15 PERSONS PERISH IN EASTERN STORM

Intense Suffering Follows Gale Which Wrecks Buildings and Delays Trains.

LOSS EXCEEDS $1,000,000

Senator Cummins and Hundreds of Others Desert Cars for Farmhouses.

The weather forecast is for an unsettled day to-day. To-morrow is promised fair.

CHICAGO, Nov. 10.—Aftermath of the great storm which swept over the territory from the head of the great lakes to the Atlantic seaboard and south almost to the Florida line show that the destruction was greater than estimated last night.

Wires are still down in many directions and the full extent of the disaster cannot be ascertained.

The latest reports show that three persons perished in the blizzard in the vicinity of Hammond, Ind.; two were drowned and three killed by cars while stumbling about in the bewildering gale which struck Chicago; two were killed in Utica, N. Y., and five others at scattered points in Wisconsin, Illinois and Indiana.

Pittsburg appears to be the centre to-night of the storm which yesterday swept the territory where Detroit and Cleveland are the centres. Several trains are reported lost in snow drifts and telegraph and telephone wires are down.

Heavy snow fell in Indiana, Ohio, Kentucky, Pennsylvania and West Virginia, reaching a depth of the level of sixteen inches in several places, while the railway cuts of West Virginia are said to be filled to a depth of fourteen feet. At Jacksonville, Fla., the temperature dropped to 43 degrees and the fruit and early vegetable crops are damaged badly.

Charleston, S. C., experienced a minimum of 41 degrees. Indianapolis reports a minimum of 23 degrees and a foot of snow fell at Plymouth, Ind.

PITTSBURG IS STORM CENTRE.

Intense Cold Drives Hundreds to Charitable Societies.

PITTSBURG, Pa., Nov. 10.—Western Pennsylvania is still demoralized by the worst early winter storm in its experience. Nearly every activity is badly deranged. Trains are held up or late and all other forms of transportation, within cities and towns as well as between them, are interfered with seriously.

The outlook, according to weather observers here, is for cold approximating 20 degrees to-morrow, a high, blustery wind and more snow. Light snow fell today. The temperature hovered between 21 and 25 degrees and caused much suffering.

Telegraph and telephone wires are still badly crippled. In many places miles of poles are down. Many schools are closed. Snow lies to a depth of from one to two feet over this part of the country.

One farmhouse in Washington sheltered ninety-five passengers, one of them Senator A. B. Cummins of Iowa, who had been visiting his father in Carmichaels. He was on his way to Washington for a conference with President Wilson.

In Pittsburg and vicinity there is much suffering in the tenement districts. The Salvation Army, Associated Charities and other charity organizations are working overtime supplying clothing, fuel and food. All are sending out requests for contributions.

AKRON, Ohio, Nov. 10.—Buried in snow, three railroad trains carrying between 300 and 400 passengers are stalled near Hudson, Ohio. Two of the trains left Cleveland last evening for Pittsburg and the third left Cleveland this morning.

The New York Central's Twentieth Century train, bound from New York to Chicago, is stalled at Elyria.

The snow has drifted around the cars until it has covered all trains completely. It is impossible to ascertain the condition of the passengers, as all wires are down. All the trains carry dining cars.

$1,000,000 LOSS ON LAKES.

Storm Destroys Boathouses, Breakwaters and Ships.

DETROIT, Mich., Nov. 10.—Property damage of $1,000,000 was done to shipping interests on the Great Lakes Sunday by the fierce gale and blizzard which attained a velocity of 65 miles an hour on the Detroit and St. Clair rivers and as high as 75 and 80 miles an hour on Huron and Superior lakes. Piers, breakwaters and boathouses have been destroyed and hundreds of small craft wrecked.

From the Soo it is reported that more than fifty steamers are in shelter between that place and Whitefish Point. Several others lost their anchors and returned to the Soo. The life saving crews and sailors on shore agree that the storm was one of the worst ever seen and broke all records for this time of year.

Michigan suffered considerable damage. Frozen crops and houses and factories wrecked by the winds, in addition to the damage caused along shore, are reported. Heavy snow demoralized traffic in the northern part of the State.

SNOW HEMS IN THE PLOUGH.

Relief Cars Unable to Reach Trains Delayed in Maryland.

