LONDON PRICES SHOW SOME IRREGULARITY

Market Generally Up at the Opening, but Moderate Selling Followed.

AMERICANS WERE FIRM

Bank of England Buys Gold in France—Liverpool Grain Firm Goes Under.

Special Cable Despatches to THE SUN.

LONDON, June 4.—The market to-day was irregular. Prices were generally up at the opening, but there was unrest, followed by moderate selling. There was general improvement later. Consols, ex interest, closed lower at 76⅞ for cash and 77 1-16 for account. Rio Tintos led in an advance of all the copper shares and were firm throughout. They closed at 80⅝, an advance of a point over Monday. Home rails were active and slightly up. General acceptance of the ending of the transport workers' strike figures here.

American securities were firm and changed little. The New York opening stimulated the market here and prices advanced slightly, after easing off in the opening trading. Canadian Pacific advanced a point to 266, New York equivalent, where it was at parity. It was quoted ⅛ above parity during the trading. Amalgamated closed at 83⅞, ⅝ above parity; Chicago Great Western at 17⅜, ⅜ above parity; United States Steel at 68¼, ⅛ above New York's yesterday closing; Union Pacific at 168, ⅝ above parity. Business in the American group was quiet.

The Bank of England bought £257,000 in gold over the counter, £8,000 in gold from France. Call money was steady at 2½ per cent. Money was in good supply. Discount rates were firm.

The Algoma Steel Company $1,130,000 6 per cent. bonds will shortly be offered at 93.

Another failure was recorded to-day. A Liverpool grain concern of long standing reputation went under through defalcations. The failure of the small jobber yesterday followed thus to-day has not added to the stability of feeling after the arduous speculation times and the difficult settlement.

PARIS, June 4.—Business to-day was fair and there was some demand for stocks. French rentes closed at 94 and Rio Tintos at 20-35.

BERLIN, June 4.—The securities markets to-day were rather quiet and without much feature. German 3s closed at 80-60.

MONEY IN NEW YORK.

Greater Activity in the Time Money Market.

Time money was offered with considerable freedom yesterday; there was an improved demand for this class of accommodation and an increased business was done. Loans were made at slightly lower rates for the short maturities, namely, at 3 per cent. for sixty and ninety days and at 3¼ per cent. for four months. Five months loans were done at 3½ per cent. Call money renewed at 2½ per cent. Monday's figure, but thereafter fell to 2 per cent. The local banks have been losing to the Sub-Treasury this week, but not to any notable extent. The Sub-Treasury has transferred $200,000 to Washington for the account of the banks. The sterling exchange market again developed weakness, influenced by the easier tone that has developed in the last few days in the foreign money markets.

Money on call on the floor of the Stock Exchange yesterday loaned at 2½ and 3 per cent. and closed at 2½ per cent. Most of the day's loans were made at 2½ per cent., which was also the average rate on Monday. Time money was slightly more active. Rates were 3 per cent. for sixty and ninety days, 3¼ per cent. for four months, 3½ per cent. for five months, 3¾ per cent. for six months and 4 per cent. for over the year. Commercial paper was quoted at 4 to 4½ per cent. for prime single names and indorsed bills receivable, other names, 5 per cent.

The sterling exchange market continued to display an easy tendency and rates left off 10 points lower at 4.8425@4.8450 for sixty days, 4.8800@4.8805 for demand and 4.8725@4.8730 for cables. Francs were quoted at 5.18 less 1-64@5.18 plus 1-64, reichsmarks 94 less 1-32@95, etc.

Domestic exchange on New York: Boston—5c. premium. Chicago—10@20c. premium. Charleston—Buying, par; selling, 125c. premium. Cincinnati—10c. premium. St. Louis—50c. premium. New Orleans—Commercial, par; banks, 25c. premium. Minneapolis—50c. premium. Montreal—Par. St. Paul—30c. premium. San Francisco—20c. premium.

Money in London, 2¼@2½ per cent.; short bills, 2½ per cent.; three months, 2 13-16 per cent. Consols closed at 76⅞ for money and 77 1-16 for account ex interest. Paris cables quoted closing price of rentes as 94 francs. Exchange on London, 25 francs 24 centimes. Private rate of discount, 2¾ per cent. Berlin exchange on London, 20 marks 43 pfgs. Private rate of discount, 4⅛ per cent.

New York Clearing House statement: Exchanges $465,519,077, balances, $27,598,927; Sub-Treasury debit balance, $1,425,553.

Commercial price of bar silver in New York, 58c. Silver in London, 28 1-16d. Mexican silver dollars were quoted at 48c.

STEEL CORPORATION EARNINGS

Will Be Increased by Heavy Ore Shipments on Subsidiary Line.

Ore shipments on the Bessemer and Lake Erie Railroad Company, a subsidiary of the United States Steel Corporation, broke all records during May with 1,115,000 tons carried to the Pittsburg district. The former record was 1,053,000 tons. This will mean that earnings of the Steel Corporation will be increased by larger returns from transportation this quarter and next.

