NEW FREIGHT TARIFFS.

State Railroads Advance Carload Rates and Rates on Low Grade Commodities.

ALBANY, July 17. This week's bulletin of rate changes issued by the Public Service Commission, Second district, shows the filing of an unusually large number of tariffs, most of which make advances in freight rates to take effect August 10 to 15. An advance in carload rates of one cent a hundred pounds is generally made on grain and grain products between points in this State by the roads in the New York Central and Erie systems, also by the Lehigh Valley, Lackawanna, Buffalo, Rochester and Pittsburg and many others. Rates on numerous low grade commodities are advanced in amounts ranging from a quarter of a cent to two cents a hundred pounds and class rates are being revised to a higher basis. The taking effect of some of these rates, as well as rates published to take effect August 1, may be suspended on account of the relation which they bear to rates applying to interstate commerce and published to take effect at the same time, which rates have been indefinitely suspended by the Interstate Commerce Commission pending investigation.

The Public Service Commission is not empowered as is the Interstate commission to suspend the taking effect of rate advances pending an investigation as to their reasonableness.

QUEENS BOROUGH HALL.

Plan to Have One Erected Privately Subject to Purchase by the City.

Business men in Long Island City are agitating for the erection of a $1,000,000 borough hall for Queens there. At a meeting of the Long Island City Business Men's Association last week James J. Conway said that those in close touch with municipal affairs had been informed that the city officials had decided to make no extra appropriations for the present for anything outside of rapid transit.

At present the public departments of Queens are scattered all over the borough and some time ago a steel and concrete building costing several hundred thousand dollars was built by private capital and rented by the city for the housing of the financial and tax departments of the borough. The same men who put up this building now propose to put $1,000,000 in a building to be used as a borough hall should the city authorities approve. An arrangement is proposed whereby the city may buy the building at any time.
