The county commissioners have a force of men at work building a new road from Aspinwall to Shubert. It is rumored that as soon as the road is opened for traffic that Dr. Gandy, of Humboldt, will finance a project for the establishing of a new cable ferry at Aspinwall to run to the Missouri shore. The cable is already in position having been maintained for years to hold the ferriage privileges. The doctor has a lot of land on the Missouri side of the river, opposite Aspinwall, and it is said that the new ferry will be put in so that they can haul their grain to the McCandless switch, which will be nearer than Langdon and will give a much better outlet, especially in time of high water.—Auburn Republican.