There has been a slight increase this week in production in several of the mills and plants of Steel Corporation subsidiaries, and the North Works of the Carnegie Steel Company at Sharon has started on double turn. This is because of the great demands for billets and tin bar. There is a possibility that the average of nearly 96 per cent. of full capacity now being operated by the corporation as a whole may be reduced somewhat before the end of the month, as some of the plants will have to be stopped for repairs before long, as the terrific strain of the large production that has been continued for three months has begun to tell in places. There are signs that one or two of the mills and plants will have to stop for several weeks for extensive repairs, while others will have to let up for a day or two to allow for changes.

The stock of surplus pig iron on hand has fallen to 1,520,000 tons, showing a reduction in several districts. As production in the South is now slightly in excess of the demand, with many new furnaces in course of construction, the surplus stocks will be increased during the next few months.

Coke prices have held firm in spite of the dullness of the market, partly due to the high coke prices. The period of dullness in the market is expected to end in the fall with a revival of buying and higher prices ranging from $1 to $2 a ton.

GOSSIP OF WALL STREET.

As the time approaches for the publication of the May report of the Copper Producers Association estimates as to the showing that will be made are being altered to allow for the effect of the labor troubles in refinery plants in the recent past. The strike at the Baltimore refinery of the American Smelting and Refining Company has been broken and the plant is now working at three-quarters capacity. Accumulated exports of copper to the amount of 5,000,000 pounds have all been shipped, so that the effect of these troubles in Baltimore upon the May copper report will be an extraordinary enlargement of shipments to Europe and a curtailed production.

The Old Dominion Copper Mining and Smelting Company of New Jersey yesterday announced a quarterly dividend of $1.25 a share, an increase of 25 cents a share over the previous disbursement. Increased dividend disbursements upon the stocks of copper companies have been more common since the beginning of the year than in the case of any other class of securities.

Yet another anthracite road, the Delaware and Hudson, has reported earnings for April. The figures, just as did those of all the other coal roads for that month, exhibit the results of a natural and entirely expected reaction from the abnormally large revenues of March. Gross earnings were $1,136,000, a decrease of $618,637, and net $36,538, a decrease of $505,527. The statements of five of the principal anthracite roads have now been issued, namely the Philadelphia and Reading, Lehigh Valley, Central of New Jersey, Erie and Delaware and Hudson. The total loss in gross sustained by these roads for the month was $4,220,616 and in net $4,058,007. As regards gross earnings at least, roughly speaking, this loss very nearly approximates the amount of the gain in the preceding month.

The June circular of the National City Bank of Chicago takes a highly optimistic view of the general financial and business situation. Summarized the circular runs as follows: "Presidential strife disturbs business seriously only in States where feeling is peculiarly bitter. People are feeling better. Foreign trade is highly satisfactory. General bank position is stronger than usual at this season and the outlook is more reassuring than a year ago when two great industries were dissolving. Investors accumulated a large surplus during the last few months and more bond buying is expected next month than six or twelve months ago. Much financing remains and heavy flotations are likely during the next few weeks. Extraordinary industrial activity should follow satisfactory crops. Wage earners are becoming more satisfied and strike peril is disappearing. Comparatively few are unemployed. Excess of saving deposits over withdrawals shows living cost problem better understood. Money trust agitation is opportune and banks have nothing to conceal regarding themselves, but their caution regarding customers' affairs is perfectly reasonable."

If the St. Paul's April earnings were a disappointment to the stockholders there was a measure of comfort to be derived from the better showing made by the Puget Sound division. The St. Paul itself exhibited a fair increase in gross of $282,479, but this was changed into a decrease in net of $478,339 by a heavy increase in operating costs. This tendency of operating expenses to advance was also marked in the earnings of the preceding month, when an increase in gross of $62,051 was turned into a decrease of $308,948. The Puget Sound extension reported an increase in gross of $283,669 and a decrease in net of $221,653. In March gross decreased $37,842 and net $187,807.

American Tobacco at yesterday's new high record of 293 is 51⅞ points above the low point of the year of 241½ reached soon after the stock was admitted to dealings on the Stock Exchange.

R. G. Dun & Co.'s statistics of bank clearings for the whole country during the month of May corroborate reports of a general and well distributed business improvement. Total clearings were 4.7 per cent. greater than in 1911 and 7.2 per cent. greater than in 1910.

One of the prominent banking houses of the Street advances the opinion that the present comparative dulness of the security market is to be laid at the door of politics and that the new system of primary elections has served to aggravate the already depressing effect of the Presidential year upon business and financial operations. The monthly letter of this firm contains the following: "It is certainly most unfortunate that this country, which is first of all a business country, should be upset every four years by political upheavals which invariably affect the free course of trade. With primary elections—which settle nothing—six months and more in advance of the final election, and with the skirmishing which precedes these primaries, the spectre of unrest throws its shadow anywhere from nine to twelve months ahead of the actual settlement of the issue. In other words, it has now come to a point where we are free from electioneering activities for only three years out of the four, or expressed in per cent. we are operating year in and year out on an average of only 75 per cent. of efficiency."

