PUBLIC UTILITIES.

The Federal Light and Traction Company has filed the report for the earnings of its subsidiary companies for April and the four months ended April 30, 1913. The report does not include depreciation. Gross earnings for the month of April were $188,823 as compared with $169,127 for April, 1912, with net earnings of $81,522, against $68,578 for the same month last year. The increase in gross earnings was 11.6 per cent. while the increase in net earnings was 18.93 per cent. For the four months ended April 30, 1913, gross earnings were $816,347 as compared with $719,312 for the same period last year, an increase of 13.9 per cent., with net earnings of $356,570, against $306,784, making the increase for the period 16.8 per cent. For the twelve months ended April 30, 1913, gross earnings were $2,273,142, or $201,830 greater than the twelve months previous or 15.3 per cent. Net earnings of $966,935 showed a gain of $159,157, or 19.7 per cent.

At the annual meeting of the Montreal Light, Heat and Power Company to be held in Montreal to-day the stockholders will be asked by the directors to approve the increase of $5,000,000 in the capital stock of the concern, thus increasing its capitalization to $22,000,000. The new stock will be offered to the shareholders and the profits will be devoted to new construction now under way or contemplated. The directors do not plan to offer all of the new stock at once, but to sell it in lots as the occasion demands. At present the company has plans for the immediate construction of a new gas plant with a daily capacity of 4,000,000 cubic feet, which will ultimately be increased to 8,000,000 cubic feet. A new transmission line also is being built to carry the power which the company has contracted for from the Cedar Rapids Manufacturing and Power Company to Montreal. In addition to the steam generating station will be completed by October, 1913, which will provide for an auxiliary source of power in case of an interruption of the hydro-electric service.

Advices from the Great Western Power Company say that when the new work now under construction is completed the company will have available a large amount of electrical energy for which a ready market has already been found. The contract of the Pacific Gas and Electric Company with the Great Western for power expires in 1914. But it is planned by that time to have ready for installation new agreements which will call for the full amount supplied to the former concern. The work on the Feather River properties is progressing rapidly and the officials deny that the construction has been held up by bad foundations and other difficulties. Gross earnings for the last four months were $452,304, while the net earnings were $229,558.

The gross earnings of the Pacific Light and Power Company for March were $213,463, an increase of $21,634 over the same month the year previous, while the net earnings of $94,739 showed a gain of $18,367. The total income was $103,913, an increase of $22,491 over March, 1912, while the balance after the payment of interest charges was $64,382, a gain of $21,860. From January 1 to March 31, 1913, gross earnings were $647,667, an increase of $81,746, with net earnings of $279,953, showing a gain of $45,895, and the balance after interest charges of $190,476 was $74,468 larger than for the same period last year.

The Utah Power and Light Company has completed its negotiations with the Bear Lake Power Company of Montpelier, Idaho, and made the initial payment of $100,000 for the purchase of its properties, consisting of two plants at Georgetown and Paris. The plants are situated in a rapidly growing agricultural section and have transmission lines supplying light and power to several small towns in the vicinity.

THE BOSTON MARKET.

BOSTON, June 3.—Prices opened firm, but soon sagged. Around the noon hour stocks rallied. The close was irregular. Railroads were generally strong, with Boston and Albany and Fitchburg preferred advancing 1½ and ¾ respectively. Boston Elevated was an early strong feature, advancing 3¼ to 91½, making a recovery of 7¼ points from the low record of May 22. Coppers were weak in spots. Granby declined 1¼ and Old Dominion 1. United Fruit gained 1½ more to 157. United Shoe common sold at 46¾, a new low price for the year. The summary:

Money for Women's Club.

The Women's University Club borrowed $105,000 from the Mutual Life Insurance Company yesterday for the erection of a clubhouse at 106 and 108 East Fifty-second street, which it bought last year. Plans for the clubhouse were filed last February. They called for an eight story building with a facade of brick, limestone and concrete. One of the features of the building will be smoking rooms for the members.

THE PHILADELPHIA MARKET.

PHILADELPHIA, June 3.—Weakness ruled in the market to-day, most of selling apparently coming from traders, who so far have met with little opposition on the decline. A small failure had little or no effect on trading. Money hardened considerably over the opening of the new month and commercial paper rates advanced ¼ of 1 per cent. The closing was weak. The summary:

DAIRY PRODUCTS MARKET.

BUTTER—Although unchanged, the butter market was decidedly easier yesterday, with less speculative and consumptive demand. This followed advices of weaker conditions in the West, but the withdrawals for storage of large blocks kept the market from declining. Much butter is being stored for receivers' account when they cannot make a profit at the present market. Quality shows considerable improvement. Undergrades are in some accumulation and weak. Firsts are more plentiful than seconds. Under the call of the Mercantile Exchange 50 tubs of extras brought 28c. The market was worked up until seven lots of 625 tubs each brought 28¼c. at the close of the call. Receipts yesterday were 13,326 pkgs., making the arrivals so far this week 28,464 pkgs., compared with 24,621 last week and 28,001 a year ago. The excess this year is on account of the accumulated receipts due to Decoration Day. Process is in freer supply and weaker. Factory is offered freely and also weaker with packing stock in buyers' favor. Creamery extras, per lb., 28¼@28½c.; firsts, 27½@28c.; State dairy finest, 27½c.; good to prime, 26@27c. Process extras, 26@26½c.; firsts, 25@25½c. Imitation creamery, 25@26c. Factory firsts, 24c. Packing stock, No. 2, 21@21½c., No. 3, 20@20½c.

