CRICKET.

Metropolitan Players Defeat Philadelphians at Staten Island.

Metropolitan cricketers once again demonstrated what they were capable of in the opening match on the grounds of the Staten Island Cricket and Tennis Club at Livingston, Staten Island, yesterday, and the players of the Philadelphia Cricket Club found they had bitten off a little too much in undertaking to cope with a picked team of the New York and New Jersey Cricket Association. The visitors suffered a seven defeat by the margin of 34 runs and three wickets. Philadelphia was first at bat and put together 101 runs, not a formidable total for intercity cricket. In this the combined association eleven responded with 187 runs for the loss of seven wickets. Capt. Sydney Deane, one of the best batsmen in the association, being not out and batting strong.

It was by no means a one man victory, nevertheless. Chief honors belong to M. H. Colin of the Staten Island Cricket and Tennis Club. The latter bowled exceedingly well, dismissing seven of the visiting batsmen at a cost of 45 runs. When it came to his turn to bat Colin contributed a fine score of 45 and in partnership with F. H. I. Wrenthal, the cliffmaker, helped put on 107 runs for the fifth wicket. Strenthal gave a splendid exhibition of cricket while at the crease, playing the dangerous Philadelphia bowling with rare confidence and making 70, top score of the match. Dr. C. C. Helling, 28, S. Deane, 25 not out, and D. C. Humble, 14 not out, helped swell the New York score. M. H. was expected of A. G. Laurie, but he was bowled on his second ball. Dr. Helling, with two wickets for 19 runs, and F. P. Kelly, with one for 16, did a fair share of the bowling for New York.

For Philadelphia Capt. J. A. McDonough made top score of 26 in dashing style and took three wickets for 40 runs. Pacey captured four for 64. J. H. Mason, 21, S. F. Bailey, 16, and E. O. Sheridan, 14 not out, reached double figures.

Brooklyn won the 1910 championship of the Metropolitan league by defeating Kings County at Prospect Park by the big margin of 126 runs. The victory was clean cut, fortune favoring the winning side which followed up the advantage of winning the toss by making the most of their opportunities in the field. Kings County hardly lived up to their reputation as a fine fielding team and failed to hold several catches given them by their opponents.

T. I. Power and A. Lovell made a splendid start for the Brooklyns, putting on 75 runs before a separation was effected. Lovell profited by being missed on four occasions and was retired for 21. Three wickets then fell for an addition of 12 runs, Power being one of them. He had played sterling cricket throughout and fell but one short of the fifty mark. H. Macpherson, who filled the vacancy, was equal to the occasion and ran up 44 in capital style. Double figures were added by H. Power with 14 and S. B. Standfast with 11 not out, and the total realized was 177.

H. Meyer, 13, and P. S. Marks, 12, were the only men to make any headway against the bowling of J. Power and C. A. Worm, and the entire side was out for 49. Power had the exceptional analysis of 6 wickets for 25, while Worm captured 4 for 15.

The Brooklyns also captured the championship of the second section in the league series by defeating Kings County by the overwhelming score of 224 to 68. W. B. King hit hard for 68 runs and seven other players got into the double figure column on the winning side. F. K. Walter, D. A. Maturin and A. F. Terrill scored in the twenties, while I. Wiles, C. F. White, T. E. Walter and F. H. Tinley ran up figures in excess of ten. Kings County made but a poor showing against the Brooklyn bowling.

A close game resulted at Prospect Park in the fixture between the West Indians and the Spartans, the former winning by 26 runs. A. Walcott, on the winning side, played a patient and meritorious innings for 42 and received capital support from R. Cook, who was not out for 33. S. Alleyne ran up 18 with the bat and in addition captured seven wickets for 42 runs. The totals were: West Indians, 146; Spartans, 121.

The Colonials succumbed to the Orients at Prospect Park by a margin of 34 runs, with totals of 122 to 88. The game was noteworthy for a fine innings on the part of M. Redman, who ran up 56 for the winners before losing his wicket.

The West Indians B team had no difficulty in beating the Colonial B team at Prospect Park by 20 runs with five wickets to spare. W. Beckles was top scorer for the winners with 32. The totals: Colonials B, 74; West Indians B, 94 for five wickets.

Prospect Park beat the Spartan B team at the Parade Ground by a total of 103 to 69. J. Edwards, with 31, did the best batting, while J. Gillettes, with six for 20, and J. Parks, with four for 37, had good bowling figures.

Richmond County defeated Bensonhurst in an association game at Ulmer Park by the big margin of 102 runs. In the first innings the distinguishing feature of the match was the fine trundling of J. H. Briggs, who captured 5 wickets for 21 runs during the first innings and did even better on the second innings with 7 wickets for 26 runs. H. L. Ross was top scorer on the winning side with 38, while F. O. Challenger played capital cricket for 31 not out. The totals: Richmond County, 159; Bensonhurst, 57 and 58 for 7 wickets.

National Driver Scores at Indianapolis—Hearne Takes Free for All.

INDIANAPOLIS, Ind., Sept. 5.—The 50 mile open and the 200 mile race for cars of 450 cubic inches piston displacement were the big events at the Indianapolis Motor Speedway this afternoon. Though there had been a drenching rain soon after the noon hour the track was in good condition when the first race was called at 1:30. Thousands of persons watched eight of the fastest high power cars get away in the 50 mile event, with Hearne, Benz, leading after passing De Palma, Fiat, at the end of the first lap. Hearne held the lead to the end, though he owed his easy triumph to the fact that both Harroun and De Palma were compelled to stop in the eleventh lap to change tires.