CUMBERLAND, Md., Nov. 10.—The snow is still falling in the mountains west of Cumberland, where it has reached a depth of two feet and the Baltimore and Ohio Railroad authorities look upon the situation as most grave. Five camp trains and hundreds of men have been sent out to repair the telegraph lines and open the cuts. Snowploughs are being run. Passenger train No. 8 from Chicago to New York arrived here to-night thirteen hours late.

Along the Western Maryland Railway in the vicinity of Thomas the snow is twenty-eight inches deep. Beyond Thomas there is no telegraphic communication. Both Elkins and Grafton are isolated.

A snowplough which went to the rescue of a snowbound passenger train is snowbound. It will be several days before telegraphic and telephonic communication can be restored.

SIX BOATS SUNK AT BUFFALO.

Trains Delayed and Wires Blown Down by Terrific Gale.

BUFFALO, N. Y., Nov. 10.—Heavy damage along the lake and river front was caused to-day by a gale and blizzard which reached a maximum velocity of seventy-two miles an hour late in the afternoon. Traffic is at a standstill and the railroads and steamship lines will lose heavily.

Six boats were torn from their moorings and sunk in the Black Rock Harbor channel. Three were large cabin cruising sail yachts, one was a tug and the others valuable power boats.

All trains from the west are from one to nine hours late. Freight schedules are annulled temporarily. Wire service with the North and West is crippled and messages are being sent by way of Washington and St. Louis for Pacific coast points. Telegraph and telephone poles in outlying sections were razed.

Owing to a break in a heavy transmission power cable between Niagara Falls and Buffalo only a few street cars were operated in the morning.

'DAMAGED GOODS' LOST IN SNOW

Company Scheduled to Play in Rochester Delayed by Storm.

ROCHESTER, N. Y., Nov. 10.—Although this city has escaped the disastrous storm in the Eastern States it has suffered from delayed trains.

"Damaged Goods," said to be en route from Detroit and scheduled to give a performance here to-night, was reported stalled between Detroit and Cleveland. The theatre cancelled its afternoon performance.

So far Rochester has had only a high wind, low temperature and a light snow. Trains from the west have pulled into the city twelve to thirteen hours late.

MERCURY POISONING STIRS HEALTH BOARD

Two Plans for Prevention of Epidemic Are Under Consideration.

The large numbers of deaths caused recently by the accidental taking of bichloride of mercury and of suicides by means of the poison have led the Board of Health to consider two plans for regulating the sale of the substance.

One plan contemplates an amendment to the sanitary code calling for a specific shape and color for the tablet so as to make it hard to mistake, even by touch. The other plan calls for an amendment to the code prohibiting the sale of bichloride of mercury except on a physician's prescription.

The plan for regulating the form of the poison tablet was submitted at the last session of the Board of Health. It proposed to modify Section 67 of the code so as to make it read:

"Bicloride of mercury, otherwise corrosive sublimate, shall not be offered for sale or sold at retail in dry form except in a flat, triangular or three cornered tablet, colored blue, and the same shall be dispensed in a blue or amber colored corrugated bottle conspicuously labelled 'Poison' in red letters."

The Board of Health is now trying to decide whether the above section or the absolute prohibition of the sale of the poison except on a physician's prescription would be the more effective way of safeguarding the public against accidental taking of bichloride of mercury.

Miss Beatrice Byrne of Weehawken, an undergraduate nurse who took bichloride of mercury by mistake for asperin tablets last Thursday, was pronounced out of danger at Christ Hospital, Jersey City, yesterday. She discovered her mistake promptly and received medical treatment before the mercury took effect.

NEWARK, N. J., Nov. 10.—The young woman who took four bichloride of mercury tablets was identified in St. Barnabas's Hospital to-night by Dr. Frank O. Stockton of 22 Central avenue as Mrs. Jennie B. Rothgerry, a widow, about 24 years old. He said she lived in this city, that she was a patient of his for several years and that he had known her for nine years. According to the doctor Mrs. Rothgerry has a daughter, Alberta, 10 years old, who is with friends. He said he knew where she was, but did not care to tell until the result of the poisoning was known.

Mrs. Rothgerry was found sitting on the front stoop of a three family house at 42 Thomas street last night by Harry Terrill, who lives in the house.

PATERSON, N. J., Nov. 10.—Mrs. Mona Earl, the young woman who took three bichloride of mercury tablets and two morphine tablets yesterday, is recovering, it was said to-day at the Paterson General Hospital. Quick work by the doctors when Mrs. Earl told her landlady what she had done is said to have saved her life.

GOMPERS OPENS CONVENTION.

