BUREAU FIGURES FAIL TO DEPRESS COTTON

Market Rallies in Face of Official June Condition Report of 78.9.

INDICATIONS FOR YIELD

Compilation Based on 7.4 Per Cent Less Acreage Points to 12,816,000.

Judging from the manner in which the cotton trade received the condition report of the bureau of statistics yesterday it is determined to take nothing for granted this season in the way of a bumper crop until a big production is practically assured. The bureau placed the condition at 78.9, which compares with 87.8 last year and a ten year average of 81.5. The figures therefore show a condition slightly below normal, but the crop is improving so rapidly just now that the figures which were compiled as a result of replies sent in May 25 probably give a lower condition than exists on this date. At any rate they were far above the expectations of two or three weeks ago, when the trade generally was imbued with the idea that only the most favorable conditions could avert a famine yield. As late as May 20 the average opinion of the local trade at least centred around a condition from 70 to 73. The various private reports issued in the last week or so, however, have paved the way for the expectation of higher figures.

The market, however, had been subjected to more or less liquidation and evening up recently and showed a sold out if not an oversold condition. The report therefore did not cause any pressure, and when bull support was given prices ran up about a dozen points and the close was at a net gain of 8 or 9 points.

Among the factors contributing to steadiness was a circular issued by Theodore H. Price early in the morning before the Washington figures were made public. Mr. Price's circular was based on an average of various private reports hitherto issued, making a reduction of 7.4 per cent in acreage and figuring out a hypothetical crop on the basis of the Government figures. A supplementary analysis by Mr. Price placed the hypothetical yield at 12,816,000 bales on a condition of 78.9, provided conditions hereafter are identical with those of last season from this date.

Mr. Price said: "I desire to make it plain that these figures are theoretical. Their fundamental weakness is in the assumption that conditions and development from now on are identical with those of last year, but whether this will be the case or not no one knows, and if identical conditions obtain there is doubt if a late crop, handicapped by a wet spring, is likely to develop relatively as well as one more favored at its start. The possibility seems to be against it. Nature is rarely lavish two years in succession."

The weekly weather report, also issued at noon, made the most favorable showing of the season, with precipitation widely distributed over the belt and all sections fairly well supplied with moisture except portions of the Southwest.

Futures closed very steady, with prices 7 to 9 points higher. Estimated sales, 250,000 bales. Prices as follows:

	Open-ing.	High-est.	Low-est.	Clos-ing.	Prev. Close.
July	11.02	11.12	10.96	11.09	11.00
October	11.31	11.40	11.24	11.38	11.29
December	11.30	11.38	11.25	11.35	11.28

Futures in New Orleans were as follows:

	Open-ing.	High-est.	Low-est.	Clos-ing.	Prev. Close.
July	11.68	11.79	11.65	11.76	11.63
October	11.32	11.41	11.25	11.38	11.28
December	11.36	11.42	11.27	11.40	11.30

Spot cotton here was 5 points higher, at 11.45 for middling uplands. New York certificated stock, 118,542 bales, against 95,713 last year. Southern spot markets unchanged. Galveston, 11 1-16. New Orleans, 11⅞. Savannah, 11 1-8. Houston, 11 7-16. Memphis, 12. Augusta, 12.

Receipts and stocks at leading points, with comparisons, as follows:

	Receipts. 1911.	Receipts. 1910.	Stocks.	1911.
Galveston	2,555	1,876	95,414	25,457
New Orleans	537	965	44,927	26,355
Savannah	808	998	45,449	15,494
Houston	424	317	4,993	10,135
Memphis	349	351	26,951	48,354
Augusta	7	5	38,625	9,738

Port receipts, 4,050 bales, against 2,276 last year. Exports, 3,854, total for the season, 10,098,223, against 7,231,971 last year.

	Estimated Receipts. To-day.	Last Week.	Last Year.
New Orleans	1,100	1,300	2,175	718

Liverpool spot cotton was in moderate demand, 2 points higher, at 6.36d. for American middling on sales of 7,000 bales. Futures opened about 3 points up and closed about 2 points higher. Prices as follows:

	Open-ing.	High-est.	Low-est.	Clos-ing.	Prev. Close.
July-Aug.	6.16½	6.18	6.16	6.17	6.15
Oct.-Nov.	6.13	6.13	6.10	6.12	6.10
Jan.-Feb.	6.12	6.12	6.08	6.10	6.09

Eleven A. M. bids to Liverpool: July, 11.01. October, 11.18. December, 11.27.