President Brown of the New York Central has a reputation in Wall Street as having something more than the layman's knowledge of agricultural matters, and therefore perhaps a little more than perfunctory attention was given to his remarks upon his return from a trip through the West. He said in part: "My observations were confined largely to Iowa, and agricultural conditions there are about as good as they could be. Winter wheat is the best I have ever seen in that part of the country, standing on an average of twenty-four to thirty inches, and is all headed out in fine shape. They have plenty of moisture to make all the small grain and hay crop. Corn is nearly all up, is of good stand and color, and other grain is in splendid shape. In a general way business conditions are good and the outlook is promising."

SUB-TREASURY STATEMENT.

MONDAY.

Paid by Sub-Treasury to banks	$3,046,000
Paid by banks to Sub-Treasury	3,852,000
Loss to banks on day's transactions	$806,000

SINCE FRIDAY LAST.

Paid by Sub-Treasury to banks	$7,812,000
Paid by banks to Sub-Treasury	10,463,000
Loss to banks	$2,651,000
Loss to banks same period previous week	$4,801,000

Live Stock Markets.

TUESDAY, June 4.

Receipts of beeves were 1,013 head, including 53 cars for slaughterers and 4 for the market, and including the stale cattle there were 5 cars on sale. Nothing doing in live cattle to-day, but feeling steady on reported light arrivals to-morrow. Dressed beef in fair demand at 11½@13½c. per lb. for native sides. No later cables from the cattle markets of Great Britain. No exports of cattle or sheep from this port to-day.

Receipts of calves were 124 head, all for the market, making with the stale stock 178 head on sale. The offerings were limited and prices steady. Fair to choice veals sold at $9@$10.50 per 100 lbs.; culls at $8. Dressed calves steady at 13@16½c. per lb. for city dressed veals, and 11@14c. for country dressed.

Receipts of sheep and lambs were 4,612 head, including 4 cars for slaughterers and 14½ for the market, making with the stale stock 18 cars on sale. Sheep and lambs were about steady. Yearlings weak and dull except for prime handy weights. About a car was held over. Common to good ewes sold at $3@$4.75 per 100 lbs.; culls at $2@$2.50. Southern lambs at $9.25@$10; a few common yearlings at $8.50. Dressed mutton easy at 8@11c. per lb. dressed lambs in fair demand at 17@19c., dressed yearlings weak at 12@16c.

Receipts of hogs were 2,725 head, including half a car for the market. Prices about steady and light to heavy hogs quoted at $7.75@$8 per 100 lbs.

THE CURB MARKET.

A further rise of 10 points in United Cigar Stores stock upon heavy buying was the overshadowing feature of the trading on the curb yesterday. The closing price of the shares was at 240, only a point below the highest. Apart from this the market was devoid of interesting developments. The copper list continued in good demand and British Columbia recorded a substantial advance upon relatively heavy trading. The cobalt stocks were also inclined to greater firmness, but dealings here too were limited. In bonds the Western Pacific 5s developed rather particular strength, selling up to 84⅛. Transactions in detail in the market yesterday were as follows:

THE PHILADELPHIA MARKET.

PHILADELPHIA, June 4.—There was a quiet market for local securities to-day. Trading was chiefly in odd lots with prices showing little if any change. Tonopah Mining, Tonopah Belmont, Lehigh Valley Transit Company, Philadelphia Company and General Asphalt were among the most active shares. The bond department was less active with prices practically unchanged. The summary:

Cash balance	128,078,126

Buffalo Gas Merger Approved.

ALBANY, June 4.—The up-State Public Service Commission has approved the merger of natural gas companies in and about Buffalo. The new corporation is known as the Iroquois Natural Gas Company. It is authorized to increase its capital stock from $100,000 to $10,000,000. It has promised not to increase rates.

The Wall Street edition of THE EVENING SUN contains all the financial news and the stock and bond quotations to the close of the market. The closing quotations, including the "bid and asked" prices, with additional news matter, are contained also in the night and final editions of THE EVENING SUN.—Adv.

THE BOSTON MARKET.

BOSTON, June 4.—The copper shares market opened strong under the influence of the further advance of 11 shillings in the metal in London and in the early trading substantial gains were recorded in all the leading issues. Calumet and Hecla subsidiaries showed the largest gains, Tamarack being up 3, Osceola, Superior and Allouez 1½, while Copper Range was 1⅞ up and Mohawk and Old Dominion 2 higher. Butte and Superior, Old Dominion and United States Smelters were heavily traded in, and the first named advanced to 42. The close was strong. Rails and industrials were firm. The summary:

Sales.		Opening.	Highest.	Lowest.	Closing.
95	Adventure	8½	8½	8½	8½
35	Ahmeek	337	345	337	340

THE CHICAGO MARKET.

CHICAGO, June 4.—Sears-Roebuck still shows an advancing trend despite the erratic fluctuations. Higher prices are predicted from good sources. Union Carbide reflected considerable strength and the stock is in position where it could be advanced without much effort. The balance of the list was rather dull, with prices for most part ru