Gov. Lister Tells of Canal's Immigration Problem.

SEATTLE, Nov. 10.—President Samuel Gompers formally opened the thirty-third annual convention of the American Federation of Labor here to-day with 2,000 delegates present. Besides officers of the Federation, there were present Secretary Wilson, Gov. Lister and Mayor Cotterill.

The Governor, who in early life belonged to the iron moulders' union, appealed for help in solving the problems of the immigration that will result from the Panama Canal.

The Mayor presented the key of the city to President Gompers and told of Seattle's municipal eight hour day, municipal minimum wage and two platoon fire system.

Gompers's speech declared for a free press and free speech.

A split in the electrical workers' union was reported.

$500 FOR AN ETCHING.

Total Realized From Dillaway Collection, $6,636.

The Dillaway collection of etchings by Sir Francis Seymour Haden was sold last night by the American Art Association and some high prices were realized. The rarity of many of the impressions caused lively bidding.

The highest price paid was $500 for a first state of the "Thames Fisherman," which sold to A. Roulier. The same buyer also got the fine "Mytton Hall" for $280, and the second state of "Early Morning, Richmond" for $190. The first state of this etching sold to Keppell & Co. for $260.

Otto Burnett, agent, paid $460 for the "Sunset in Ireland," and $350 for the first state of the "Shere Mill Pond." F. W. Drake got the second state of this etching for $330. F. Maeder paid $180 for the "Breaking Up of the Agamemnon" and $120 for the "Windmill Hill, No. 1."

The total for the sale was $6,636.

Grace George Has New Play.

Grace George will end her engagement in "Half an Hour" at the Lyceum Theatre next Saturday night, her engagement with Charles Frohman for the J. M. Barrie play being for its New York season only. Miss George has begun rehearsals of a new play written for her by Avery Hopwood entitled, "Miss Jenny O'Jones." The play will have its premiere Thanksgiving week.

MRS. BELMONT BACKS MURDERESS'S FIGHT

Sees Injustice in Conviction of Mrs. Wakefield by Jury of Men.

SHE CRITICISES COMSTOCK

Describes Noted Crusader Against Vice as Toady to the Rich.

Mrs. O. H. P. Belmont gave out an interview yesterday on the effort that is being made by the Connecticut suffragists, under the leadership of Mrs. Thomas Hepburn, to free Mrs. Bessie Wakefield, convicted of the murder of her husband.

"This woman was tried, convicted and sentenced by men," said Mrs. Belmont. "Can you imagine any man standing up in a law court to be judged by laws made and enacted by women, facing a woman Judge and a jury of women and his case handled by women lawyers? Do you know any man who would stand for such injustice? Would he not have a right to say: 'You do not understand my nature, my impulses, my rights'?

"This woman's mother seems to have been the only person to strike the keynote of the situation. She says: 'The lover had a terrible power over her. Both men had threatened to kill her. Between them her life was a terror.'

"In her ignorant helplessness she chose the only way she saw out of it to get rid of one of her torturers.

"What does a man do when a wife and children stand between him and another woman? He leaves them.

"Why didn't this Connecticut woman go away with this new man who had come into her life? Because she could not leave her children.

"Now, the maternal instinct comes into the situation. A woman's 'human nature'—you know we hear so many excuses for men's 'human nature' when the sex question is involved—will govern her at times.

"What man on that jury of twelve threw the first stone at her?

"But this woman had another nature, something we don't find in men under like circumstances. She could have left her brood uncared for. But, you see, the woman nature governed her and she stayed and let the other man rid her of the brutal husband.

"Give us this woman nature in the making of the laws for woman crime, give us woman nature in half the jury box, give us a judge who will know or understand something of woman nature. In fact, give us justice, which I claim this Connecticut woman has not had and which no woman under man made laws with only men to judge and convict her ever can have.

"We ask for no sentiment, no sex indulgence. We ask for simple justice.

"It takes both men and women to deal with men and women," Mrs. Belmont continued, "and we want the same justice for both. We don't want any of this indirect influence that the anti's are always talking about.

"But justice is a hard thing to get. When Anthony Comstock came to see me he said he was going to have the girls who were selling the *Suffragette* arrested.

"'Don't arrest those girls, who are doing what I tell them to do for $5 a week,' I said. 'Arrest me. I'm the person responsible.'

"'Oh, no, Mrs. Belmont,' he replied. 'I have too much consideration for your position.'