Leading buyers: Riordan, Cone, Goodbody, Mitchell, Hentz. Leading sellers: Hutton, Parrott, Hartgrove, Gwathmey.

COTTON NOTES.

Jackson, Miss., wired: "Watch out for too much rain central and eastern belts. Already farmers locally complaining. A week of this kind of weather would create serious conditions."

Little Rock, Ark., wired: "C. O. Carpenter of the agricultural department of the Iron Mountain Railroad estimates the Arkansas acreage 10 per cent. short of last year. He says, however, that the stand is much better than at this time last year and farmers expect a much larger yield an acre.

A Mississippi spot firm makes a report on fertilizer tags sold and exchanged to date as follows: 1912, 109,200 tons. 1911, 147,262 tons. 1910, 132,776 tons. 1909, 138,884 tons. 1908, 143,190 tons. 1907, 138,669 tons. This is about 25 per cent. less than last year.

THE GRAIN MARKETS.

Prices Firmer—Bullish Wheat Crop Reports—Shorts Cover.

Calamitous reports from Kansas and Nebraska still dominated wheat. It advanced. According to well known crop experts the situation in those two important States is going from bad to worse. In western Kansas the crop is declared to be a practical failure. In addition to the gloomy reports from the crop experts there were many reports of a very bullish character from other sources in circulation. It was stated by some that the plant over wide stretches of territory was dead. In other instances the crop was said to be going back very fast. Such talk did not fall upon deaf ears. It found believers. It caused buying by commission houses and ring traders. It also caused covering. Minneapolis reported an increased cash demand from millers. The stock there in three days has decreased 360,000 bushels. The receipts were smaller. The primary movement of 219,000 bushels was 106,000 bushels smaller than on the same day last week and 255,000 bushels less than a year ago. Paris advanced ⅛ to 1c.

On the rise rather heavy realizing occurred and part of the improvement was lost. The action of most of the foreign markets was disappointing in view of the strength on this side of the water yesterday. Liverpool closed unchanged to ¼d. higher, while Budapest rose only ⅛c. and Berlin declined ⅛ to 1⅛c. Buenos Ayres opened unchanged. Broomhall's weekly summary of the foreign crop situation was in the main favorable. Crop reports from the American and the Canadian Northwest continue bearish. Some favorable crop news was received from parts of the Southwest.

Corn advanced on the firmness of wheat, an increased cash demand at higher prices and reports from some sections that much replanting was necessary. Commission houses bought and shorts covered. The primary receipts were 825,000 bush., against 370,000 last week and 1,158,000 last year. Liverpool declined ⅛ to 1⅛d. Buenos Ayres opened ¼ to ½c. lower.

Oats advanced owing to the rise in corn, a better cash demand, an advance in cash prices, buying by elevator interests and covering of shorts. The primary receipts were 369,000 bush., against 296,000 last week and 888,000 last year. Buenos Ayres was nominal.

Wheat on the spot was firmer. Closing prices f. o. b. afloat for export, rail basis: No. 2 red, to arrive, $1.22½. No. 1 Northern spring, $1.27½. No. 2 hard winter, $1.22. No. 1 northern Manitoba, spot, $1.13½. Corn was firmer; No. 2, 82½c. Oats were firm; No. 2, white, 81c., standards, 60½c. Rye nominal. Barley Malting, $1.15@$1.25 nominal c. i. f. Buffalo. Futures here were as follows:

	Open-ing.	High-est.	Low-est.	Clos-ing.	Prev. Close.
Wheat:					
July	115½	115⅞	115¼	115½	113⅛
Sept				111⅜	109¼
Dec	111	111½	111	111¼	

CHICAGO, June 4.—Prices were as follows:

New York:	Wheat.	Corn.	Oats.	Rye.	Barley.
Receipts	255,000	44,000	132,000		99,000
Shipments	72,000	1,000			89,000
Chicago:					
Receipts	14,000	445,000	211,000	3,000	2,000
Exports	202,000	168,000	337,000	2,000	9,000

The following are the northwestern wheat receipts:

	Yester-day.	Last Week.	Last Year.
Duluth	19	11	79
Minneapolis	74	89	100
Winnipeg	228	432	257
Totals	321	532	436

Chicago—Corn. Heavy rains are noted in parts of Illinois. On yesterday's decline there was an improved cash inquiry, sales for shipment aggregating in the neighborhood of 250,000 bush. There has been very free liquidation and we think that the market is on a healthy basis, although prices will depend chiefly upon the movement and demand.

Le Count wired from Ellsworth, Kan.: "Eastern Russell and some parts of Ellsworth county, some wheat heading and looking fine. Also many fields fair and others very poor. Weather cool. The greater part of State soil is very dry and wheat deteriorating rapidly from drought and much too far gone for recovery. Threatening rain."

St. Paul—Letter received from Mankato, Minn., reads: "Wild oats playing havoc in wheat fields in this locality. Fields are being ploughed up and corn put in." Wired Chalaca, Faulk county, S. D.: "We are having very high winds and dry weather. The dust is blowing and has begun to damage grain."

The Iowa crop bulletin says that the last week was favorable for field work, notwithstanding heavy rains in some sections. Planting and replanting of corn is nearly finished. The late planted is coming up and shows fair to good stand. Small grain continues to make rapid progress except in a few localities.

FLOUR.—Steady, with only a moderate demand. Spring Clears, $4.90@$5.10. Patents, $5.70@$6.25. Kansas straights, $5.25@$5.50. Rye flour, $5@$5.35.

SPOT COPPER SCARCE.

Unbooked July Metal a Rarity—Market Maintains Strength.

So well have the copper producers booked themselves ahead that they have sold out for the month of July. This condition, while satisfactory to the producers, may prove embarrassing to consumers who were not fortunate enough to fill their nearby requirements.

July copper available for sales has become a scarcity, in fact a rarity. A month ago heavy sales for July were booked at the time August transactions were commencing. It seemed to be the intent of the producers to market their July copper first, and in this they succeeded wonderfully well, having perhaps sold more than they intended for the time being.

The market maintained its strength yesterday and sales of electrolytic were reported at 17¼ cents a pound. Such transactions, however, were not general, for some of the large agencies were willing to care for the consumers' requirements in August at 17⅛ cents a pound.

The mining companies which received settlement for their copper based on the monthly quotations of the *Engineering and Mining Journal* will receive, it was ascertained yesterday, 16.031 cents, May's average for electrolytic, as compared with 15.741 cents in April. The average for lake during May was 16.245 cents, against 15.95 cents in the earlier month.

THE SUN was first in the field with the prediction that as a result of May's rather tempestuous operations 20,000,000 pounds reduction in stocks standing on June 1 might be realized. This view has since been taken up in other usually fairly well informed quarters.

The labor trouble which tied up the Baltimore refinery of the American Smelting and Refining Company has been gradually bettering itself, so that now the plant is working at about 75 per cent. capacity. Full operations are expected very shortly.

The Douglas Smelter of Phelps, Dodge & Co. produced 9,918,608 pounds of copper in May, 6,149,546 pounds being contributed by the Copper Queen mine and 2,892,521 pounds by Moctezuma, while 874,541 pounds was received from custom ores. Detroit's output was 2,092,478 pounds of copper, making a total for the Phelps, Dodge properties of 12,010,086 pounds.

The price of standard copper closed as follows:

SUGAR.—Raw was lower. Sales, 100,000 bags on the basis of 3.92c. for 96 test centrifugal, most of it afloat or prompt shipment, Muscovados 89 test, 3.42c.; centrifugal, 96 test, 3.92c. Refined in moderate demand. Granulated, 5.20c. net.

NAVAL STORES.—Spirit of turpentine, 47½c. Common to good strained rosin, $6.75.

BUSINESS TROUBLES.

Petition Filed Against Gouverneur E. Smith & Co.