CHEESE—Despite light trading the market is firm, with buyers paying 14@14¼c. for high grade whole milk. Some lots can not be sold at these prices and bring cost owing to the high initial purchase price. In the absence of other outlet such cheese is being put into cure, although speculative buying is moderate. Local holdings are somewhat heavier than at this time last year, being figured at 23,900 boxes June 3, against 16,900 June 1, 1912. Skim cheese is quiet.

EGGS—Posted receipts show almost twice the arrivals Monday and Tuesday compared with the same period last week and with more heated stock the market is easier. The excessive supplies are due to the accumulation of Decoration Day and the semi-holiday Saturday. Fancy stock showing a larger portion of fine eggs is scarce and such is well sustained, but eggs showing heat and dirties are difficult to dispose of to good trading in dirties. Speculators show little interest in storage. Quotations will show wider ranges from now on owing to the deterioration in quality. Fancy large nearby white eggs are rather scarce and firmer, but ordinary nearby are plentiful.

Extras, dozen, 22@23c.; extra firsts, 20½@21½c.; firsts, 19½@20c.; seconds, 18@19c.; dirties, No. 1, 17¾@18¼c.; No. 2, 16½@17½c.; checks, good to choice, 16@17c. Nearby nearby specials, 23@25c. Western whites, 20@23c.; browns, 23c.; mixed, 20@22c.

LIVE POULTRY.—The week's receipts will reach about 85 cars by freight. Yesterday 19 cars of Western, one of Southwestern and seven by freight were unloaded with two cars by express. These latter were mostly broilers. Demand is mainly for fowls, but broilers are weaker and lower because of heavy supplies. The trend of the broiler market is toward lower prices as Southern cars show increased offerings. Receivers are calling for 28@27c. for Southern broilers, but the market was not definitely settled yesterday. Some express lots bring 28c. Fowls steady at 18@18½c.

DRESSED POULTRY.—Arrivals late Monday were free and with buyers absent receivers were forced to carry over some of their fresh fowls. They held out for 17½c. on best Western and Southwestern and for 17c. on Northern lots. Some fowls show full crops. It is against the local ordinance to sell full crop poultry and shippers are being warned by receivers. Old roosters go slowly, with broilers in ample supply but steady. Nearby spring ducks fairly plentiful and lower. Fresh killed turkeys in moderate supply owing to irregular quality and values. Squabs about steady. Turkeys, hens, fresh killed, 19c.; toms, 18@19c.; old, 18c. Philadelphia broilers squabs, pair, 40@60c.; 30@40c. to pair, 35@38c. Western, dry picked, 30c. Boxed parbuilt fowls, dozen to box, 60 lbs., 18½c.; under 36 lbs., 16@16½c. Iced fowls, dry picked, 4 lbs., 17½c.; 3 lbs. and under, 16@16½c. Old roosters, 13@13½c. Spring ducklings, 16½c. Squabs, prime, white, 10 lbs. to dozen, $4.25; prime white, 7 to 9 lbs., $3.25@$4.

FROZEN POULTRY.—Frozen roasters are firmly held, but move slowly. Frozen turkeys are in light supply and fancy grades are held firmly, especially young toms. Turkeys, young toms, No. 1, 26c.; medium, 23@24c. Hens, 24@25c.; old hens and toms, 18@23c. Other grades, 18@23c. Chickens, broilers, milk fed, fancy, 24 lbs. and under, 28@30c.; 25 to 30 lbs., 24@25c. Corn fed, 24 lbs. and under, 24@25c.; fancy, 25 to 30 lbs., 21@22c. Roasters, milk fed, fancy, large, 21@22c.; 4 lbs. and over, medium grade, 18c. Corn fed, fancy, large, 19@20c.; second grade, 17c. Friers, milk fed, fancy, 19c.; second grade, 18c. Corn fed, fancy, 17@18c.; second grade, 16c. Capons, Western, 8 lbs. and up, 28c.; under 6 lbs., 24@26c.

BUSINESS TROUBLES.

