ROBERTS SAYS STEEL TRUST IS NOT UNFAIR

Never Waged a Destructive War on Its Rivals, He Tells the Referee.

PRICES ARE NOT UNIFORM

Explains Cancellation of Lease of the Great Northern Ore Lands.

Percival Roberts, Jr., a director of the United States Steel Corporation, was turned over yesterday to Jacob M. Dickinson, special counsel to the Government, for cross-examination. He had told earlier why the Steel Corporation cancelled its lease on the Great Northern ore lands and had said that the prices of steel in the last ten years have not been uniform over any extended period; had denied that his corporation ever gained business unfairly by price cutting and had pointed out that the Steel Corporation could not wage a destructive war on its rivals without hurting itself to an equal degree.

Under the questions of Mr. Dickinson he maintained everything he had said on direct examination. When the cross-examiner sought detailed information concerning the capitalization of plants fifteen and twenty years ago Roberts smiled and said: "I am not a walking directory."

Mr. Roberts said that the Steel Corporation had enabled the consumer to get uniform quality of material. He said that the corporation sought to reach the consumer directly and aimed always to have on hand, like a department store, all standard grades and sizes of steel. He explained that the quoted price of steel commodities in the trade journals are largely theoretical and seldom correct.

"The prices," the witness said, "are the result of information gleaned in the Street, and represent the best judgment of those who collect it."

The witness said there were two reasons for surrender by the Steel Corporation of the lease to the Hill ore lands. He said one reason was that the ore had not developed the qualities expected, and the second was the criticism of the Government of the size of the corporation's ore holdings. He himself was in favor of holding the lands, he said, but deferred to the judgment of his fellow directors.

$30,000,000 ISSUE SOUGHT.

Southern Pacific Wants to Sell Notes for Amount.

The Southern Pacific has applied to the California Railway Commission for permission to issue $30,000,000 two year 5 per cent. collateral trust notes to carry out an extensive expansion scheme, which includes construction work in Louisiana, Texas and California.

Additional facilities for the Atlantic steamship lines which the Southern Pacific operates from here to Gulf ports also are to be taken care of through the new financing.

Pending the consent of the railroad commission arrangements have been made with Kuhn, Loeb & Co. for an immediate sale to the bankers of $15,000,000 of the notes. These will probably not be offered publicly, and it is understood that preliminary arrangements have been made whereby practically the entire amount of this first issue will be taken privately. The remaining half of the total issue, it is expected, will not be brought out until the autumn.

With the exception of $5,000,000 equipment notes recently sold the Southern Pacific has no other note obligations against it.

The present issue is in certain degree a reflection of the failure of the plan of dissolution for the Union Pacific presented to the court at St. Louis. Had this plan been successful Southern would have received practically $84,000,000 in cash from Union Pacific as the result of the sale of Central Pacific. This would have financed all Southern's special needs for the present.

Under the new plan of dissolution Southern Pacific is entirely unaffected and must therefore do a good deal of financing. The yearly expenditure of the road is heavy. In addition this year there must be larger expenditure to provide for extension and improvement of certain lines because of readjustments of traffic and development work made necessary through the divorcing of the system from Union Pacific.

HEARING SET FOR U. P. PLANS.

St. Paul Court Will Consider Proposals on June 12.

St. Paul, Minn., June 5.—The alternative plans formulated by the Union Pacific Railroad Company for the disposition of the stock of the Southern Pacific held by it will be heard on June 12 in the Circuit Court of Appeals in St. Paul.

One plan proposes that the stock shall be offered for public subscription at a minimum price. The other that it shall be transferred to a trustee to act on behalf of the shareholders.

DETECTIVE CRIES BLACKMAIL.

Accuses Two Men of Oppression Because He Was in Prison.

Max Finkelstein, at one time in the United States secret service, in the West Side court yesterday charged Morris Sinoff of 238 West Thirty-fifth street with oppression. In 1906 Finkelstein, than a notary public, was arrested for getting false signatures to a petition for the renomination of William Travers Jerome for District Attorney and was sentenced to twenty days.