A petition in bankruptcy has been filed against Gouverneur E. Smith & Co., composed of Gouverneur E. Smith, George J. Dettmar and Stewart D. Walker, wholesale dealers in lumber at 17 Battery place, by these creditors: Jump House Wrecking Company, $521; George W. Jump, $500, and Charles L. Livingston, $350. It was alleged that they are insolvent and made preferential payments. Judge Holt appointed Lindsay Russell receiver under a bond of $40,000. It was stated that the liabilities are $275,000 and assets mostly on accounts which are estimated at $75,000; that Gouverneur E. Smith, the senior partner, had complete control of the affairs, and his present condition is such that he is unable to be in charge of the assets. It is therefore necessary to have a receiver. The business was started in July, 1898, and they became one of the leading firms in the lumber trade. They were also interested in a wood manufacturing company at Waynesville, N. C., and were also selling agents here for two North Carolina lumber companies. Their financial statement a year ago showed assets $254,000 and liabilities $85,000.

Thomas N. James, salesman at 247 Fifth avenue, has filed a petition in bankruptcy with liabilities $74,525 and assets consisting of one share of stock of the Massachusetts Biographical Society of no value and which has been pledged to Kate H. James. The liabilities were mainly contracted in Chicago from 1897 to 1903 for rent, merchandise, notes, breach of contract and services. Among the creditors are Henry Dunning of Allston, Mass., $7,000; John Howard Brown, Newtonville, Mass., $5,000; Edward A. Parker, New York, $5,000; A. J. Holman & Co., Philadelphia, $2,500, and John T. Jones, Cincinnati, $3,000.

Irving Hornblock of 1 West Eighty-fifth street, who filed a petition in bankruptcy with liabilities $15,304 and nominal assets $2,077 in outstanding accounts of the Veatherine Paint Works which he purchased and seventy-five shares of stock of that corporation of no value. Among the creditors are Louis Meyer, $4,700; Louis Meyer and James E. Bennett, $1,591; James E. Bennett, $3,250 contingent, and the Mulhern Steam Heating Company, $3,225.

A petition in bankruptcy has been filed against the Renee Millinery Company at 24 West Twenty-third street by these creditors: Sonnenrich & Loewith, $817; D. Sheeline Son & Co., $452, and Eastern Millinery Supply Company, $608. It was alleged that the company is insolvent and made preferential payments. The company was incorporated on July 27, 1911, with capital stock $10,000, and Aaron Reinhardt was president. He has been in this line of business for thirty years and was in bankruptcy twice.

A petition in bankruptcy has been filed against Leander J. Buckley, doing business as L. J. Buckley & Co., dealer in railroad supplies at 237 Broadway, by these creditors: Gould Coupler Company, $1,250; Chicago Pneumatic Tool Company, $1,085, and American Car and Foundry Company, $2,696. He was also a partner in the firm of L. J. Buckley & Co. at 801 Broad street, Newark, which had a contract with the city of Newark for removing refuse. It was alleged that while insolvent in February, March and April he transferred $15,000 to the firm, on April 23 transferred $5,500 to the estate of Maria L. Buckley and made a preferential payment of $1,791 to the West Indian Oil Company. He lives in Glen Ridge, N. J., and being non-resident an attachment was obtained against him here recently by W. E. Hanna for $1,694. He began business in January, 1898. He was also president of a rubber manufacturing company at Morrisville, Pa.

New Chicago and Alton Bonds.

The Chicago and Alton Railroad Company, according to announcement made yesterday by the Treasury Department, decreased $2,879,643 during the month of May, 1912. The debt, less cash in the Treasury on May 31, was $1,067,757,276, recapitulated as follows:

Interest bearing debt	$963,776,770
Debt on which interest has ceased	1,765,210
Debt bearing no interest	379,212,852
Total	1,344,754,832

The cash in the Treasury is made up of the following items:

RESERVE FUND.

Gold coin and bullion	$150,000,000

REDEMPTION FUND.

Gold coin	$1,031,895,369
Silver dollars and bullion	486,180,000

GENERAL FUND.

Certified checks, gold coin, bullion and certificates	$94,930,570
