FINANCIAL AND COMMERCIAL.

FRIDAY, September 16.

In the morning session on the Stock Exchange to-day the reactionary movement which had attained considerable headway before the close of the market yesterday continued until most of the active stocks were down about a point below yesterday's closing prices. The market then hardened and in the afternoon advanced on light trading until at the close the early losses had been recovered and most of the active stocks showed fractional gains on the day. In the less active stocks the close was irregular, with gains of a point in Virginia-Carolina Chemical, 2 points in Delaware and Hudson and fractional gains in many others and losses of 3 points in Republic Iron and Steel preferred, 2 points in Rock Island preferred, 1½ points in Chicago Northwestern and 1¾ points in Central Leather. Among the active stocks the Interborough-Metropolitan shares disregarded the general trend of the market throughout the session, advancing on comparatively heavy trading from the beginning to the close. The common stock gained 1⅛ points and the preferred 3 points on the day, and the collateral trust bonds also advanced in active trading. There was no news development affecting these issues, the movement being a continuation of the previously brisk upward swing following the publication of the Interborough Rapid Transit Company's annual report. The bond market was steady with a fair volume of activity. In grain business was resumed after a day's recess. Wheat advanced an average of a cent a bushel in accordance with despatches confirming previous reports of crop damage in Europe. The corn options sold off ⅝ to ¾ cents, weather continuing generally favorable.

Neither the foreign exchange market nor the local money market was particularly affected by the refusal of New York bankers to deviate from their position in the controversy over cotton bills of lading. Sterling exchange was a trifle weaker and the only development of consequence in money abroad was a decrease from 5 to 4 per cent. in the minimum rate of discount of the Bank of the Netherlands. It is probable, however, that the bank statement to-day will show an expansion in loans related to some extent to arrangements for financing the cotton crop, but the present arrangement in regard to cotton bills continues until October 1 and the hope is entertained as strongly as ever that the English bankers will reconsider their demand for a guarantee of cotton bills by local bankers. In the course of the week the banks have lost more than $6,000,000 on operations with the Sub-Treasury and the expectation is that the bank statement to-morrow will show a moderate decrease in cash holdings and in surplus reserve. Opinions regarding the reactionary tendency of the steel trade were modified by an interview with Judge Gary in which he represented conditions as better than had previously been generally believed. Otherwise the trade reports presented the tendency of general business as still reactionary. It was the opinion of the weekly trade reviews that trade and industrial reports are rather more irregular and that domestic commerce is still retarded by political uncertainties.

THE CURB MARKET.

No transactions of any particular importance occurred in yesterday's session on the curb. The market had no definite trend, showing only small price fluctuations and those irregular. The mining list was notably less dull than the industrial. Nipissing did fairly well, selling up to 11⅞. Miami sold at 18⅛ and 18⅜, 800 shares changing hands. Ray Consolidated, Giroux and Kerr Lake were somewhat weak. Chino sold off to 16¼, in a narrow market. Industrials were very quiet, but steady. Chicago Subway sold at 4⅛ and 4⅞ on very light trading. Intercontinental Rubber sold down to 28⅞, but recovered finally to its closing price of 29⅞, on total sales of only 900 shares. Ten shares of Standard Oil sold at 600. There were no sales of American Tobacco. Sales of Western Pacific 5s at 94⅞ and 95 were the only transactions in bonds.

Transactions in detail in the market yesterday were as follows:

THE CHICAGO MARKET.

CHICAGO, Sept. 16. Outside of a few odd lot transactions there was little to the local securities market to-day. Prices as a rule closed at about the opening figures. There was a better demand for the bonds shown, but only fractional price changes were noted on moderate sales. The summary:

Sales		Open ing.	High est.	Low est.	Clos ing.
200	American Can	8	8	7⅞	7⅞