After his release he opened a detective agency. He was successful, he says, until Sinoff and Joseph Whalen, another defendant, used his prison sentence to blackmail. He charges that on Wednesday Whalen attacked him in front of his office. Whalen was recognized as a fugitive from justice for whose arrest a bench warrant was issued three years ago. He was arrested. Sinoff was released in $500 bail for a hearing on June 10.

WIFE SUES C. S. PATTERSON, JR.

Asks Divorce From Son of Pennsylvania Railroad Director.

PHILADELPHIA, June 5.—Suit for divorce has been entered by Mrs. C. Stuart Patterson, Jr., whose husband is a lawyer and a son of C. Stuart Patterson, a director of the Pennsylvania Railroad. Mrs. Patterson was Miss Ada Hetherington, daughter of A. G. Hetherington, a former member of the Civil Service Commission. The marriage was celebrated in June, 1910.

RECORD IRON OUTPUT.

Pig Iron Furnaces Produce 2,822,217 Tons in May.

Pig iron production in May, according to the figures of the *Iron Age*, was 2,822,217 tons, the largest output for any month on record. This compared with 2,752,781 tons in April and 2,512,582 tons in May last year. The largest output in recent years for any month was 2,582,737 tons in December, 1912.

The daily average production of pig iron in May, however, was lower than in either April or February of this year. The May average per diem was 91,039 tons, against 91,759 in April and 92,369 in February. The last figures were the highest daily average for any month on record.

The outlook is for a lower production in June than in any previous month in 1913. There are fewer blast furnaces active, and more are expected to close down during the month than there were at the first part of preceding months this year.

The *Iron Trade Review* says:

"The most important development for a number of weeks in the pig iron market has been the very encouraging increase in buying in the Eastern territory and the much more active inquiry in the East and in the Pittsburg district. The probability that there will soon be an active buying movement is much stronger. The new inquiry in the Philadelphia and New York district is conservatively estimated at about 50,000 tons, of which 25,000 tons have developed into orders. The production of pig iron by coke and anthracite furnaces in May was the greatest in the history of the trade, tonnage being 2,815,336, compared with 2,754,353 tons in April. January of this year had previously held the record. The blowing out of furnaces indicates that there will be a sharp decline in production this month. May was likewise a record breaker month in the movement of iron ore, the shipment from the Lake Superior region being 7,284,212 tons, the greatest for any May in the history of the Lakes. New business is light, but, as is usually the case in a contracted market, rumors of price concessions, which are for the most part unfounded, are in circulation. Price cutting is confined to a few products. On the whole, the favorable factors outweigh the unfavorable."

STOCK EXCHANGE VIGILANT.

Enforcing Rules Strictly to Prevent Adverse Criticism.

During this season of depression in financial circles the officials of the Stock Exchange and the committee on good business conduct are seeing that all the rules of the exchange are vigorously enforced.

Several brokers have been summoned to give an account of themselves for things which at any other time might go unnoticed. The officials are determined that nothing shall occur to give alarm to investors or cause for adverse comment among the public.

Margin accounts are being carefully looked into, and investors who were accustomed to trade on a liberal margin and whose word was as good as a cash payment are being surprised every few days at being notified by their brokers that they must put up more margin.

DIVIDEND CUT IS DENIED.

Baltimore and Ohio Expects to Pay Usual 6 Per Cent.

It is said that the reports from Berlin that there was danger of a cut in the Baltimore and Ohio 6 per cent. dividend rate on the common stock were without foundation. Even after laying aside $3,000,000 extra outlay for expenses resulting from flood damages the management expects to have an excess of 1½ per cent. over the regular dividend disbursements.

It is said that May earnings will be about $8,800,000, making a total of $93,000,000 for ten months, or $100,000,000 for the year, as compared with $92,594,000 last year. The company is still devoting over 31 per cent. of its gross earnings to the purpose of maintenance. The next dividend is due in September.

COURT CALENDARS THIS DAY.

NEW YORK COUNTY.

Appellate Division—Supreme Court—Before Ingraham, P. J., McLaughlin, Clarke, Dowling and Hotchkiss, JJ. Court opens at 2 P. M. Nos. 830, 801, 800, 803, 782, 798, 801, 727, 799, 437, 797, 712, 767, 788, 795.
