegraphed to the secretary who will be in attendance on King Edward at Rome, expressing its "intense regret that our Protestant king intends to visit the pope, who is described in the homilies of our established church as anti-Christ."

Three Denominations to Merge.

Washington, April 28.—At a meeting to be held here May 27, a merger of the Congregational, Methodist Protestant and United Brethren churches will be effected in accordance with a plan which was formulated at a joint committee meeting in Pittsburg, Pa., last week.

Harvester Hands Strike.

Chicago, April 28.—Two thousand union and non-union metal workers went on strike in the plant of the Deering Harvester company yesterday for the reinstatement of 100 men discharged for belonging to the union and recognition of the United Metal Workers' union.

Philippine Landing for the Cable.

Washington, April 28.—Secretary Root has granted permission to the Pacific Commercial Cable company to land its line on the military reserve near Fort San Antonio Abad, Philippines, and to erect a cable station there.

Incendiary Fire in Helena.

Helena, Mont., April 28.—Fire last night almost totally destroyed the Montana club building entailing a loss of \$100,000, with insurance of \$75,000. It is supposed to have been of incendiary origin.

Forty-Two Murderers in One Jail.

Muskogee, I. T., April 28.—Forty-two murderers are now confined in the Muskogee federal jail awaiting trial. Some of them are desperate men and others are held for most atrocious crimes.

Impeachment of Legislators Demanded.

Sedalia, Mo., April 28.—The Democrat editorially calls upon Gov. Dockery to convene the legislature in extra session in order that all members indicted for boodling may be impeached.

Can't Hold Two Offices.

Washington, April 28.—Rural free delivery mail carriers cannot hold their positions under the government and at the same time hold office under the authority of the states.

Gen. Wood En Route to Egypt.

Venice, April 28.—Brig. Gen. Leonard Wood, Maj. Scott and Lieut. McCoy left here Monday by rail for Constantinople, whence they will sail for Egypt.

Vasquez Seeks Refuge in Cuba.

Havana, April 28.—Gen. Vasquez, former president of the republic of Santo Domingo, landed at Guantanamo, Cuba, Monday, from a Dominican gunboat.

DOCTOR OR MILKMAN?

An Illustrative Instance of the Perversity of Some Simple-Minded Patients.

One of the hardest blows to the professional pride of physicians and surgeons is the excess of wisdom on all such subjects possessed by the world at large, says the New York Times. A surgeon tells of a case where he recently set a broken arm. The operation was successful and the splints had been removed. The surgeon advised his patient to leave off the bandages and manipulate the injured member at intervals.

Just as the doctor was leaving the house the milkman arrived on his rounds, and missing the splints, said to the patient: "You'll take cold in that arm. You ought to keep it bandaged."

A few days later the surgeon called again and found that the patient, who had followed the milkman's warning, complained of soreness in the arm, and said: "Doctor, I think you've botched it." The doctor, observing the bandages still on the arm, remarked: "And whose advice are you taking now, mine or the milkman's?"

After Four Months in Bed.

Powersville, Ky., April 27th.—Mrs. J. J. Monson, who has been ill for over eight years, says:

"Yes, it is truly wonderful. I am 36 years of age and for the last eight years I have suffered with acute kidney trouble. I tried all the doctors within reach and many other medicines, but got no relief till I used that new remedy, Dodd's Kidney Pills."

"I was confined to my bed for four months this winter and had such a pain in my side I couldn't get a good breath. I had smothering spells, was light-headed and had given up all hope, for I didn't think I could live long."

"After I had taken a few of Dodd's Kidney Pills I began to improve and I kept on till now, as you can see, I am well."

"I have been up and down doing my own work for some time now and haven't felt pain or weakness since. I praise the Lord for my wonderful restoration to health and will always recommend Dodd's Kidney Pills."

WESTERN CANADA

GRAIN GROWING. MIXED FARMING.
THE REASON WHY more wheat is grown in Western Canada in a few short months, is because vegetation grows in proportion to the sunlight. The more northerly the latitude in which grain will come to perfection, the better it is. Therefore 62 pounds per bushel is as fair a standard as 60 pounds in the East.
Area under crop in Western Canada, 1902, 1,987,830 Acres.

Preferred the Hogs.

They tell a good one on a prominent real estate man of Waurika. Some time ago he carried a prospector over on Beaver Creek to show him a certain claim. He told the man that it was an exceptionally fine claim; that the land did not overflow, and that he would sell it to him for \$4,000. The man looked around and discovered some red mud way up in a tree and asked the real estate man what caused that mud in the tree tops if the land did not overflow. The agent promptly replied that there was a kind of hog raised over in the Chickasaw country which used to range on the creek and that they rubbed the mud on the trees. The prospector took a look over the land, glanced up in the tree again, and told the Waurika man that he wouldn't take the claim, but that he would give him \$4,000 for a couple of those hogs.—Kansas City Journal.

Why He Called Her Peggy.

"I thought your wife's name was Elizabeth?"
"So it is."
"Then why do you call her Peggy?"
"Short for Pegasus."
"What has that to do with it?"
"Why, Pegasus is feminine for Pegasus."
"Well?"
"Well, Pegasus is an immortal steed."
"What of that?"
"She! Not so loud. She's in the next room. You see, an immortal steed is an everlasting nag, and there you are."—Indianapolis Journal.