ISAAC GROSSMAN AND CHARLES MICHAEL.—Isaac Grossman, a builder of 823 Fox street, The Bronx, and Charles Michael, a builder of 848 Whitlock avenue, The Bronx, who were president and treasurer of the Peto Realty Company, filed separate petitions in bankruptcy to get rid of liabilities incurred mainly through indorsing notes of the company and for guaranteeing contracts for materials, supplies and labor for the concern. A petition in bankruptcy was filed against the company on October 10, 1911. Mr. Grossman's liabilities are $120,625 and his assets, consisting of ten shares of stock of the Peto Realty Company, are of no value. Mr. Michael's liabilities are $84,234 and his assets are ten shares of the Peto Realty Company of no value. The actual liabilities are considerably less than the above figures, as many of the debts are put in twice where the creditors hold notes. Among the creditors who appear in both petitions are Kerrscher & Co., $9,750; David Gordon, $5,500; D. Klingenbeck & Co., $4,550, and the United Parquet Flooring Company, $4,225. Among the creditors of Mr. Grossman are Celia Michael, $12,600, and Moses Goodman, $19,000, secured by mortgage on property at the southeast corner of Stanton and Allen streets.

HARRY LEVINE, formerly a clothing dealer at 332 Seventh avenue, has filed a petition in bankruptcy, with liabilities of $6,065 and no assets.

ROBERT MEYER of 123 Liberty street has filed a petition in bankruptcy, with liabilities of $3,603 and no assets.

SIGMUND KREUTER of 71 St. Mark's place, formerly a dealer in wines and liquors, has filed a petition in bankruptcy, with liabilities of $3,091 and no assets.

MORRIS HERTZBERG.—A petition in bankruptcy has been filed against Morris Hertzberg, dry goods dealer, of 1760 Washington avenue. It was alleged that he is insolvent and made preferential payments of $500. The liabilities are $3,000, and it is said there are no assets.

GOLDSMITH & WILLNER, wholesale dealers in jewelry at 325 East Houston street, have made a settlement with creditors at 25 cents on the dollar, payable 5 cents cash and the balance in four notes of 5 cents each, payable in 100, 200, 260 and 320 days. The petition in bankruptcy filed against them on May 17 has been dismissed.

NEVADA-UTAH MINES AND SMELTERS CORPORATION.—Judge Holt has affirmed the order of Peter B. Olney, referee in bankruptcy, allowing the claims of I. Vogelstein & Co. for $89,000 and of C. J. Caughey for $13,977, against the Nevada-Utah Mines and Smelters Corporation of 100 Broadway, against which concern a petition in bankruptcy was filed on November 28, 1911.

STEEL WIRE LOWER.

Leading Producers Make Reduction in Price of $1 a Ton.

Leading steel companies yesterday made a reduction of $1 a ton in some steel wire products prices, including quotations for most of the wire and wire nails products in most common use. New prices are $1.75 per 100 pounds for wire and $1.80 for nails. As there was an advance of the same amount as the present reduction only a few weeks ago steel market authorities do not consider the lowering of wire prices a sign of weakness. Many consumers of steel wire products considered the advance of a few weeks ago as unwarranted and out of proportion with other steel prices. A fair increase in the volume of orders is expected as a result of the latest change in quotations. Buying of wire has not been heavy for some time past.

Further concessions in prices in other steel products have been reported in scattered instances, but only the smaller makers as a rule have been quoting under the market, and that for only quite small orders. No weakness has been discovered in the general market, even though new business continues light. Some small sheet makers have made a $2 per ton reduction on galvanized sheets, selling at $3.40 per 100 pounds, Pittsburg basis. Some black sheets have been sold at $1 a ton under quotations of the general market, or at $2.30 per 100 pounds at Pittsburg.

While iron prices in May worked materially under what they had been a month or two earlier in the year, they were still well above the quotations for May, 1912. Bessemer in the past month averaged $16.78 a ton, valley basis, or $2.55 a ton above the month the year before. Basic iron averaged $14.89 a ton, or $1.89 above May, 1912.

THE CHICAGO MARKET.

CHICAGO, June 3.—A further reactionary movement developed to-day, with a good deal of pressure being concentrated in Sears-Roebuck during the final trading. Diamond Match, Commonwealth Edison, Booth Fisheries preferred and the American Can issues reflected a weaker tone. Bonds moderately active with fractional changes. The summary:

EUROPEAN-AMERICAN DIVIDEND.

Six Per Cent. More for Creditors of Defunct Bank.

State Bank Superintendent Van Tuyl announced yesterday that a third dividend of 6 per cent. is to be paid to the creditors of the European-American Bank, which failed August 6, 1910. Two dividends aggregating 75 per cent. have already been paid.

The bank was capitalized at $100,000 and had liabilities of $271,508 at the time of its failurre. There were 623 creditors, and the amount previously disbursed aggregated $133,308. The present dividend will call for a payment of $10,744. At the time of its failure the institution had deposits amounting to about $225,000.

Broadway Trust Increases Capital.

At a special meeting of the Broadway Trust Company yesterday it was voted to increase the capital stock from $1,000,000 to $1,500,000, the additional 5,000 shares to have a par value of $100 and to be sold for $150 per share cash. The deposits of the Broadway Trust Company now amount to $15,500,000.

RESULTS AT AUCTION.

Public Offerings Yesterday in Manhattan and The Bronx.