"Apparently Mr. Comstock has no respect for a girl earning her living by selling merchandise.

"I disavow absolutely connection with any circulars or statements from Mr. Schneider. He was not connected with my campaign and I resent any statements made by him.

"The resolutions for a dinner to President Finley were unanimously passed and have the approval of all the alumni. Personally I have the greatest respect and admiration for Dr. Finley.

"No racial question was involved in my candidacy. There is the warmest feeling on the part of the alumni toward Mr. Burchard and all will cooperate to make his administration a great success."

The alumni at their meeting adopted a resolution asking the college trustees to select a City College graduate as President Finley's successor.

Saved Safe With Workers' Money From Flames.

WILMINGTON, Del., Nov. 10.—Fire early this morning destroyed the office building and machine shops of the Delaware Breakwater Company at Bellevue.

In the safe in the office was a large sum of money, mostly in notes, which had been taken from bank to pay off the several hundred employees. Officials of the company requested the firemen to save the safe at any cost, and the firemen directed several streams of water on that end of the office and kept the safe cool amid the glowing ruins.

DENIES ATTACK ON BURCHARD.

Bernard Naumburg Explains Alleged Row in City College Alumni.

Lewis Sayre Burchard and Bernard Naumburg made it plain yesterday that they are the best of friends and that Mr. Naumburg was not responsible for acrimonious remarks made at a meeting of the Associated Alumni of the College of the City of New York on Saturday night preceding Mr. Burchard's reelection as president. He defeated Mr. Naumburg by a vote of 110 to 87.

A faction led by H. G. Schneider of the class of 1887 was displeased because tickets to the farewell dinner to be given at the Hotel Astor on Saturday for John H. Finley, president of the college, are to cost $5. Mr. Schneider and his friends thought $1 was enough. Mr. Schneider scattered unsigned circulars headed "Alumni C. C. N. Y., Arouse!"

"Vote in a board of directors," said the circular, "who will let you direct them by your manifold counsel ere they engage Waldorf or Astor banquet halls and set dates."

In a speech Mr. Schneider called the nominating committee a "close corporation."

Yesterday Mr. Naumburg and Mr. Burchard had a long talk in the latter's office at 2 Rector street. When they parted Mr. Burchard said that any statement from Mr. Naumburg would have his approval. Mr. Naumburg then dictated this:

"I was the opposing candidate for the office of president of the Associated Alumni. The only contest was for that office. All other elections were unanimous. After Mr. Burchard was reelected I moved that the election be made unanimous and it was carried. I greatly respect Mr. Burchard as an individual and an alumnus and recognize his good work.

"My reason for being a candidate was that I believed in a different policy for the alumni. Now that is settled. As an elected director I bespeak for the association and the opposition the heartiest cooperation in anything that Mr. Burchard attempts to do.

"I disavow absolutely connection with any circulars or statements from Mr. Schneider. He was not connected with my campaign and I resent any statements made by him.

"The resolutions for a dinner to President Finley were unanimously passed and have the approval of all the alumni. Personally I have the greatest respect and admiration for Dr. Finley.

"No racial question was involved in my candidacy. There is the warmest feeling on the part of the alumni toward Mr. Burchard and all will cooperate to make his administration a great success."

Purity in Every Drop. We Take Pardonable Pride in Saying

Imperial Pale Ale

Bottled only by the Brewers, Beadleston & Woerz, New York. Order from any dealer.

Imperial Leads All Ales for Purity. It Tastes Good.

Man-

suppose you tried to hire a laborer to do daily—for one week—what you have been doing every day for years,—do you think he would take the job? Not much—eight hours a day is good enough for him.

Then you wonder why you are so easily irritated, why you can't digest the food you used to get away with, why you're generally "out of sorts" so often.

The real trouble is you've been doing more than a "man's work," you've been burning the candle at both ends.

Nature never intended you to be out of sorts in this way. *You were created to be well, you were born to be strong and vigorous.* Better stop a while, right now, and get yourself in shape.

It isn't such a difficult matter if you go about it the right way. *The best way* is told by word and pictures in a most interesting book, just off the press, called,

"The Way to Get Well"

It explains in detail Treatments that will just fit your needs, that have in them just enough play to make your dinner welcome, just enough "stir" to make you "sleep like a log" and all obtainable under ideal conditions of accessibility, climate, surroundings and accommodations.

Send today for your copy, it's waiting here on my desk for you.