The only record broken during the day was in the 200 mile race, when Harroun completed his seventh-fifth mile in 1:03:31.9. Aiken, in a National, had held the previous record of 1:09:34.6. There were twelve starters, the prizes being $1,000, $500 and $300.

Aiken took the lead in the first lap, but fell back to third place at the end of fifty miles, when he stopped to change tires. He recovered second place at sixty miles, and at the end of ninety miles was well in the lead with Harroun second. Aiken lost ground only when having to stop because of fire or engine trouble and it was evident, at the end of the 150th mile that he would win the race unless some unusual trouble occurred. Harroun in a Marmon and Greiner in a National were struggling for second place.

The New Edison Storage Battery

THE New Edison Storage Battery should more properly be called the *improved* Edison Storage Battery, for it is a perfect development from the first or experimental type of Edison Battery, more than 30,000 of which have been in successful operation on over 400 commercial and other vehicles during the past six years.

The vehicles used on these "day outing" trips are those already regularly equipped with the Edison Storage Battery—the Bailey Electric and the Detroit Electric. Neither Mr. Edison nor the Edison Storage Battery Company has any interest in either of these vehicles, further than the firm establishment of Mr. Edison's contention that the family type of electric vehicle—Edison Storage Battery equipped—is the car of the present and the future—the car that is absolutely safe, the simplest to handle and by all odds the most economical to operate.

CURRENT SPORTING GOSSIP

IMPORTANCE OF LANGFORD-JEANNETTE BATTLE TO-NIGHT.

Both Want to Fight Johnson and Some Real Action Is Looked For With Charley White Referee—Boston Is the Scene of Action at Fifteen Rounds.

Sam Langford, who has been talking about fighting Jack Johnson for a side bet of $20,000, will be subjected to a real test if is believed when he meets Joe Jeannette in a fifteen round bout in Boston to-night. The fact that Charley White will referee evidently means there will be no stalling and a hard fight will result. Both pugilists say they want to meet Jack Johnson and they promise to settle the question as to which has the better right to issue a formal challenge.

Jeannette a superbly built colored man, has fought Johnson and Langford each six times. He has never been knocked out and has improved to a marked degree within the last eighteen months. His first encounter with Johnson was in Philadelphia on May 9, 1905, when he held his own in a six round contest. The following November he met Johnson again and won on a foul in two rounds. A month later Jeannette and the present heavyweight champion boxed another six round draw in Quakertown, but on March 14, 1906, Johnson got a decision in fifteen rounds at Baltimore. In September of that year they again boxed six rounds with no decision in Philly, while in November of the same year they fought a ten round draw at Portland, Me. Langford met Johnson once, on April 26, 1908, and lost on scientific points in fifteen rounds at Chelsea, Mass., just three weeks after he had earned a decision over Jeannette in a bout of similar length in Boston. But Langford weighed under 145 pounds in those two battles, nearly twenty-five pounds less than he will scale to-night.

Jeannette's most notable success was scored in Paris, France, on April 17, 1909, when he stopped the big Californian negro Sam McVey in fifty rounds. McVey had won a questionable decision in twenty rounds a month before, but in the second encounter, which went to a finish, Jeannette displayed greater pluck and stamina. According to pugilistic "dope," therefore, Langford and Jeannette appear to be pretty evenly matched and the outcome of tonight's affair may have a direct bearing on the world's championship, for the winner will be in a position to demand a fight with Johnson.

In some of the bouts they've engaged in Langford and Jeannette have been accused of stalling. When they boxed six rounds in this city on September 1, 1908, Langford seemed to have Jeannette at his mercy for three rounds, after which keen eyed observers at the ringside said he pulled up rather than score a decisive victory. Langford has employed such tactics so many times with other opponents that it will be rather interesting to see how he behaves to-night with such a scrupulous ring judge as White officiating. White has never intentionally permitted a fake to be carried out under his supervision, so that ring followers believe that if there is the slightest indication of a mutual understanding between these rival blacks he will interfere and declare the bout no contest.

Langford recently backed out of a six round bout with Kaufman in Philadelphia, for which he was roundly scored in some quarters, but sporting men say he has a chance to redeem himself by fighting Jeannette on the level from the first clang of the gong. On the surface there seems to be much bitter rivalry between the men, and yesterday, on the eve of his departure for the Hub, Jeannette notified his friends that it would be a sure thing to back him. Langford is shorter and lighter than Jeannette, but it is believed he knows more about ring science and is the more powerful hitter. A number of red hot New York sports will be at the ringside.

Local fight fans will be entertained at the Fairmont and Olympic clubs to-night, when two important bantamweight contests, each of ten rounds, will be staged. The attraction at the Fairmont A. C. will be provided by Joe Coster and Young Wagner, while Frankie Burns and Young O'Leary will come together at the Olympic. The winners of these bouts will probably be matched, with the idea of securing a suitable antagonist for Johnny Coulon of Chicago.

The claim of Harry Lewis to the welterweight championship is not regarded seriously since his poor showing with Harry Mansfield the other night. As a matter of fact Lewis has never fought and beaten anybody for this title. If he did his best with Mansfield the only conclusion to be drawn is that he has gone back to an alarming degree.
